THE PLAN OF CAMPAIGN
Outlined in Recommendations of Secretary of War Alger.

LANDING OF TROOPS IN CUBA
Will Be Hurdled Forward, and Our Soldiers Will Also Be Sent to Porto Rico at the Earliest Possible Moment.

Washington, June 2.—For the first time since the beginning of hostilities there appears to be something in the nature of an official statement of the plan of campaign of the United States government. This is contained in a letter of Secretary Alger to the speaker of the house transmitting certain recommendations and statements of General Ludlow, which disclosed the purpose of the war department to send 70,000 men to Cuba, 20,000 to start at once and the remainder just as soon as they can be made ready for departure. Then there was an estimate for establishing electrical communications in connection with the army in Cuba, Porto Rico and the Philippines, showing for the first time officially an implied intention on the part of the government to land troops in Porto Rico. Of course all these movements have been anticipated by the press, but nevertheless a strong element of doubt existed, and therefore the official statement of the government's purpose, made even in this indirect fashion, created a profound sensation here.

A good deal of interest attached to an order that would be made in the department providing for the organization of the 75,000 additional volunteers called for. The order officially established the statement heretofore made in these dispatches that a large proportion of the new men are to be used to fill up the existing regiments of volunteers, which are in most cases deficient in numbers. According to the plans already formulated 52,000 troops will be required to recruit the regiments of the existing organizations up to their maximum strength, leaving only 23,000 troops to be mustered in for the organization of entirely new regiments.

Several of the states and territories have already furnished troops under these calls and Adjutant General Clegg is authorized by the statement that none of them will at this time be called upon to furnish any additional troops. The District of Columbia and the following named states are included in the list: Delaware, Vermont, North Dakota, South Dakota, Montana, Idaho and Wyoming.

An additional evidence that the actual forward movement of the army and navy has begun was given in the action of the foreign naval and military observers. They have been sojourning leisurely in Washington for some time, but within the last week all of them have started for Florida. The British naval and military attaché were the first to leave, and now they have been followed by the German, Austrian, Russian, Swedish, Norwegian and Japanese observers. The government of Norway and Sweden has no less than six military and naval experts to observe various branches of the warfare.

An evidence of the elaborate preparations that are making for the subsistence of the troops mobilized and to be sent to Tampa is obtained from the fact that the commissary's department has now on hand at that place 5,000,000 rations. A ration is one day's food supply for a soldier. On this basis there is subsistence at Tampa for an army of 50,000 men for a hundred days, and for a smaller army for a greater number of days. The supply is being increased daily. In view of the arrival of additional soldiers to be enlisted in the army of occupation of Cuba and Porto Rico.

It is understood that today the secretary of war will ask congress for an additional appropriation of about \$50,000,000 on account of the second call for 75,000 volunteers. The amount so far asked for or appropriated by congress on account of the war is approximately \$375,000,000.

A statement from Madrid, in what seemed to be almost semi-official form, of the acuteness of the financial stringency there, and the plain intimation that the Bank of Spain, and consequently Spain, were nearing the end of their financial resources, is regarded at the state department as of more real significance than many of the stories of battles on land and sea that have been coming over the cables for the past few weeks. The effect of this notice may be to hasten the operations against Porto Rico, lest the "ice" slip from our grasp through a sudden and unexpected termination of the war.

Discovered by a Woman.
Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its secret tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved in taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at A. W. Wiley's Drug Store. Regular size 50c and \$1.00. Every bottle guaranteed.

CURBNATIONAL FIGHT
As Warm as the Weather Among Pennsylvania Republicans.
W. A. STONE STILL IN THE LEAD,
Though the Friends of Charles W. Stone Assert That Their Candidate Has Two More Votes Than Are Needed to Nominate Him.

Harrisburg, June 2.—The contest for first place on the state Republican ticket is as warm as the weather. Colonel William A. Stone, of Altoona, is still the favorite, with Charles W. Stone, of Warren, a close second. John Wanamaker, of Philadelphia, is making a strong fight, and will poll a large vote. Congressman William Connors, of Scranton, and ex-Congressman John Leisenring, of Hazleton, have withdrawn, and their delegates will be divided between the two Stones. Connors' ten delegates and six of Leisenring's will vote for Colonel Stone and the balance for C. W. Stone. As for General Frank Reeder, of Easton, his candidacy is not taken seriously. He will receive the complimentary vote of Northampton delegates on the first ballot. After that they will vote for Colonel Stone, if another ballot is necessary.

There has been little or no contest for the other places on the ticket. They will be as already forecasted in these dispatches. There is a sentiment among the younger delegates against General Latta's renomination. District Attorney Shaffer, of Delaware county, being mentioned as a likely candidate for the office. Senator S. J. M. McCarrill, of Harrisburg, and Senator John C. Grady, of Philadelphia, are still in the way of their Lebanon colleague for lieutenant governor. Neither has developed any strength, and if they listen to their friends will not go before the convention. There has been no change in the slate for temporary chairman of the convention, an honor which the party leaders have selected for United States Senator Boies Penrose, of Philadelphia. Major Alex McDevell, of Mahanoh City, of the national house of representatives, has everything his own way for permanent chairman, and State Chairman John P. Eskin, of Indiana, will again head the state committee.

There is an air of confidence about the headquarters of the Altoona Stone today that is very reassuring to his friends. Mr. Stone says he will win on the first ballot, and that the opposition cannot form a combination to defeat him. The anti-W. A. Stone people have made numerous efforts to antagonize their delegates in favor of his Warren rump, but without success. And yet the latter is as hopeful as his colleague. His managers said last night after they learned of the action of Lancaster's 12 delegates, who decided to vote for W. A. Stone, that he would have 145 votes on the first ballot, of two more than are needed to nominate him.

Mr. Wanamaker is pleased with the progress he has made since he came to Harrisburg. His headquarters have been crowded with representative business and professional men from every section of the state. Few of them have voted in the convention, but Mr. Wanamaker's managers say their presence shows the widespread interest in his cause and the effect of his campaign against the party organization. They are claiming 135 votes for Wanamaker on the first ballot.

Yesterday was one of the busiest days of Senator Quay's life. He was besieged since early morning by friends of the two Stones importuning him for his potent support. To all he said that he has taken no part in the contest, and would not. He gave the friends of the Warren Stone the assurance that he would do nothing to hinder his cause, and at the same time he declared that Colonel Stone had made his fight single handed, and that he seemed to have taken no part in the contest. The senator returned to Washington this morning, before the convention was called to order, and will not therefore be on the floor. Neither will Mr. Wanamaker. The friends of the various candidates for governor and lieutenant governor are endeavoring to nominate whomsoever they please, and that even if he did not try to influence the action of the delegates his sympathies have been with Colonel Stone.

Activity in Stock Speculation.
New York, June 2.—Wall street yesterday interpreted Commodore Schley's statement at Santiago as a warning for the United States forces. From the rather meagre details of the affair and the counter claims coming through Spanish sources did not greatly disturb this conviction. It is not entirely a sentimental result that prices of stocks advanced on news of the late victory, for dealers in stocks take the practical view that it insures an early termination of the war and a consequent revival of commerce and industry. Prices bounded upward, and a furious activity developed.
