SANTIAGO ATTACKED

Admiral Sampson Again Gives Battle to Spaniards and Enters the Harbor.

TWO SPANISH SHIPS SUNK

Sampson's Purpose was to Destroy Entrance Forts, Blow Up the Merrimac, Enter the Bay and Engage Cervera's Squadron.

Special to EVENING HERALD.

Kingston, Jamaica, June 7.—Details of yesterday's bombardment of Santiago ports have been received here.

Admiral Sampson was in front of Santiago de Cuba on Sunday and plans had been made for an attack on the town on that day, but was postponed. The ships were cleared for action and everything was ready. The delay was due to the appearance of a Spanish launch bearing a flag of truce just about the time the bombardment was to begin. The Spanish officer in command of the launch said it was

thought on the Oquendo that a signal flag had been displayed on the Iowa. As soon as he learned his mistake he returned to his ship.

The details of the battle state that the American fleet began firing at eight o'clock yesterday morning and continued until nearly noon. The Spanish forts attacked were rendered practically useless.

The United States battleship Iowa, with "Fighting Bob" Evans in command, opened the engagement on one of the batteries below Morro Castle.

Following the Iowa were all the armored ships in the combined American squadron

The amount of ammunition poured into the enemy's strongholds was enormous. Fifteen hundred large calibre shells were fired by the fleet.

The fort of Port Agudores was utterly demolished and Colonel Ordñez, one of the Spanish officers, in command there, was badly wounded.

As the first fire from the forts slackened the American ships engaged the Spanish vessels in the channel.

The Reina Mercedes was hit squarely by a thirteen-inch shell. At least ten soldiers on this vessel were killed and many were wounded, among them the second officer.

The crew of the Reina Mercedes finally abandoned the ship. It is stated that the first class armored Spanish cruiser Infanta Maria Teresa was sunk during the engagement.

The object of the attack was to destroy the enemy's batteries and other fortifications at the mouth of the harbor, and then to blow up the Merrimac, which blocked the entrance, enter the bay and attack the Spanish fleet. Whether this was accomplished as to clearing the mouth of the channel, is not definitely known, but it is believed Sampson entered the harbor and gave battle to Admiral Cervera.

The firing was not only at the entrance of the port, but it was evident that the Americans were attacking further down the coast, for sounds of cannonading came from the direction of Agudores, less than three miles to the eastward of the Morro.

It was thought at Santiago that this firing at Agudores denoted that the Americans were attempting to land troops under the fire of their ships, but there is nothing to confirm this opinion.

THE SPANISH VERSION.

Special to EVENING HERALD.

Cape Haytien, June 7.—The Spanish version of yesterday's engagement reports serious loss to the Spanish land and naval forces at Santiago and vicinity.

Captain Sanchez and Lieutenant Trifar were badly wounded, Lieutenant Garcia and Perez of the infantry, and twenty-one infantry men and artillery men are reported so badly wounded that they will die. The forts protecting Santiago are in ruins.

At about noon a landing party of American marines, with the aid of the insurgents, landed heavy guns under the protection of the American vessels near Garquiri.

They were attacked by the Spanish infantry and cavalry, but held their position.

26000 MEN LEAVE FOR CUBAN SHORES.

Special to EVENING HERALD.

Chicago, June 7.—A special to the Chicago Record from Washington says its correspondent has positive knowledge that the last of the first expedition to Cuba left Tampa last

night, comprising 46 transports carrying 26,000 men, with all necessary equipments. General Shafter is commanding.

Premature Explosion. Martin Penick, a miner, was burned and bruised about the body this morning by a premature explosion of dynamite. The accident occurred at Packer colliery, No. 4. Penick's injuries are not of a serious nature.

OLD GLORY, A FLAG WORTH DYING FOR.

AMERICAN SHIPS ENTERED THE HARBOR.

Special to EVENING HERALD.

Port au Prince, June 7.—The bombardment of Santiago was resumed yesterday by the Americans.

It is said that the Americans succeeded in forcing the harbor, having first destroyed the wreck of the Merrimac, which they sank on Friday morning to prevent the escape of the Spanish squadron.

After entering the harbor they engaged the Spanish warships, and after hot fighting sank two of them. It is reported that one of the American vessels was damaged, but this cannot be confirmed.

It is reported a large expedition of American troops were landed under the protection of the warships. The dispatch boat St. Louis arrived at Mole St. Nicholas with dispatches for Washington, giving particulars of the bombardment.

WASHINGTON NEWS.

Latest Advice From the National Capital on the War Situation.

Special to EVENING HERALD.

WASHINGTON, June 7.

Naval officials continue to praise the daring of Naval Constructor Hobson, the hero of the hour, even the Spaniards are ready to pay tribute to Hobson's men. Admiral Cervera sent the following message to Sampson: "Your boys will be all right in our hands. During like their's makes the bitter enemy proud that his fellow men can be such heroes. They were afterward taken to the city of Santiago and there to Santiago's Murro, where they are our prisoners, but our friends. Everything is being done to make their stay with us comfortable. If you wish to send anything to them we will cheerfully take it."

The Yate, formerly the Perla, is to be made an auxiliary cruiser, and will then join the St. Louis in patrol duty. There is a well defined belief that the government proposes sending one or two of these fast scouts to the Spanish coast, and thus keep the government informed of movements on that side of the ocean, especially as to the Spanish reserve squadron now at Cadiz.

The monitor Monterey and the collier Britan sailed from San Francisco yesterday for the Philippines.

President McKinley has decided to carry on the most extensive operations against Spain, and this includes the occupation of the Canary Islands. As soon as the Santiago campaign is successfully carried out and troops are landed on the island of Porto Rico, the only thing that will then prevent the operations against the Canaries is a suggestion from Spain that hostilities should cease.

It was said officially to-day that every regiment of volunteers organized under the call for 125,000 men would be recruited up to the full number of 1,280 soldiers. This will apply to the troops that have been sent to the Philippines as well as those remaining in this country. It is estimated that 42,000 men from those authorized by the late call of the President will be required to fill up the regiments already organized.

The Navy Department has been officially advised of the death of Lieutenant Edward Study.

Special to EVENING HERALD.

New York, June 7.—The 14th Pennsylvania Regiment has been assigned to Fort Mott, New Jersey and Fort Delaware.

The 18th Pennsylvania Regiment goes to Delaware City and Alliance.

The 15th Ohio goes to Sheridan Point, Virginia, and Fort Washington, Maryland.
