Everybody needs a strengthening, purifying tonic just at this season of the year, when the domands of nature in renovating the system are so severe that a breakdown is the result with most people. Impurities that have been accumulating all winter must now be gotten rid of, as Spring is the time set apart by nature for a general "house-cleaning" within. It is necessary that this cleansing process take place in order to strengthen the system and prepare it for the trying season of hot weather, when sickness is so abundant. This task can not be accomplished without the assistance of a cleansing, health-renewing medicine, and for this purpose Swift's Specific, S. S., stands out alone, without an equal. It purifies the blood, improves the appetite, builds up and strengthens, gives a ruddy, healthy complexion, removing all pimples and blotches, and so tones up and invigorates as to impart new life and energy to the entire system.
