YELLOW FEVER AMONG THE TROOPS!

EVERY EFFORT WILL BE MADE TO CRUSH THE DISEASE IN ITS INCIPIENCY.

Special to EVENING HERALD. WASHINGTON, June 10.—Surgeon General Wyman, of the Marine Hospital service, has received a telegram from Surgeon Murray, who says he has diagnosed the cases of fever at Fort McHenry, Mississippi, and pronounces the malady yellow fever without doubt. The cases are believed to be due to hibernated germs from the epidemic of last year. Every effort will be made to crush the disease in its incipency, as the government realizes that the spread of "Yellow Jack" among the troops in camp would be far worse than Spanish bullets.

The Invading Army Stopped at Key West.

Fear of Spanish Ships Caused Them to Await Additional Convoys From Admiral Sampson.

Special to EVENING HERALD. Washington, June 10.—According to a statement made in army circles the big Santiago expedition has been held up in the gulf. All transports go under way on Wednesday. Then came the reports of Spanish warships being sighted near Havana. The strategists at the navy department who had assured the military authorities that the ocean was free from danger, are nonplused. They could not believe that they had been outwitted. Even now they insist that, if there are any Spaniards roaming around Cuban waters, they are unimportant and not to be feared. Army men, however, prefer taking no chances. Rear Admiral Sampson has been requested to send additional vessels to convoy the troop ships. There is a fair chance that, while the army awaits the arrival of the convoys, Sampson may take Santiago. The Panther has arrived at Santiago with eight hundred marines.

Santiago Again Bombarded.

Special to EVENING HERALD. Havana, via London, June 10.—The American fleet bombarded Santiago again to-day. The engagement lasted from eight to eleven o'clock. No details are given. It is likely that the bombardment took place while the marines were being landed. The United States vessel Panther arrived off that port yesterday having on board eight hundred American marines.

SANTIAGO SURRENDERED WASHINGTON NEWS.

A Report Which Lacks Verification Brought to Cape Haytien From Turk's Island. Cape Haytien, Hayti, June 10.—A man who arrived here yesterday in a schooner from Turk's Island, one of the Bahamas, and about 110 miles north of Hayti, said it was reported there on Tuesday that Santiago de Cuba had been taken by the Americans. Cable communication between Cape Haytien and Cuba is still interrupted, and no verification of the reports can be secured. In this city, however, it is not believed that the Americans have effected a landing.

The distance from Tampa to Santiago, where the troops are supposed to make their landing on Cuban soil, is about 1,200 miles. The transport vessels will not be able to make more than an average of eight kinds an hour, and at that rate of speed should arrive at Santiago not later than Monday next. There is a rumor in naval circles to-day, however, to the effect that the expedition to Santiago has been held up at Key West to await further convoys from Sampson's fleet. The rumor that four Spanish ships were seen near Havana may have caused the department to issue this order to Gen. Shafter when he arrived at Key West. It will be at least two weeks before the second expedition can get away from Tampa, and a part of the military force now embarked for Santiago will be used to invade Porto Rico as soon as the campaign at the former place will allow of their withdrawal. The administration is anxious to invade Porto Rico as soon as possible, at least before the anticipated negotiations for peace on the part of Spain.

Sixteen vessels are now under construction for the United States navy. Five of them are battleships, ten are torpedo boats and the remaining one is a submarine torpedo boat. A long despatch was received from Admiral Sampson by the Navy department, and he said nothing about the reported destruction of a Spanish torpedo boat or the landing of marines. It was mainly devoted to supplies needed by the fleet.

The appointment of Gen. John P. S. Gobin, of Pennsylvania, to be Brigadier General, is pleasing to the representatives of that state in Washington. Gen. Gobin is a veteran of the rebellion, and is at present Commander-in-Chief of the Grand Army of the Republic. He was nominated last week

for Lieutenant-Governor of Pennsylvania by the Republican Convention. It was stated to-day that he would not withdraw as a candidate. The postoffice department has issued orders for the establishment of two military sub-stations, one at or near Santiago de Cuba and the other at the Philippines. The United States 2-cent stamp will be good for letters to and from Cuba and the Philippines. The postoffice in Cuba will be established at the landing place and accompany the army of invasion through the island.

FUEL FOR SPANIARDS.

Coal Dealers in Eastern Pennsylvania Said to Have Been Supplying the Enemy.

Philadelphia, June 10.—The Press publishes the following:—United States District Attorney J. M. Leck and Chief McClanahan, of the secret civil service bureau, are busily engaged in conducting an investigation which they believe will result in sending several prominent coal dealers in this section of the state to jail. The officials are in possession of valuable information regarding the sale of large quantities of coal to the Spanish government by dealers in this city, and the district attorney, it is said, is simply waiting for certain other developments before taking action. Chief McClanahan made several important discoveries yesterday in connection with the searching investigation which was begun last Monday, and last evening he held what was reported to have been an important conference with Assistant District Attorney Kane. All the officials are reticent. Assistant District Attorney Kane refused to make any statement, but admitted that a most rigid investigation is being conducted. The secret service officials learned that since the war has been in progress hundreds of tons of coal have been shipped by brokers in this locality to the Spanish agents. The Moving Horse Show a Grand Feature of the Centennial.

Reading, June 10.—This was another great day for the Sesqui-Centennial celebration. There was a magnificent moving horse show, a splendid exhibition of equipage, and every conceivable kind of squadron of mounted men, all in great bewitching beauty and everything clothed in bunting, ribbons and flowers. Hundreds of babies in line held the reins. The route was five miles long. Wellington G. Woods was the Chief Marshal. One hundred thousand people witnessed the parade.

Spain Urged to Make Peace. Rome, Italy, June 10.—The "Opinion," which is the government organ, says "Spain's delinche has begun. The Philippines are lost. Spain should accept the inevitable. The government needs and should exercise the virtues of resignation and fortitude."

Attempt to Poison the Water. Jacksonville, Fla., June 10.—The second attempt in two weeks to poison the water works of this city was made last night. A sentry chased a man who attempted to throw a package into one of the reservoirs.

Mrs. Harris' Twins. Richmond, Mo., June 10.—Mrs. Edward Harris, aged 55 years, last night gave birth to twin boys, making the seventh set of twins she has given birth to.

PROBLEM ON SEWERAGE

Battle Imminent Between the Borough and Property Owners. Discrimination is Alleged! But the Borough Officials Reply That the Only Question at Issue is as to Whether an Existing Public Nuisance is to Be or Not to Be Abated.

To all appearances the borough is about to enter upon a litigation that is likely to rival the famous Flynn case in interest and complication. The points involved will be similar to those which were brought in the famous case referred to and should a legal battle be declared, some very interesting phases of public and private sewerage will be placed before the court. For months complaints have been made before the Borough Council concerning a nuisance created by a sewerage outlet on West Centre street. The Council has not neglected the matter and repeated conferences have been held in an effort to clear the nuisance, but all have failed. A few weeks ago it looked as if the citizens presented was about to be ended, a proposition having been made that the properties contributing to the nuisance be connected with the large sewer laid on West Centre street by private parties who received a right of way from Council to construct the line, several of the property owners were disposed to accept the proposition and comply with the condition of ten dollars to be paid for each lot connected, but others demurred and the nuisance continues to exist. So far as can be learned, the position of the Borough Council appears to be that it has nothing to do with private sewerage until a public nuisance is created; and that there is only one course to pursue—an enforcement of the ordinance to compel an abatement of the nuisance. In the present case there are twenty-eight properties contributing to the nuisance, all located north of Centre street and west of West street. To give each one of the property owners the right to lay an individual sewer, or even half of them, a borough official maintained today, would be unreasonable as such an event would result in the streets and alleys being almost constantly open and out of condition on account of repairs to one or more of the lines. It is understood that the property owners also maintain that, in view of the fact that a large quantity of surface water is drained into the stream which has created the nuisance, the borough should provide public sewerage at the point of outlet, but on this point it is understood that the borough officials claim the decision in the Flynn case settles the contention. Mr. and Mrs. Morgan Bryan were honored a serenade upon their return from their honeymoon by the Primitive Methodist church choir and were made the recipients of a handsome present. There were about thirty-five friends in attendance at the home of the couple on South White street, and a very enjoyable evening was spent. Lemonade and cake were served. Rev. George Lees, of Hackett, and Rev. James Moore, of town, were among those who participated in the enjoyment of the evening. See samples of our engraving in the window display of aluminum novelties. Brannin's.

STRAW HATS!

Up-to-date straw hats with up-to-date bands at the up-to-date hat store.

CHANGE OF SEASON

Creates a change in underwear. We have a large assortment of up-to-date summer underwear.

UP-TO-DATE PATRIOTIC
