Sagasta Talks of Czar to Intervene

Spain's Prime Minister Says the Rise in Bourse is Due to Advices in Financial Circles That Russia will Intervene at Manila.

Special to EVENING HERALD.

London, June 15.—A Madrid special quotes Prime Minister Sagasta as saying that the rise in Bourse is due to a telegram advising leading financiers that Russia is about to intervene looking to a settlement of the Philippine Islands question.

The powers fully realize that Spain's domination in the Philippines is irrevocably ended, but most of them avoid consideration of the possible annexation of the islands by the Americans.

The agents of Spain in France and Germany, and even Russia, are working with a view to inducing the powers to intervene in the Philippine Islands.

Perilous Mission by An American Officer.

Kingston, Jamaica, June 15.—The delay in the arrival of the transports is ascribed among the officers and men of the fleet off Santiago to a fear that after all Admiral Cervera's squadron might not be in Santiago harbor. Once for all Admiral Sampson decided to settle this question officially, and on Saturday last he sent Lieutenant Victor Blue, of the gunboat Swanee, to investigate. Lieutenant Blue landed on Saturday and proceeded with guides to the hills overlooking the harbor and the city. He distinctly saw and definitely located four Spanish armored cruisers and two torpedo boat destroyers. He saw also three small cruisers or gunboats.

The results of his expedition he reported Monday morning to Admiral Sampson on the deck of the flagship New York. Lieutenant Blue traveled about 72 miles, following the eastward line of the city. He brought out to the flagship a copy of a Santiago paper issued last Saturday, in which complaint is made that the navy and army are failing to distribute to the citizens their portions of the provisions remaining in the city.

Lieutenant Blue's report has definitely exposed the fiction that any of Cervera's cruisers were in the Bahama, or in a position to attack the transports, which are now confidently expected at an early date.

Lieutenant Blue reported also that skirmishing continues in the hills around Santiago between the Cubans and Spaniards. The latter have been repairing the fortifications of the city, as it is expected that Admiral Sampson will renew the bombardment in anticipation of a possible arrival and landing of troops this week.

General Callisto Garcia had been expected to arrive near Santiago to report to Admiral Sampson Monday, but it turned out that the information upon which this expectation was based was incorrect. As yet the whereabouts of General Garcia is not definitely known.

Early Monday morning three shots were fired from Morro fort upon the naval pickets in the bay maintained at the entrance of the harbor. Captain Evans, of the Iowa, steamed within two miles of the harbor mouth and flashed the Iowa's searchlight, whereupon the firing ceased. The Iowa remained on the watch until daylight, and then retired. There was no further firing.

Monday the dynamite cruiser Vesuvius arrived off Santiago, and it is confidently expected that her guns will be used if an attempt is made to force the passage of the harbor for the purpose of exploding any submarine mines that may exist. The hospital ship Solace arrived the same day, and left at once for Guantanamo.

For a wonder, it is believed that the marines at Guantanamo will be able to maintain their position until the long expected troops arrive. During the second night attack by the Spanish, which ended at daybreak on Saturday morning, they held their ground against desperate odds, and the discovery of the bodies of 15 Spaniards, including a lieutenant, shows how deadly was the American defense. The Spanish sent 3,000 men by train from the city of Guantanamo to attack them, but, pressed close by the Amer-

ican fire, the Spanish were unable to reach the earthworks. The Maribou head shelled the woods, but could not locate the Spanish line with accuracy. She has since been reinforced by the Dolphin.

The Dolphin on Monday morning located the Spanish water station on the ocean side of the harbor entrance, which supplied the water for the attacking force. The well was situated in a blockhouse windmill, having a small garrison. It was shelled at 2,000 yards. Excellent practice was made, the station was wrecked and cannoner followed the retreating Spaniards up the steep ravine. Each shell disclosed the spot where it alighted by raising a cloud of dust. They were all well placed.

On the American side two men were killed and four injured in the second attack. The dead are: Sergeant Major Henry Goode, of the marines, shot through the right breast; Private Tauman, wounded and fell off the cliff and was instantly killed. The injured are: Private Wallace, fell off the cliff and sustained a fracture of the leg; Private Martin, shot through the left leg; Private Roxbury, shot through the arm; Private Burke, shot through the arm.

The first attack of the Spaniards was made at 8 o'clock and the last shot was fired by them at about 3 o'clock in the morning.

Lieutenant Neville, of Company D, was sent out on scout duty, and on the day previous, he attacked a small stone fort. A hot fight followed, and the Spaniards were driven off with loss. It was during this fight that Wallace and Tauman fell over the cliff. Fifteen dead Spaniards, including one lieutenant, were found in the fort.

During the attack several shots struck the ships in the harbor, one penetrating the pilot house of the newspaper dispatch boat Dandy. No one was injured on board of her.

The fight was the first of the war in which the Cubans co-operated with the American forces, and their company in operation was not a glittering success. At one time during the afternoon whenever the marines were firing on a small detachment of Spaniards that made their appearance a short distance from the camp the Cubans began firing without orders, and sent a volley right among the Americans. There were several very narrow escapes, but no one was injured.

Thus far the marines have had the best of the fighting, but the situation is grave, and they are exhausted with repelling almost incessant attacks. They have little chance to rest or sleep, and the time of the arrival of the relieving troops is uncertain. Were it not for the protecting guns of the fleet the gallant little band would be annihilated by the Spanish troops. In overpowering numbers, from Santiago de Cuba. As it is, they probably can hold their positions, but they cannot move forward until reinforced by troops.

A dispatch from Madrid says: General Pando, in command in the Santiago district and eastern Cuba, will shortly be strongly reinforced in order that he may simultaneously defeat the rebels and prevent the disembarkation of American troops.

Troops for Manila.

Special to EVENING HERALD. San Francisco, June 15.—The second expedition for Manila, consisting of 4,000 soldiers, left here last night. Among them was the Tenth Pennsylvania Volunteers, who are embarked on the transport steamer Zelanda. The government expects to send 21,000 men to the aid of Admiral Dewey, but when the third expedition will leave no one seems to know. It is believed William Jennings Bryan's Nebraska regiment will be ordered to report to Gen. Merritt here and depart with the third expedition for the Philippines.

Miss Barton Goes South.

Special to EVENING HERALD. Washington, June 15.—Clara Barton, of the Red Cross, arrived here from New York on her way to Key West. She will probably proceed at once to Santiago on the State of Texas. This will mark the beginning of operations of the Red Cross Society in connection with the American land forces.

Rowan's Return From Cuba.

Special to EVENING HERALD. New York, June 15.—Lieut. A. S. Rowan, recently returned from an important visit to Gen. Garcia's camp, not far from Santiago, is here awaiting his commission to join his regiment of Kentucky immigrants. He said he was received with great cordiality by the Cuban general, and was given important information about the strength of the Spaniards and the best place to land troops. Gen. Garcia was anxious to aid Gen. Miles and co-operate with our army.

Germany Avoids Giving Offence.

Special to EVENING HERALD. Berlin, June 15.—Several Berlin newspapers ridicule the Spanish delusion that Admiral Diederich has been ordered to interfere if Admiral Dewey bombards Manila. Such action, they say, would mean war with the United States, whereas Germany is really doing her utmost not to give offence to the government at Washington.

WASHINGTON NEWS.

Latest Advices From the National Capital on the War Situation.

Special to EVENING HERALD.

WASHINGTON, June 15.—The naval officials having definite knowledge of the embarkation of the troops for Santiago and the preparations are not being made for the invasion of Porto Rico, under command of Gen. Coppinger. There are many details to be arranged, but the war department is sanguine that the expedition can be gotten off within three weeks. There are others who contend that six weeks will have gone before the expedition leaves. The troops now in Florida and Mobile will likely be selected for the work. The officers in charge at Camp Alger and Chickamauga, however, are offering the claims of their commands, and it is likely some of these regiments may be included in the Porto Rico invasion. Anuncios have been given that the troops at Camp Alger are likely to be taken as the troops stationed at the Gulf ports. The quality of artillery and equipment will largely govern the department in making up the quota for the next invasion.

INSURGENTS FIGHTING NIGHT AND DAY.

Special to EVENING HERALD.

Berlin, June 15.—A dispatch from Shanghai says the Philippine insurgents are a mile and a half from Manila, which is entirely surrounded. It is understood that the insurgents will endeavor to force the Spaniards to establish an independent government before the American reinforcements arrive. The German Consul has transferred 300 German and Swiss residents of Manila to a steamer. The Spaniards prefer to capitulate to Admiral Dewey rather than risk the horrors of insurgent success. The forces at Manila are incapable of resisting insurgent attack, and the progress of the latter is surprising. The fall of Manila is inevitable.

Not a Single Yankee Killed.

Special to EVENING HERALD. Madrid, June 15.—In discussing the report that the Americans effected a landing at Zamboanga, one of Spain's leading officials declared that "not a single Yankee had landed in Cuba." He said Gen. Blanco's last despatch referred to "a trifling encounter with the insurgents," and that it was upon this engagement and the stories of the landing of Americans originated.

To Repair the Cable.

Special to EVENING HERALD. Port au Prince, June 15.—A small steamer employed by the French Cable Company for the purpose of picking up and repairing the cable between Mole St. Nicholas and Santiago de Cuba, which was recently cut by the Americans, has left this port.

Lieut. Hobson's Release.

Special to EVENING HERALD. London, June 15.—The Americans are communicating with Gen. Blanco at Havana for the exchange of Lieut. Hobson and his men for certain Spanish prisoners. Gen. Blanco has replied that he is unable to give a definite answer until he receives instructions from Madrid.

Gen. Hastings' Inspection.

Special to EVENING HERALD. Washington, June 15.—There is a rumor from authentic sources to the effect that the camp now at Falls Church, Va., is to be removed to a site near Bristol, Va., on the Rappahannock river, fifty miles further south. Preparations are being made for the inspection of Pennsylvania troops at Falls Church on Saturday by Governor Hastings.

Spanish Spy at Key West.

Special to EVENING HERALD. Key West, June 15.—Information has reached the army officials here that a Spanish spy, claiming to be a Mexican, is operating in Florida, and is informing the Spanish authorities of the movements of the troops and the American warships. He is Adolfo Vera, a Cuban by birth.

THE MERRIMAC HEROES.

Promotions That Await the Gallant Men When They Return From the Spanish Prison.

Washington, June 15.—Substantial recognition has been given by the navy department to the members of the gallant crew who took the Merrimac into the entrance of Santiago harbor and sunk her across the channel under the very noses of the Spanish guns. Last evening official recognition was taken of their valor, when Secretary Long signed the orders to Admiral Sampson directing the promotion of all the members of the crew. Lieutenant Hobson's reward will come later through congress. The men still linger in a Spanish prison, but when they return again to their ships their promotions will be awaiting them.

The orders sent to Admiral Sampson direct the promotions of the men as follows: Daniel Montague, master-at-arms, to be a boatswain, raised from \$50 a month to \$1,300 a year; George Charette, gunner's mate, to be a gunner, from \$50 a month to \$1,300 a year; Randolph Stewart, Osborne Deignan and J. C. Murphy, executive, to be chief boatswain's mates, an increase of \$20 a month; George F. Phillips, machinist, to be chief machinist, from \$40 a month to \$70 a month; Francis Kelly, water tender, to be chief machinist, from \$45 a month to \$70 a month.

In addition to the promotions steps have already been taken towards the presentations of medals to Constructor Hobson and the members of his gallant crew. What now honors await Constructor Hobson, who planned and executed the brilliant coup, have not as yet been disclosed.

SEWERAGE LAW SUITS

Twenty-eight Heard Before Justice Toomey Yesterday Afternoon

A HOT TIME OVER LAW POINTS!

Judgment in All the Cases Suspended For a Week Pending a Movement to Abate the Nuisance Complainant of—Will Come Up Before Council.

It is believed that a Justice of the Peace before J. J. O'Connell will render a large number of suits as Justice Toomey was called upon to consider yesterday afternoon. There were twenty-eight in all, with but two or three exceptions all the defendants appeared in person and made the usual plea, "I do not know." The suits were brought by the Health Officer against the owners of property which had been used for the purpose of depositing refuse in the streets. The suits were brought by the Health Officer and a collision was narrowly averted.

Everybody agreed that there was a nuisance of some kind, but the question of the public authorities, whether of property owners, etc., etc. One of the defendants was more than a little eloquent in his choice of language directed at the Health Officer and a collision was narrowly averted.
