Dandruff is Dangerous

When dandruff appears it is usually regarded as an annoyance. It should be regarded as a disease. Its presence indicates an unhealthy condition of the scalp, which, if neglected, leads to baldness. Dandruff should be cared at once. The most effective means for the cure is found in **AYER'S HAIR VIGOR.** It promotes the growth of the hair, restores it when gray or faded to its original color, and keeps the scalp clean and healthy.

It is not a medicine, it is a hair restorer. It does not contain any of the dangerous ingredients of the cheap dandruff preparations. It is a pure vegetable preparation.
