TROOPS ARRIVED AT SANTIAGO YESTERDAY

The Cable Has Been Repaired and Sampson is Now in Direct Communication with the Officials at Washington.

SPAIN'S CABINET TO RESIGN THIS WEEK.

Washington, June 21, 2 p. m.—Admiral Sampson, in command of the squadron at Santiago de Cuba, wired the Navy department this morning that Gen. Shafter's expedition arrived at Santiago yesterday.

The troops will be landed as soon as possible. It will probably take several days to get 15,000 men of the transports, together with a thousand animals and a large amount of supplies.

Naval officials believe it will require three days at the least to land the forces, and when landed the men, having been confined to the transports, will require a chance to freshen up before they are in shape for action.

DIRECT CABLE NOW TO WASHINGTON.

Washington, June 21.—Direct cable communication between Admiral Sampson's fleet at Santiago and the naval authorities at Washington was established today.

Under these circumstances the officials do not expect to hear of action at Santiago until the latter part of this week.

There will be no further delay in informing the authorities of the movements of the ships and troops, and the American people will be furnished with news from an authoritative and reliable source.

SPAIN'S REASON FOR NOT RELEASING HOBSON.

London, June 21.—A Madrid despatch says the reason why the government has refused to exchange Hobson and his colleagues of the Merrimac was that the result of their return to the United States would cause a popular demonstration, and the fact that they had seen the fortifications at Santiago was additional reason for not letting them go.

SPAIN'S FLEET RETURNS TO CADIZ.

Washington, June 21.—Advices of a trustworthy nature have just been received by the officials here confirming the report that the Spanish fleet, which was sighted off Gibraltar last week, has returned to Cadiz.

Spanish Cabinet to Resign. Spanish Cabinet to Resign. Spanish Cabinet to Resign.

Kingston, Jamaica, June 21.—A dispatch boat just arrived from the fleet at Santiago brings the intelligence that General Shafter's army of 15,700 men, on 40 transports, has arrived. There will be no wild rush to get ashore until General Shafter has a conference with Admiral Sampson and the situation is thoroughly discussed.

General Garcia and his personal staff were picked up at General Rabin's camp, 18 miles west of Santiago, and brought to the flagship Sunday afternoon by the gunboat Vizcar. The grizzled and wounded patriot had a long consultation with Admiral Sampson regarding the operations for the investment of Santiago and the cooperation of the American and Cuban troops.

General Garcia said there are 10,000 Spanish troops, but he believes the 3,000 men he left there will effectually prevent the enemy from reaching Santiago from the Holguin side.

Most of General Garcia's staff suffered from sea sickness, General Garcia humorously saying: "As bad as are the roads in Cuba, your roads, Captain Chadwick, are worse."

The upper bay is to be occupied immediately. Lieutenant Delehanty, with an expedition, is nightly at work removing mines from the river connecting the upper and lower bays. When this is clear the ships will move up the channel and take the town of Catmanera, whose forts were demolished last Friday.

BOILER EXPLOSION.

Four Men and Two Boys Injured—A Male Killed.

Special to EVENING HERALD. Park Place, June 21.—Four men and two boys were injured, some slightly and others more severely, by the explosion of a boiler at Park No. 2 colliery, Trenton, at 12:15 o'clock p. m. to-day.

The victims of the explosion are: Thomas Maher, Brennan, hands and face scalded; John Marrall, Brennan's helper, residing at Shoemaker's, hands and body scalded; John Anotak, assistant, arms, ears and face scalded, but he is able to walk around; John Twain, 14 years, rhinoplasty, forehead and hands scalded, seems to suffer more than the others; Daniel Purcell, 14 years, slightly scalded; John Rowley, Jr., Township Collector, contusion of ankle. At the same time a male was killed outright.

The explosion occurred in a nest of cylinder boilers in the No. 2 boiler house, located northwest of the colliery, and close to it. The boiler was torn apart and the pieces thrown in different directions for a distance of about forty feet.

The explosion looked something like the pictures of a lightning exploding. Rocks, boards, dust, debris and smoke shot into the air with great force and detonation.

The several scores of men and boys who had congregated on the balcony below the boiler house and breaker were near the seat of the explosion, and were tossed backward by the concussion. They were badly frightened and rushed pell-mell from the scene.

Superintendent Reese and Foreman Sykes were on the scene before the dust began to settle and directed the work of rescue. The injured men were quickly removed.

WASHERY DESTROYED BY FIRE LAST NIGHT.

The washery of the Steadfast Coal Company, situated near Malvern, was totally destroyed by fire last night, and the loss is estimated at \$25,000, partly covered by insurance. The origin of the fire is unknown. Two men were employed at night in repairing machinery, and both were outside the breaker when the fire started in a coal chest. An alarm was given immediately and the fire department responded promptly. Their efforts could not save the structure.

The washery employed between 80 and 100 men and had a daily output of about 300 tons of coal. The Steadfast Coal Company's officers are Charles E. Brodocks, Sr., chair, president; Guy C. Irish, Mahanoy City, secretary and treasurer; J. J. Hollenbeck, Pottsville, superintendent. It is probable that the washery will be rebuilt at once.

A New Battleship Mailed.

Washington, June 21.—The three battleships authorized under the naval appropriation act will be named the Maine, the Missouri and the Ohio. The monitors will be named Arkansas, Connecticut, Florida and Wyoming.

Coal Sent to Dewey.

Philadelphia, June 21.—The British ship Lothian left this port with a cargo of coal for Admiral Dewey, being the first shipment of coal from Philadelphia to the Philippine Islands. It will reach there about October. Other cargoes will follow.

May Call for More Troops.

Washington, June 21.—It is rumored in official circles to-day that the President will likely call for 100,000 new volunteers. This depends in a great measure upon the success of the Santiago and Porto Rico invading armies.
