That Will Be Sent to Reinforce After all Other Remedies Fail Dr. Miles' New General Shafter's Army. Heart Cure Restores to Health. FROM FIVE TO TEN THOUSAND

Mon Will Go to the Ald of the Soldiers Who Will Conquer and Occupy Santiago-The Difficulty of Getting Vessets to Carry Proper Food Supplies.

Washington, June 21,-It was anunced at the war department today. hat no additional transports for troops other than the Newport, which has been impressed on the Pacific coast, had been secured. The officials, howver, have been busily engaged in conferring with the agents of steamship companies, as well as individual owners, with a view to securing additional The department is decidedly averse to resorting to impressment, and only down it when all other efforts to obtain the ships fail. Assistant Secretary Melklejohn said that the im-presement of vessels for transports would be the exception, and not the rule, unless the latter were absolutely DOCOURATY.

Of the Il transports available by the department in the cast arrangements are being made to have half a dozen or more rendezvous at Tampa for the purpose, presumably, of carrying adduitonal reinforcements to General Shafter. The four ships which were at Fernandina last week have been given orders to go to Tampa, and one from Mobile is already there. Just what portion of General Shafter's reinforcements are to be taken from Tampa has not yet been announced, but with a half dozen ships at its command the department ought to be able to transport approximately 2,000, with their minments, and subsistence stores; Most of the remainder, it is expected will be taken from Camp Alger, Va amounting, it is said, to a brigade but this has not yet been definitely settled. The latter will loave the country by the way of Newport New or Norfolk, going in the big vessel Yale and Harvard, which have a ca pacity for carrying a large number a mon. Secretary Alger was asked jus how many reinforcements would sent to General Shafter, but he d clined to state definitely the number, saying, however, in a general way there would be between 5.000 and 10.005 The lack of suitable vessels for car rying supplies of frish refrigerator 1 for the army in Cuba, as well as for the starving people there, is proving very pathetic heart trouble, shortness of energies of life and build up the system

The authorities here are convinced hat the Spanish officials are taking advantage of the distinction accorded. SCIENCE TRIMMING Holeson in the United States, Unor the rules of war a prisoner is valnod solely by his rank, and it is con-sidered dishonorable either to underestimate a prisoner's rank in order to canno a more advantageous exchange or to take a higher rank for the pur-pose of obtaining better treatment. In the case of Holson, his mank as assistant constructor, which is equivalent to lieutenant, junior grade, should be the solo basis for his exchange, yet It is obvious to the authorities here that the Spaulards hold him not as a Heutenant, but as a popular ideal of the United States. In this respect his de-tention course is by that of a prisoner of war, and becomes use of hostage, The holding of hostages, moundly for ransom or other benefit, is a modeval custom actions if ever resorted to in modern waveface. But even as a host-age Habson would be entitled to an exchange for prisoners of greater rank
