GERMANY AND MANILA.

Crews of Foreign Warships Occupy the Philippines Capital.

GERMAN ADMIRAL IN COMMAND.

Whether He Will Allow His Forces to Re-embark When Admiral Dewey's Reinforcements Arrive is the Main Question.

London, June 23.—The Daily News publishes a statement, alleged to come from a correspondent having access to good information, that the occupation of Manila by parts of the crews of foreign warships there is an accomplished fact, although it may probably be three or four days before the official news arrives by way of Hong Kong. The communication proceeds to say:

Over a month ago Admiral Dewey prepared to bombard Manila. At this juncture, however, a new factor was added to the situation. The German consul, acting on precise instructions which had just arrived by the German warship fleet, strongly opposed a bombardment, and strongly insisted on the evacuation of the city and immediate departure of the German warships. Admiral Dewey was then that Admiral Dewey asked for reinforcements and supplied Aguinaldo with arms. While Germany withheld her forces from the intention of Berlin was, if not to take possession of Manila, at least to co-operate in the landing, Admiral Dewey's force not being sufficient to protect German interests. Captain General August had on his part informed his government of the situation and several introvers took place at Madrid with the German ambassador, the result being that it was decided that Captain General August should appeal to the foreign warships at Manila, excluding the American, to protect the lives and property of the inhabitants against the insurgents.

It was an indirect way of capitulating, while sparing Spanish amour propre. There is no doubt Admiral Von Diederich has taken command of the forces landed, although he has not taken possession in behalf of Germany. But will he, when the American reinforcements arrive, be willing to allow his forces to re-embark? The whole question lies there.

The Berlin correspondent of the Times, commenting on the continued discussion of the Philippines question, says: "There would be a storm of indignation in the German press if the United States were to become master of the Philippines while Germany got nothing. In the view of many German politicians anything would be better than that, and they would even prefer to see the intervention of several European powers to protect the life and property of their subjects from the rebels, followed by the acquisition of a naval station for each of them. There is, in fact, a strong inclination to repeat the Chinese drama at Kiao-Chow whenever an opportunity is afforded. Relatively to what Germany already possesses she has everything to gain by such a policy of fair shares all around."

There is, however, but little doubt that no European power or combination of powers would venture to prevent the United States and Great Britain from settling the future of the Philippines definitely, or at least under the protection of their conjoint naval forces. Continental opinion would not only speedily acknowledge the strength of an Anglo-American naval alliance, but would be practically unanimous against incurring the risk of the commercial consequences of a breach with the United States.

TO REPEL THE INVADERS

Madrid Expects Linares and Cervera to Win the Fight.

A PROLONGED BATTLE EXPECTED

Further Talk of the Queen Regent of Spain Soon Resolving the Royal. Seeking Mediation From Her Royal Relatives and Friends.

London, June 23.—The Madrid correspondent of the Standard says: "The Regent De Madrid says that the government suppressed the chief part of the dispatch of the governor of Santiago de Cuba (General Linares) declaring the force of arms and provisions at his disposal. The intervention in political and military circles is that important news is imminent from Santiago. It is generally expected that the Americans will attempt a bombardment of the first line of defenses at the mouth of Santiago bay simultaneously with the landing to entrench the fortifications. If opposed by the fleet. Then, if successful, they will move forward with the assistance of the insurgents for a decisive struggle at the second line of defense in the interior of the bay, where the Spanish fleet may be expected to co-operate with the defenders.

"The resistance is likely to be severe and prolonged. Indeed, the Spanish naval and military authorities are hopeful that General Linares, with the assistance of the volunteers, recently considerably reinforced, may be able, backed by Admiral Cervera, to repel the Americans, who would then be in a precarious position on the most unhealthy part of the coast. Santiago is provisioned for several weeks, and the authorities have taken possession of all the stores. The submarine defenses of the bay are, moreover, of a formidable character."

The Berlin correspondent of the Standard says: "The queen regent has privately caused the coverings and the bolts of the doors to be removed, and those whom she regards as friends to be indirectly sounded, as to whether they are willing to mediate, but the stage of diplomatic negotiations has not yet been reached, and it is very doubtful whether it will be reached for some time to come."

The semi-official Post bears from Antwerp that persons commissioned by the Washington government to enlist soldiers on neutral soil are said to have enlisted more than a thousand German soldiers for the American navy and the auxiliary forces. This would explain the difficulty German captains have experienced of late in manning their ships.

The Vienna correspondent of the Daily Telegraph says: "All the information that reaches here from Madrid goes beyond a doubt that the position of the queen regent has become altogether untenable and that her majesty will resign the regency within a very short period. It may prove feasible to establish a regency council under arrangements for the existing dynasty, but according to present indications this appears questionable. In well informed quarters here it is believed that the next default for the Spaniards will upset the conditions prevailing in Madrid, and the situation is already extremely confused."

Denver, June 23.—Club women with provisions for pleasure broke up an important business session of the General Federation of Women's Clubs yesterday afternoon. After wrestling with parliamentary tactics until 10 o'clock, the hostesses had to give up the idea of work out delegates bottled in a body. Notwithstanding a heavy thunder storm the women boarded the cars bound for the Wichita gardens, where they were welcomed a reception by the North Side Women's club and incidentally ruined their bonnets. The Federation now includes 95 clubs, with a membership of 60,000, and 30 state federations made up of 2,110 clubs, with a membership of 1,000,000.

Went to Death by a Bull.

Punhamont, Pa., June 23.—Manning R. Sutton, of Springdale township, was gored to death by an angry bull which he was leading to water. The bull first thrust him under the chin with its horns, breaking his jaw. Notwithstanding his injury he tried to get the infuriated beast from the pen, when it again attacked him, mutilating him frightfully. Mrs. Sutton came out and set the dog on the animal, but did not drive it off until it had put its horns through the man's heart, leaving him dead.

Ohio's Republican Ticket.

Columbus, O., June 23.—The Republican state convention yesterday nominated the following ticket: Secretary of state, Charles K. Kimbrough; supreme judge, W. T. Uncle Sam's Repair Steamer.
Boston, June 23.—The United States repair steamer Vulcan sailed from the navy yard yesterday afternoon for Newport News and Norfolk, Va. The cruiser San Francisco will follow the Vulcan and leave here in eight days. The steamer Fort Monroe, Va., where the Harvard and the Newark are waiting to act as her convoy. The Vulcan is the only repair ship in the world which is capable of building every part of a man-of-war except the heavy guns. Her machinery and stores are valued at \$200,000.

S. C. P. Jones, Millersburg, Pa., writes: "I have used DeWitt's Little Early Bitters ever since they were introduced here and must say I have never used any pills in my family during forty years. I am keeping that gave such satisfactory results as a laxative or cathartic." C. H. Hagenbuch.

SEALING COMPANY MUST PAY

For special Privileges Granted by Our Government in Seal Fisheries.

New York, June 23.—Judge LaCombe in the United States district court, has entered the judgment of the United States supreme court in the case of the United States against the North American Commercial company for rentals and royalties and the revenue tax provided for in the seal fishery laws secured by the company from the government in 1906, and decreed that the United States recover from the North American company \$18,500, with interest from April 1, 1904, amounting in all to \$25,127.25.

The lease of the North American Commercial company, secured in 1906, gave it the exclusive sealing privilege of the Pribilof Islands for a period of 20 years, and allowed it to take 100,000 seals a year, with a royalty of \$2.50 on each seal, and a revenue tax of \$1 a seal. The revenue of \$100,000 a year. After the expiration with Great Britain in 1906, for the protection of the seal fishery the government notified the company that its annual take of seals would be reduced to 50,000. The company refused to pay the stipulated annual rental and the royalties and revenue tax on the seals taken.

The government began these suits in the United States district court in this district to compel payment, and in June, 1908, Judge LaCombe rendered judgment in the first suit for \$2,927.25, with interest, amounting to \$107,377.20. The case was appealed by the company to the United States court of appeals, and finally to the United States supreme court, which handed down the decision which Judge LaCombe has just affirmed. The difference between the judgment of the supreme court and the district court was in the amount of reduction in the annual rental of \$20,000 which the company was to pay on an average of the reduction in the number of seals it was allowed to take. The supreme court allowing a greater reduction than the district court.
