GERMANY'S NEUTRALITY.

Our Government Gives Reasons to Show That No German Navat Force Has Landed at Manila.

Washington, June 14.—The report that the month has bended a payor force at Manual to discredited to the most positive manual at the state department and in the best informed diplomatic quarrans. It is looked upon as a part of the correctent foreign propaasks had been eaching to stip up and mally bettern the United States Germany France and other countries That the report is purely conjectured in shown from the best that there is

surances as conclusive, and they will not even entertain the idea that the presence of German ships in Mantia harbor is a menace. So long as there is no overt act or menace the authorities here will make no presumption of an overt act, but will rely absolutely on the assurances Germany has given on the assurances Germany has given on the assurances Germany has given and they prove the control of the presentation of the properties. There will be too harmony among the wedding gift. See the stock at Brimon's. of affairs might arise at Manila as to Scanlag were guests of Pottsville friends to make lead the foreign naval commanders to land forces for strictly police duty. But It is said by officials that no such con-dition has arisen thus far, and that Representative (on Schrink, of Pottsville, fight it out. there is every evidence that Admiral' Dewey is strong enough to maintain erty of all parties concerned.
