SHAFTER IN COMPLETE CONTROL.

He Is Not Hampered by Orders From Washington-General Miles May 60 to Cuba Shortly-Sending Colliers to Land Shafter's Heavy Artillery.

Washington, June 27,-Though there were the usual number of officials for a Sunday at their desks in the war and Mr. Bernamin Davis, of 213 Mayberry mavy departments yesterday there did Doan's Kidney Pills and Doan's Omment the stores as fast as they could would call for an official report from

General Shafter.

A dispatch received from General Shafter on Saturday stated that he wanted nothing. Nevertheless the secretary is sending along reinforcements with all possible promptness. He believes that General Duffleld's troops, to the number of 1,300 which embarked five days ago from Newport News, will acrive at Balquiri today, and within three days 3,000 more troops, which left Fort Monroe yesterday, will be at the scene of action. In addition there will be a further movement of troops to Santlago just as soon as the men and transports are ready. Possibly General Miles may go with these. General Shafter is being allowed the widest liberty of action, unrestricted by unnecessary orders from Washington. Assistant Secretary Allen has been striving earnestly to procure for General Shafter the tenders he derives for landing the heavier surplies of the army and the siege train. He has just secured several colliers at Key West. which, on account of their light draft, will serve admirably as tenders. These have been ordered to steam with all speed for Bulquiri. They should reach there by Wednesday. They are not fitted with heavy derricks, such as the tenders carry, but have material abourd which will enable Sampson's unifors to convert them speedily into powerful lifting muchines capable of handling the heavlest cannon carried

by the expedition.
The story printed by an English newspaper of the filling of Captain Bolt Evans and some of his men in the coming tower of the fown by a shell from the Spanish emiser Viscaya for a moment that he would fall to re port immediately an occurrence of such port immediately in occurrence of such gravity. Probably the sole foundation for this story was the attack made about a week ago by Samison upon the forts at the entrance of Santiago harbor, in which the Spanish crulser Reina Mercedes was sunk and one of the Spanish torpedo boats disabled. The report originated in a Spanish

The war department, following the satisfactory example for by the navy defferment has instituted a system of builted for the benefit of the public, giving and and concise information of important has realings. The first of these bullsting made their appearance Saturday, giving Shafter's brief account of the driving in of the Spanish outposts. The newspapers had scarcely received this information before the Spaniards got a bulletin from Captain General Blanco announcing the repulse of the American forces. The war department officials are somewhat discourged at the prospect of having to meet this sort of bullstin rervice with a simple recital of cold facts.

Sigsbee on Saturday warned a British ship from seekday ware a British sing from seek-ing to enter the harbor of San Juan de Porto Rico, on the ground that it was blockeded. No formal notice has yet been given of the blockade of this port, but the captain's action is in line with the construction of the international law by the navy department, namely, that a blockade may be initiated without formal notice, by simple warning from a naval commander. It is fully expected that this construction will be combatted.

Notwithstanding the arrival of Ca-mara's squadron at Port Said, the westerly entrance to the Suez canal. the officials here still doubt that the vessels are bound for the Philippines. Rumors reach here, unconfirmed as yet, that the only ironclads in the squadron, the Pelsyo and the Carlos V, have left the squadron and returned to Spain, so that Camara no longer possesses a force that would threaten Dewey. If this be so the Spaniards have realized the folly of leaving their home ports unprotected.

THE HAPPY EVENING OF A WELL SPENT LIFE.

Why Samuel O. Stone, at the Age of Seventy-three Has Cause For Rejoicing.

It is written, "joy cometh in the morning," but in this instance it came when the sun of life was well adown the western sky, and following such a stormy afternoon as makes the contrast particularly striking. For over a decade and a half the venerable writer of the following communication had battled in vain against that most insidious foe of humanity, heart disease. in an aggravated form. Doctors had given his case up as hopeless and a lvised keeping him quiet till the end should come, but it was his good fortune to find that priceless remedy, Dr. Miles' New Heart Cure, and in the
