and it is the only cure, for it is the only remedy that reaches the disease. The surgeon's blade cuts the ulcer, but the poison remains in the blood, and never fails to break out afresh.

When my son was six years old, a small sore appeared on his lip, which gave him a great deal of pain, and commenced to spread. The doctors said he had Cancer, and advised that an operation was necessary. After much refluctance, we consented, and they cut down to the jawbone which they scraped. The operation was a severe one, but I thought it was the only hope for my boy. Before a great while the Cancer returned, and began to grow rapidly. We gave him many remedies without relief, and finally, upon the advice of a friend, decided to try S. S. (Swift's Specific), and with the second bottle he began to improve. After twenty bottles had been taken, the Cancer disappeared entirely, and he was cured. The cure was a permanent one, for he is now eighteen years old and has never had a sign of the dreadful disease to return.

J. N. Muznocu,
279 Snodgrass St., Dallas, Texas.

Being a virulent, destructive poison in the blood, it takes but little reasoning to see that the only proper treatment for Cancer is a blood remedy, one which has unusual merit and can force out the poison. Swift's Specific (S. S. S.) is a positive and permanent cure for Cancer, as proved by the abundance of testimony of those whom it has cured after all other treatment had failed and, in a number of cases, after all hope had vanished. It goes right down to the very cause of the disease and forces out every trace of the taint in the blood, thus ridding the system of it forever. Being purely vegetable, and the only blood remedy guaranteed to contain no mercury, potash, or other mineral, it builds up and strengthens instead of pulling down the system. Beware of the knife-it is dangerous and offers no hope. S. S. S. cures positively and

permanently, and is the only cure for deadly Cancer. Our books on Cancer will be sent free to any address. Swift Specific Co., Atlanta, Ga.
