THE FRANNEY CASE.

Testimony in the Injunction Suit Taken This Morning.

Special to EVENING Herald.

Pottsville, June 30.—The case of the Commonwealth against James J. Franney to restrain him from erecting bay windows on his property at the corner of Main and Lloyd streets was called this morning before Judge Koch.

The first witness called was W. G. Gregory, Borough Surveyor, who testified as to the grade established and submitted the grade book.

William Miller testified that the bay windows project four feet on the pavement and that a closed stairway also occupies the pavement. On cross-examination he said there was a bay window and stairway connected with the building previous to its purchase by Mr. Franney.

One George Fisher testified to practically the same thing as to measurements and said the bay windows were at obstruction to his view. On cross-examination witness said he alone was instrumental in bringing the suit.

This closed the case for the Commonwealth and Dr. J. K. Jester was called as a witness in behalf of Mr. Franney. He testified that the windows were of more obstruction than any other bay windows in the town.

Messrs. E. R. Hunter, Hon. M. C. Watson, R. G. Hess, Daniel Belsa, M. H. Kehler and L. H. Wilkinson were called to show that the windows were no inconvenience to the people of Shenandoah. Most of them stated that the windows were an obstruction to view, but not to light. It was also testified that the Franney windows were of no greater obstruction than those of other properties in the same square.

John Roberts testified that the windows were no obstruction so far as his view was concerned.

J. J. Franney was the last witness. He said the property had a bay window previous to his purchase of it and he did not think the windows obstructed view. On the other hand he thought the improvements he had made had increased the value of adjacent property and greatly improved the locality.

The case closed with the understanding that both sides are to submit briefs and authorities and Judge Koch reserved his decision.

Quite a number of witnesses brought to court were not called, Judge Koch having ruled out all evidence as to other bay windows in the town.

POLICE CHIEF TURNS THIEF.

Led an Organized Gang That Robbed Freight Cars.

Hazleton, Pa., June 30.—Chief of the Coal and Iron Police J. D. Hampton, assisted by the entire force in the region, yesterday afternoon arrested former chief of Police William Welsh, of West Hazleton, and his brother-in-law, Hugh Schaffer, of the same place, charged with a systematic robbery of freight cars in this and the Schuylkill regions. For a year past the Lehigh Valley Railroad company detectives have reported losses of goods along the line, but not until yesterday did the extensive nature of the operations of the gang become known. Officers visited the home of Schaffer, where they found stored away in the cellar and other parts of the house silks, cigars and tobacco, clothing and articles of various kinds, which had been taken from freight cars in this vicinity.

Schaffer and Welsh were brought before Alderman Heidenreich, in this city, and there Schaffer made a full confession. He and Welsh and others, who will be arrested as soon as the officers can get them, entered freight cars at night, occasionally cutting the train wires, and hoisted the cars of their valuable contents, storing the goods in West Hazleton and destroying what they could not hide.

Last year a freight car was entered at Quakertown, Pennsylvania, and several hundred yards of silk valued at \$3 per yard was carried off. The railroad company's officers could learn nothing of the whereabouts of these missing goods until they made their search yesterday.

The Revenue Tax. To-morrow the stamp tax goes into effect and all checks, notes, drafts, etc., will commence paying tribute to Uncle Sam. Owing to the short time which the Treasury department had to prepare the necessary stamps, it was feared that some inconvenience would be caused by delay in supplying them, but the two banks in town this morning had postage stamps of the two-cent denomination, bearing the letters "R. R." on hand to supply their customers. These stamps are to be used temporarily to assist in filling over the interval until the regular ones are furnished, and every one drawing a check after today must use them or get into a peck of trouble. In addition to this tax the railroad and express companies are required to put a special stamp on each and every receipt issued for goods to be forwarded and the local agents have been supplied. In the case of goods by express orders are imperative that shippers must have such receipts stamped or the goods cannot be forwarded or even accepted by the agents.

Senate T. W. Cooks Commemorative. Washington, June 30.—A precedent that will be historic was established by the senate at its session yesterday.

The resolution elicited several patriotic speeches, in which the private soldiers of the army and the common sailors of the navy were also justly noticed. They are Naval Constructors, Hobson and the other heroes of the Merrimack, Lieutenant Frank H. Newcomb, commander of the revenue cutter Hudson, for his gallant rescue of the Winslow and her crew off Cardenas, is also thanked, and Captain Rodgers, of the USS Albatross, for distinguished services at Manila, is referred to on full page.

Colliery Being Worked Out. From Mahanoy City Record.

The inside working force of West Bear Ridge colliery at present consists of but sixty-four persons, including bosses, pumpmen and all others, which is considerably less than the night shift consisted of but a few months ago. It is being rapidly worked out and the end of the present year will see abandoned a colliery that has for thirty years employed many hundred men and boys. The lease on said tract will expire about the same time and it is almost certain that the present lessees, the P. & R. C. & I. At the end of his first hour he had scored seven miles, but it took him 33 minutes to score three more miles, and he collapsed on finishing the tenth.
