THE general committee having in charge the Fourth of July celebration hold their final meeting this evening. There should be a full at tendance and active interest taken in the movement. We are on the eve of another grand victory in the war o humanity and justice, and we should be prepared to appropriately cele brate it on Monday next.

THE Polish voters of Luzerne county have decided to take a more active interest in politics in that county than they have in the past. At a convention held in Nanticoke this week, with about eight hundred representatives in attendance, it was decided to make the demand upon the Democratic party that one of their Beer and Porter. number be placed upon the county ticket, and selected L. C. Gabrill, of Nanticoke, as their choice. It is said a similar move is to be made in this county, and that the Democratic convention will be asked to give the voters of that nationality a representative upon the ticket.

THE question of how to keep cool is one that troubles almost every one these days, and as the summer is only about beginning, it might be well for the sensible individual to give the matter a moment's sober thought. We are having tropical weather with the mercury up to the nineties and the humidity somewhere in the same position of ascent. Under these circumstances we would suggest that those suffering from the intense heat read the editorial columns of our morning contemporary. It will have a tendency to put them in the sweet hand of nod and at the same time cool their brains.

THE Schuylkill delegates to the Democratic state convention divided their votes among several candidates for Governor, but they were a unit in support of the resolution endorsing Bryan and the Chicago platform. Schuylkiil deserved better treatment at the hands of Chairman Garman. The latter turned a complete somer sault on the financial question. Previous to the convention he declared that that body must endorse the Chicago platform, going so far as to read out of the party those who differed with him, but on the floor of the convention Garman personally appealed to the delegates to vote against the free silver plank and suc ceeded in defeating that proposition.
