If the Philippines ultimately become a possession of the United States, and Americans flock thither to establish new homes, they will have to include snakes and lizards among their family pets. In an artistic ou "Life in Manila" in the Youth's Companion for the week of June 30th, Charles B. Howard says: "Our household included three or four Chinese 'chow' dogs, with thick, orange colored fur and coal-black tongues, and Pedro, the house-snake, a small python, which traveled about inside the canyass walls and kept us free from rats and mice. Scrofula Leads to Consumption.

Inherited blood diseases are much more difficult to cure than those which are acquired. One of the most common hereditary diseases is Scrofula, which the medical profession admit is most obstinate and deep-seated; and their efforts to cure it meet with little success. A child afflicted with Scrofula is always puny and sickly, and can never grow into healthy manhood until the disease is eliminated. Scrofula leads into consumption nine times out of ten, so that it is important for this reason that immediate attention be given to all children who inherit the slightest taint.

My three-year-old boy had the worst case of Scrofula I ever heard of. His neck was cov-ered with sores, and the disease finally resulted in curvature of the spine. Physicians, after two years constant treatment, failed to do him any good. Some one recommended S. S. S., and as soon as his system was under the effects of the medicine, the sores began to get better, and in a few weeks had healed completely. Be-fore long he could walk on crutches, and was

improving every day. In three months he three aside his crutches, for he had no further use for them; the dreadful disease had been eliminated entirely from his system, and he was restored to perfect health. The cure was a permanent one, as no sign of the disease has returned for ten years. W. A. CLAYTON, Addie, N. C.

When my daughter was an infant she had a severe case of Scrofula, for which she was under the constant care of physicians for several years. She was worse at the end of that time, however, and we almost despaired of her life. A few bottles of Swift's Spacific curred her completely, as it seemed Specific cured her completely, as it seemed to go direct to the cause of the trouble. I believe it has no equal for stubborn cases of blood diseases which are beyond the power of other so-called blood remedies.

S. I. Brooks, Monticello, Ga.

Scrofula is frequently an inherited blood taint, but is often acquired by an impoverished condition of the blood, caused by impure air, poor ventilation and other deficient sanitary surroundings. It matters not from what cause it arises, Scrofula is a deep-seated blood disease for which S. S. S. is the only cure, because no other remedy can reach the impurity in the blood and force it out. S. S. S. eliminates every trace of the taint, and a perfect and complete cure is the result. S. S. S. is purely vegetable and is the only blood remedy guaranteed to contain not a particle of potash, mercury, or any other mineral.
