## TO MAKE HASTE SLOWLY

No Immediate Forward Movement on Santiago.

TO RUSH WATSON'S SQUADRON.

The Commodore Will Strike Straight After Camara's Fleet, Now in the Sucz Caual - Government Employs Wreekers to Recover Spanish Ships.

Washington, July 7.—The general tendency of the official buffetins posted yesterday show that no forward movement on Santlago is in absolutely immediate contemplation. Deep conand sufferings of our troops lying in tremches and In field hospitals surrounding Santiago, and there is every-where a disposition to insist that hereafter haste shall be made slowly, and that the equipment of our soldiers, their commissary and quartermasters' supplies, their ammunition and their hospital stores, shall be complete in every respect before they advance further. This is likely to be the rule even at the expense of time. Confidence is felt that there will be

no triction between the army and navy commanders, and that the conference, between them will result in an agreement upon a joint plan for the prose-cution of the campaign. In the event that this belief should be not well founded the president is prepared to act himself by orders from first hand. There is much of force in the naval argument that if Sampson is obliged to enter Santiago harbor before the forts are captured he will jeopardize the safety of the whole of the ironclad fleet under his command, since by the sinking of one of these ships in the narrow channel through a Spanish mine or shell the fleet would be left belphas and exposed to destruction under the guns of the forts, to which they could ranke no reply, owing to the sevention of the litter. On the other hand, the arm, officers seem to be justified in avoiding the tremendous secrifice of life that would be involved in again throwing our soldiers upon the Spanish defenses until they been materially reinforced in numbers

and strengthened by artillery.

The fact that several of the vessels ected for Watson's fleet were in the thick of the engagement of July promises to somewhat delay the de-parture of the eastern squadron for the shores of Spain. The vessels have con-sumed a good deal of coal, and without doubt have expended a large quantity of their highest grade of ammunition in the furious attack on the steel warships of the Spaniards. It will be necessary to replenish these stores be- 1898;ore the long European voyage is beof this squadron, and it will certainly be off in the course of a few days.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to the liver and kidneys, is a blood purifier and nerve tonic. It cares constipation, headache, fainting spells, aleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a minute worker. Every bottle guaranteed. Only 50c. a bottle at A. Wasley's drug store.

Application For Injunction Dented. Trenton, July 7.—Vice Chancellor Reed yesterday denied the application of the Camden and Suburban Street Railway company for an injunction restraining the city of Camden from repaying its principal streets. The matter is already in the supreme court, and a decision will be rendered to-morrow. Vice Chancellor Reed held that it was unnecessary for the court of chancery to interfere.

A little life may be sacrificed to an hour's delay, Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawperry always on hand.

Fourth Maulta Expediton. Washington, July 7.—Preparations for the fourth expedition to the Philippines are under way at the war department. It was scheduled to leave some time between July 6 and 10, but it is now realized that this is impracticable unless a much smaller array of transports is started than was at first contemplated. Approximately 12,000 men yet remain at San Francisco awaiting

transportation. Interested People.

Advertising a patent medicine in the peuliar way in which the proprietor of Kemp's Balsam for Coughs and Colds does it, is indeed wonderful. He authorizes all druggists to give to those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 25 and 6oc. We certainly would advise a trial. It may save you from consumption.
