GENERAL MILES OFF FOR CUBA.

The Commander of the Army Will Be With Shafter at Santiago Next Week. Watson Will Take Plenty of Coal to Spain.

Washington, July 8.-The president called a council of war yesterday to meet at the White House, the purpose being to review the situation and learn exactly what present conditions are and what changes, if any, should be made in the plans for the future conduct of the war. According to one of the members present it was decided to I suffered intensely with pains in my back abide by the plans already laid, at least and lameness across me. I was burdened as to the general conduct of the camwith a fooling of wearings causing a less of paign. Confirmation seemed to have energy. A friend Mr. Lard, of Patterilla, the day, when, after a conference with the members of the war board, Sec-I was induced to get them from Kirlin's the memory of the waiting retary Long announced to the waiting newspaper men that he had ordered fidence in them at first but they proved most Admiral Sampson to detach from his satisfactory. I do not think I over lead any own command immediately the ves-

mission. The vessels of the squadron will not lected, for the reason probably that the o quite disappear. Doan's Olutiment for sale by all dealets. The lows, other, south with Sampson. So is the Yose-mite. The Dixie is at New York and the Yankee at Tompkinsville. The colliers are at Hampton Roads with the Delmonico. The ships are to set

ply.

The order provides that each ship shall make her way across the Atlantic to a marine rendezvous, which will be designated in scaled orders, and the most that is known is that it will be at some point off the Spanish coast. It probably will not be long after that before the American squadron will be in full pursuit of Camara with his remnant of the Spanish navy, Meanremnant of the Spanish navy, Mean-while the gathering of the American fleet off the Spanish ports is expected to have a sobering effect upon the in-damed people. The number of colliers recompanying the expedition is evi dence that a long cruise lies ahead and that our naval auxiliary propose to be caught in no such position as was Camara at Port Said, obliged to submit to a refusal of coaling priviliges. A telegram received at the state depart ment yesterday afternoon announce that Camara was still lying with his squadron at Suez, the southern and eastern entrance to the canal. The torpedo boats Osuda, Prosceptina and Audaz arrived yesterday at Cadiz, their home port. The very first care of the officials

here will be for the wounded men, who are to be brought north as rupidly at the conditions will permit. There was some idea of taking one of the bl on the government reservation, for 11 purpose of a hospital, but it is said be the present plan to substitute number of large tents, which, who property pitched and placed, are made to be hygenically better than enclosed structures for the treatment of wound ad at this season of the year. Mean-while all is being done in the neighborhood of Santiago to alleviate the suffering that conditions will permit. Yesterday afternoon came a telegram from General Shafter to the war department as follows: "In the name of the sick and wounded officers and men

The case of Mrs. M. B. Reed, the estimable wife of the leading and begred for American ald. Genera merchant in Delta, Iowa, interestingly shows that desperate cases require prolonged treatment. Mrs. Reed writes

tion. In July 1891, I was stunned by a stroke of lightning striking the house, since rations, which were given out with sparing hands Theolay and became much worse. My limbs would all draw up, and my left arm and hand was in a cramped condition, and the chords in my neck would lie out hand was in a cramped condition, and the chords in all prominently. One physician pronounced it a light stroke of puralysis. I and Mr. decome Kemman of the Ref would have throbbings in my chest that seemed unendurable. For three rations in General Statice would months I could not sleep, and for three weeks I did not close my eyes in sleep. I thought I could not stand it. I just prayed for sleep, and felt that if relief did not come I would soon be dead or insane. My physicians (two from agreed to do so. The first pack train What Cheer, one from Springfield, and one from Sigourney), all agreed there was no help for me; that I was incurable. January 1892: Catching at a last straw as I thought, I tried Dr. Miles' Nervine, and it helped me from the very first bottle. The second night I slept two hours, and from that time on my while the ignorant, especially the sleep kept increasing and my health improved; slowly at first, but stendily a creased forward, tranticulty and surely. I have taken in all forty bottles, but that first bottle was worth \$500.00 to me. Among those at El Caney are some young ladies-and for that matter some old fadles-remarkable for beauty, with classic figures, large dark eyes and rich office complexions. They would at-tract attention anywhere. They wear white yells over their heads, holding these partly over their face, thus adding to rather than detracting from their charms.

It is probable that all, except some of the younger men, who fied with the women and children, will be given something to eat, but how long this relief can be extended is problematical. Many, of course, will be driven to the woods and be farred to subulat on mangoes and other frilli.
