OUR COUNTRY: First, Last and Forever

EVERY TIME a bond is loosened in the Spanish throne Don Carlos struts to the center of the stage and emits a melodramatic laugh.

SAGASTA REMARKS that the 10,000 Spanish troops in Cuba will never surrender. But there are 10,000,000 Americans of fighting age who say they will have to.

EVIDENCE accumulates to show that Congressman Brown has Greenback phrenia. He now wears spectacles, while the workmen of Schuylkill county are suffering for the want of the necessities of life.

The fight for supremacy between the Democratic factions in this town on Saturday, resulted in a decisive victory for the forces led by Muldoon, who captured four of the five wards. It was a spirited contest, and the victors are well pleased with the result.

THE achievements of our navy in the war with Spain are a source of wonder to the world. They surprise our own people by the greatness of the result in comparison with the small casualty list and the absence of serious damage to our ships. Devey destroyed one fleet without the loss of a man. Sampson has sunk the best fleet Spain ever owned, in consequence of the best aboat, and only one of his sailors was killed. Not an American ship was even slightly injured. On the Spanish side the loss of life was frightful. At Manila and Santiago nearly 1500 Spanish sailors were killed, drowned or wounded, and a larger number made prisoners. All this sounds like a story of impossibilities and not a reality of modern war. The Spanish sailors were not afraid to face death in battle, though there was a lack of aggressive purpose in the leadership of their fleets. They have physical courage, and the ships they lost at Santiago were mechanically equal to any swift armored cruisers in the world. That they could be wiped out so summarily will arouse deep interest in all navy departments. The military significance of the matter is profoundly important.

Uniform Naturalization. United States District Attorney James M. Beck, of Philadelphia, has prepared for congressional action a bill providing for the uniform administration of our naturalization laws and safeguarding the investiture of aliens with citizenship by certain formalities that will make the issue of bogus naturalization certificates extremely difficult.

Mr. Beck conducted the prosecution of the organized gang of fraudulent citizen makers recently captured and convicted in Philadelphia. The lawyer's close study of the cases made him thoroughly acquainted with our naturalization laws and their many defects and inconsistencies and at the suggestion of the federal department of justice prepared the bill in question.

For years the growing necessity of uniformity in this law has been apparent, and the lack of this essential uniformity has worked an almost incalculable amount of injury to our country. Some judges, including the learned men on the Northampton county bench, says the Elston "Express," have adopted stringent rules which give time and opportunity for a full investigation of an applicant's qualifications for citizenship, but the judges of this class, unfortunately, are few and far between.

Mr. Beck's bill contains many excellent, far-reaching clauses, and by its passage by the National Congress the right of citizenship can no longer be dealt out by politicians to all classes and conditions of foreigners without respect to their qualifications.

One particularly important provision is as follows: "No public officer, nominee for public office or member of any campaign or political committee shall be eligible to act as a voucher for any applicant and no application for citizenship shall be allowed when it appears to the court that the application has been made at the solicitation of any person or political organization for the purpose of securing the applicant's vote at an election to be subsequently held."

Buckley's Arnica Salve. The best salve in the world for cuts, bruises, sprains, sores, ulcers, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or sores required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by A. Weiler.

REFUSED UNCONDITIONAL SURRENDER.

(Continued from First Page.)

Refused unconditional surrender. The Spanish forces, under the command of General Cervera, were defeated at Santiago de Cuba on July 3, 1898. The Spanish fleet was destroyed, and the remaining ships were captured. The Spanish government refused to accept unconditional surrender, leading to the signing of the Treaty of Paris in 1898.

THE ILLS OF WOMEN

And How Mrs. Pinckham Helps Overcome Them.

Mrs. MARY HOLLISTER, 1101 Marlanna St., Chicago, Ill., to Mrs. Pinckham: "I have been troubled for the past two years with falling of the womb, headache, pain in my body, sick headaches, backache, nervousness and weakness. I tried doctors and various remedies without relief. After taking two bottles of your Vegetable Compound, the relief I obtained was truly wonderful. I have now taken several more bottles of your famous medicine, and can say that I am entirely cured."

OFFER TO SURRENDER.

Santiago's Commander Made Proposal of Conditional Surrender, Which Was Not Accepted.

Kingston, Jamaica, July 11.—The surrender of Santiago was formally accepted by the Spanish commander, General Toral, to General Shafter. The proposal was for a conditional surrender, which was not accepted by the American forces.

SPANISH PRISONERS.

Arrival at Portsmouth of the Captured Officers and Sailors of Cervera's Squadron.

Portsmouth, N. H., July 11.—The 81st Louisiana arrived yesterday with 76 Spanish enlisted sailors and 54 officers aboard, captured from Cervera's squadron. The command was headed by the United States coast signal service. The ship with which the course of the big ship was traced and reported to the navy department at short intervals from the moment that she was first sighted off the coast affords a striking illustration of the perfection which this branch of the naval service has attained under the energetic direction of Captain Bartlett. Every life saving station and every light house on the coast which sighted the ship flashed its report by telephone and telegraph straight into the headquarters of the navy department. The incident is gratifying as showing the remote danger of any hostile ship approaching United States ports without the knowledge of the naval department. Admiral Cervera himself was among the unwilling passengers on the 81st Louisiana. He will not remain at Portsmouth, however, but as soon as the enlisted men are landed on Seavey's Island in the quarters prepared for them at short notice, he, with the officers of his squadron, save the surgeons, who will be left with the men, will sail to Annapolis to be confined within the limits of the Naval academy reservation. The bringing of Admiral Cervera to the United States does not signify that the proposition to parole him has been finally dismissed. It has been simply postponed for a time. The admiral will be much more comfortable here until the feeling of unnatural resentment displayed against him in Spain has subsided.

"Saved Her Life."

Mrs. John Walle, of Jefferson, Wis., who was once more highly esteemed on widely known, writes: "In 1903 I had a severe attack of La Grippe and at the end of four months, in spite of all physicians, friends and good nursing could do, my lungs heart and nervous system were so completely wrecked, my life was despaired of, my friends giving me up. I could only sleep by the use of opiates. My lungs and heart pained me terribly and my cough was most aggravating. I could not lie in one position but a short time and not on my left side at all. My husband brought me Dr. Miles' Nervine and Heart Cure and I began taking them. When I had taken a half bottle of each I was much better and continuing persistently I took about a dozen bottles and was completely restored to health to the surprise of all."

Dr. Miles' Remedies are sold by all druggists and guarantee a money refunded. Book on diseases of the heart and nervous system.
