THE REMOVAL OF THE MINES.

Disposition by the Danish Anthorities to Prevent Our Government From Using Coal Stored at St. Thomas as a Breach of Neutrality.

Washington, July I3.-The impression prevailed in official circles at the close of public business yesterday that the flag of truce was still flying and that negotiations continued looking to a sur-render. The basis for these negotiations naturally could not be very broad in view of the injunction the president laid upon General Shafter to accept nothing less than unconditional sur-render, but it is supposed that time may be consumed through the indulgence of General Shafter in allowing the Spanish commander to communicate by nothing without it hurting me. I read that cable with Capitaln General Blanco in Dian's Kidney Pills were a positive cure for the effort to obtain his assent to the surronder, General Toral undoubtedly

sponse to the manly and pathetic re-port by cable to Blanco announcing the loss of his squadron, Cervera received a most harsh and unsympathetic reply, but such is the case. Bianco's purpose in this may have been to dissolve other spanish commanders, military and naval, from surrendering under any conditions, and in the case of Toral, it appears that he has made a strong im reasion. Novertheless confidence waxes in the speedy fail of Santiago, though many officers fear that the nest will be found empty and the hirds flown when the American troops make their entry into the town. Still, should this be the case, it may be fairly claimed that the prime object of the movement on Santiago, namely, the destruction of the Spanish squadron having been achieved the campaign as a whole has

been successful. General Miles' report Indicated that he had found unexpected physical dif-ficulties to contend with and he is apparently greatly pleased with the proas made by the army under the conditions prevailing. He has not assumed ommand, as is evidenced by his mea
