Mr. James Robbins, miner, of 10 South Market street, says: "I received an injury in a mine a number of years ago when a chain broke, let me down a chute, and badly sprained my back. Since then whenever I am exposed to bad weather or take cold it always affects my kidneys and back. I then have difficulty with the kidney secretions accompanied by pains in the back and top of my head. The lameness in my back made it very difficult for me to stoop or lift anything and if I sit for a while it hurts me to get up. I tried liniments and plasters but they did not amount to much. At last I was advised to try Doan's Kidney Pills and procured them from Kirlin's drug store. I never had anything do me so much good before and I can heartily recommend them for I have proved them to be reliable in relieving pains and annoyances of kidney trouble."

NOW FOR PORTO RICO.

Cabinet Discusses Plans For the Next Invasion.

"STRIKE WHILE THE IRON'S HOT."

This Is the President's Policy, and It Is Probable That Before the End of the Present Week Our Military Forces Will Land Near San Juan.

Washington, July 18.—An important conference was held at the White House last night, the participants being, besides President McKinley, Secretary Long, Admiral Sicard and Captain Mahan, of the war board. Adjutant General Corbin was present during a part of the deliberations.

The happy conclusion of the campaign against Santiago affords the president and his advisers intense satisfaction, but no disposition is manifested to let the war rest for a moment. Even before the details of the Santiago campaign have been cleared away the expedition against Porto Rico absorbs the attention of the president. He fully realizes that the war can be prosecuted to a speedy and successful end only by pressing the advantages already gained, and, as one of the officials expressed it, "the president proposes to strike while the iron is hot."

Arrangements for the Porto Rico expedition were under discussion by the president and the war board. It may be two or three days before the details of the new invasion are worked out, but it is probable that before the end of the present week the military forces of the expedition will have effected a landing not far from San Juan. Prior to the landing a naval demonstration probably will be made against the San Juan fortifications. The vessels taking part in the bombardment will be a part of the fleet of Admiral Sampson, but what vessels have been ordered to Porto Rico could not be ascertained.

No definite decision has been reached yet as to the strength and personnel of the land forces to be sent to Porto Rico. For a time it was supposed that few if any of the troops now under General Shafter's command at Santiago would be sent to Porto Rico, but it is known now that at least a part of Shafter's command will be in the new expedition. General Brooke, who is scheduled to go to Porto Rico, desired to take with him the troops which constitute his corps at Chickamauga, but it has been determined not to send that corps in its entirety. It is believed by the war officials that not so many men will be needed, in addition to the number to be sent from Cuba, and only a part of General Brooke's corps will form that part of the Porto Rican expedition which is to be sent directly from the United States.

It is understood that General Miles, who is to have command of the general operations in Porto Rico, will not return to the United States, but will proceed directly to a point near San Juan with such of the military forces now at Santiago as are to form a part of the expedition against Porto Rico. These and other details of the new expedition were discussed by the president and his advisers last night.

General Miles is in constant communication with the administration and much reliance is being placed upon him in the matter of the selection of the land forces for the Porto Rican expedition.

It is expected that two or three days, and perhaps a longer time, will be required to complete the turning over to the United States forces of the arms and equipments of the Spanish troops at Santiago.

Direct communication with Santiago via Playa Del Este and Hayti has been established, but it is likely, in the opinion of General Greely, the chief signal officer, that even better communication will have been established in a day or two.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at A. Wasley's Drug Store. Regular size 50c and $1.00. Every bottle guaranteed.

FINANCE AND TRADE.

Commercial Agency Gives a Good Account of Business.

New York, July 16.—R. G. Dun & Co.'s weekly review of trade says: The destruction of a Spanish fleet, Europe's quick appreciation of the feat, the wearying flags of truce at Santiago, and at last the surrender, have all influenced some markets day by day. But Americans have grown, and see that not many outside matters greatly influence the business which enables them to market $1,210,274,015 worth of domestic products abroad in a year, against $616,052,844 worth imported. The new loan has proved a stupendous success, over $1,300,000 having been subscribed, and it is now the question of chief interest whether any banks will get enough, after personal subscriptions have been accepted, to support further circulation. Industries and business are at the naturally lowest point for the year and, therefore, the records are the more impressive.

If the first and last of the month represented average production of pig iron, the quantity consumed in manufacture would be 3.8 per cent. less than the highest ever attained in May, a small decrease for midsummer, but in fact the average production was larger and decrease in consumption was smaller. Just when stagnation is customary, very many mills are crowded with orders for months, the Illinois rail mills until December or later, with sales this week of 15,000 tons and structural works with a few contracts, for 10,000 tons more, while larger demands appear for cars, plates and sheets and better demands for bars at the east. One heavy sale of billets from Pittsburg to eastern Pennsylvania, at a concession of 50 cents, is the only real decline in quotations, though eastern steel bars are a shade lower.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does it, is indeed wonderful. He authorizes all druggists to give to those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 25 and 50c. We certainly would advise a trial. It may save you from consumption.

Free Medical Treatment for Weak Men

Who Are Willing to Pay When Convinced of Cure.

A scientific combined medical and mechanical cure has been discovered for "Weakness of Men." Its success has been so startling that the proprietors now announce that they will send it on trial—remedies and appliance—without advance payment—to any honest man.

If not all that is claimed—all you wish—send it back—that ends it—pay nothing!

No such offer was ever made in good faith before; we believe no other remedy would stand such a test.

This combined treatment cures quickly, thoroughly and forever all effects of early evil habits, later excesses, overwork, worry, etc. It creates health, strength, vitality, sustaining powers and restores weak and undeveloped portions to natural dimensions and functions.

Any man writing in earnest will receive description, particulars and references in a plain sealed envelope. Professional confidence. No deception nor imposition of any nature. A national reputation backs this offer. (Cut out and send this notice, or mention paper.) Address

STARVING REFUGEES

Pouring Into Santiago Under American Protection.

MANY FELL BY THE WAYSIDE.

Nothing to Eat Can Be Had in the City, and the Hungry People Eagerly Await the Arrival of the Red Cross Steamer State of Texas.

Santiago, July 18.—Since 4 o'clock yesterday morning a stream of refugees has been pouring into the city, some naked, and all hungry, skeletons and footsore. Many had fallen by the wayside.

Twenty-two thousand refugees are quartered at El Caney, 5,000 at Firmezas and 5,000 at Cualbitas El Bonito and San Vincente, where they have been living for a fortnight. In one case 500 were crowded into one building, which was a regular pigsty, with a horrible stench. They used the water from the river, where soiled clothing was washed and all manner of filth is floating.

The docks are crowded by incoming refugees in a starving condition, awaiting the arrival in the harbor of the Red Cross society's steamer State of Texas, as there are no eatables to be bought in the city.

The entrance of the refugees was quiet and peaceful, they viewing their wrecked homes philosophically as the fortune of war. Admiral Sampson's last bombardment of Santiago wrecked 57 houses in the city, causing heavy damage.

The town of Santiago presents a dismal sight. Most of the houses have been sacked and the stores have all been looted, and nothing to eat can be had for love or money. In the streets of the city yesterday, at the entrenchments, at the breastworks and at every hundred feet or so of the barbed wire fences were the living skeletons of Spanish soldiers.

Among the arrivals yesterday were the German, Japanese and Portuguese consuls and their families, the British and French consuls having arrived on Friday.

General Pando was never here, but 3,500 men from Manzanillo arrived on July 3, making the total garrison here 7,000.

The armament of the shore batteries of Santiago consist of five brass six inch muzzle loaders in the Morro fortifications; two six inch Honorias, from the cruiser Reina Mercedes and three 21 centimeter mortars—never used—in the Socapa upper battery; two useless 21 centimeter mortars, two eight centimeter muzzle loaders and four 8 centimeter muzzle loaders and four eight centimeter field pieces in the Estrella battery; one 57 millimeter and one 25 millimeter Nordenfeldt and one 37 millimeter Hotchkiss in the Socapa lower battery, and two six inch Honitorias, two nine centimeter Krupps and two 15 centimeter mortars at Punta Gorda.

The Spanish flag was lowered from Morro Castle at 9 o'clock yesterday forenoon, and steam launches from the New York, Brooklyn and Vixen entered the harbor and examined the batteries, the wreck of the Merrimac and sunken Spanish cruiser Reina Mercedes and the torpedo firing station. They discovered six Spanish merchant steamers and one small gunboat in the harbor, and a prize crew was placed upon the latter.

In the afternoon the torpedoes were taken up or exploded, after which the Red Cross steamer State of Texas entered to give assistance to the sick and wounded in the city. The warships may not enter the harbor for several days, probably until after the arrangements have been completed for transporting the Spanish prisoners to Spain. Nearly all the American men of war are now in Guantanamo bay.

Shiloh's Consumption Cure cures where others fail. It is the leading Cough Cure, and no home should be without it. Pleasant to take and goes right to the spot. Sold by P. D. Kirlin and a guarantee.

Yellow Fever at the Front.

Washington, July 16.—The war department officials are greatly encouraged by the reports on the yellow fever situation from the army at the front. They were fearful lest the statistics from there might show increasing cases, but were relieved when a dispatch came from Surgeon Greenleaf, a member of General Miles' staff, saying that during the past 24 hours there had been only 23 new cases. This was in marked contrast with the reports for the previous 24 hours which showed a much greater spread and, with Surgeon Greenleaf's statement that the general character of the disease is mild, leads the officials to hope that its ravages will be limited and that the disease will be kept well within bounds.

Years of suffering relieved in a night. Itching piles yield at once to the curative properties of Doan's Ointment. Never fails. At any drug store, 50 cents.

Kelfer's Division May Go to Porto Rico

Miami, Fla., July 18.—It is understood that General Kelfer has been asked how soon he can place his command in condition to go to the front. If true, this would indicate that the six regiments here are to be detached from the Seventh army corps to one of the commands under General Miles, to accompany him on his expedition of invasion of Porto Rico. The troops are being equipped as rapidly as possible, and are now in good condition to undertake a campaign.

E. C. Blanks, of Lewisville, Texas, writes that one box of DeWitt's Witch Hazel Salve was worth $50.00 to him. It cured his piles of ten years standing. He advises others to try it. It also cures eczema, skin diseases and obstinate sores. C. H. Hagenbuch.

Gypsies Tried to Mob Rigo.

Vienna, July 18.—Since the birth of her son, the former Princess of Caraman and Chimay, who is in Budah Pest with Rigo, the gypsy musician, has been steadily gaining strength. On hearing that Rigo's divorce action was to begin at Kaposvar Saturday the court was thronged with gypsies, who tried to mob Rigo. He declares his intention of marrying the ex-princess as soon as he has obtained his divorce from Mme. Rigo.

The editor of the Evans City, Pa., Globe, writes, "One Minute Cough Cure is rightly named. It cured my children after all other remedies failed." It cures coughs, colds and all throat and lung troubles. C. H. Hagenbuch.

A Jersey Yachtsman Drowned.

Sandy Hook, N. J., July 18.—Thomas J Lawler, single, a musician of Company A, Third New Jersey volunteers, who enlisted at Asbury Park, N. J., and whose home was in New Haven, Conn., was drowned near Highland Beach yesterday.

For forty years Dr. Fowler's Extract of Wild Strawberry has been curing summer complaint, dysentery, diarrhoea, bloody flux, pain in the stomach, and it has never yet failed to do everything claimed for it.

ADVERTISING FOR TRANSPORTS.

The Government Wants Vessels to Carry 25,000 Spaniards Home.

Washington, July 18.—The formal advertisement issued by the quartermaster general's office of the war department for the transportation to Spain of officers and men who surrendered to General Shafter was issued late yesterday afternoon, and appears today in newspapers published in New York, Philadelphia, Boston, Baltimore and New Orleans. The advertisement declares that the number to be transported is estimated as 1,000 commissioned officers and 24,000 enlisted men. Cabin accomodations are to be supplied for the officers, and third class or steerage accomodations, having suitable galley accommodations, conforming to the United States requirements as to space and ventilation, for the enlisted men. The United States government will deliver the prisoners on board at Santiago. Proposals must state the per capita price for transporting the officers and for transporting enlisted men and for their subsistence and delivering them on shore at Cadiz or some other Spanish port.

Killed With a Baseball Bat.

New Castle, Ind., July 18.—At the conclusion of a ball game here yesterday Charles Presnall and George Bramble became involved in a quarrel over the ownership of a bat. Presnall finally struck Bramble over the head with the bat. Blood poured from Bramble's mouth and nose, and in a few hours he died. Bramble was 29 years of age and Presnall is 17.

As honest man in this day and age has little need to fear death by hanging. The danger that innocent men will die upon the scaffold has been reduced by modern laws of evidence to a minimum. There is one appalling death that still threatens innocent men. It is a slow and lingering death from consumption. One-sixth of the human race die from this relentless enemy of humanity. Probably no subject connected with health is so important and so little understood as the conservation of vital force. The human organism is a wonderful machine, and is so constructed that if exhaustive draughts are made upon the vital forces during youth and middle life, the mechanism responds for the time, but at the expense of its future usefulness. The man who overworks or exhausts himself day after day is constantly overdrawing his store of vital force. Finally the mechanism of supply breaks down and the man becomes a physical bankrupt. The mechanism of supply in a man is his stomach. There the food is transformed into vital force. If the stomach is weak and the digestion impaired, the body ceases to receive and store up vital force. If the draught is continued, consumption or some other equally fatal disease is the result. Dr. Pierce's Golden Medical Discovery is a great producer of vital force. It enables a man to daily store up energy to do almost any amount of work or stand any amount of exposure. It does its work through the stomach. It makes the weak stomach strong. It facilitates and increases the flow of digestive juices. It promotes and perfects the assimilation of all the life-giving elements of the food. It is the great blood-maker and flesh-builder.

Mr. F. M. Robbett, of Xenophon, Tenn., writes: "I can heartily recommend Dr. Pierce's Golden Medical Discovery for indigestion and torpid liver. I was very bad off and tried different doctors with but little benefit. I decided to give the 'Golden Medical Discovery' a trial and I soon began to improve. If it had not been for Dr. Pierce's Golden Medical Discovery I believe I would not be living to-day."
