OUR COUNTRY: First, Last and Forever.

From day to day new tules come from the Klondike, but the excitement over the Alaskun gold fields has largely subsided.

Now that the campaign at Santlago is about finished, one Mr. Dewey has the floor. We should hear from him again in a few days.

EACH time Spain is licked, she concludes she can ask for peace because the terms will be more severe. Spain-ish statesmanship should be at a single-city, but he would not necessarily premium:

WE would have been in a ridiculous position by this time if the advice of some of our statesmen land been taken and the Caban republic recognized prior to the declaration of war. Had we done that we would have had no alternative but to allow the Insurgents to run things.

In early days, when clocks were rare, and watches were rarer, steam whistles served a purpose. In these days, when the poorest man has a watch and clocks are everywhere. steam whistles are simply a barbarity. ## MANZANILLO VICTORY

As Modestly Told by Commander Todd, of the Wilmington, in His Report to

Admiral Sampson. Playa del Este. Cuba, July 22. - The following is the official account of the latst naval victory-that at Manzanillo -modestly told by Commander Todd, of the United States gunboat Wilmington, in his report to Admiral Sampson:

"At 7 o'clock on the morning of July 10 the vessels on blockade duty in this vicinity, the Wilmington, Helena, Hist. Scorpion, Hornet, Wampatuck and Os-ceola, approached the harbor of Manzanillo from the westward. At 7:30 the Wilmington and Helena entered the northern channel, toward the city, the Scorpion and the Osceola the midchannel, and the Hist, Hornet and Wampa-tuck the south channel, the movements of the vessels being so finid as to bring them within effective range of the ship-

ping at about the same moment.
"At 7:50 fire was opened on the shipping, and after a deliberate fire last ing about two and a half hours three Spanish transports El Gloria, Jos Garcia and La Puriciama Conception were burned and destroyed. The Porstore shop probably for ammunition was burned and blown up, Three gun waits were destroyed. One other was driven ashore and a third was driven ashore and his believed to have been disabled.

'The firing was maintained at range which is believed to be beyond the range of the shore artillery. It was continued until, after a gradual closing in, the shore batteries opened fire at a comparatively short range when the ships were recalled, the object of the expedition having been accomplished and the ideas of the commander-in-chief carried out as I understood them that is, to destroy the enemy's ship ping, but not to engage the field batteries or forts.

'No casualities occurred on board any of our vessels. Great care was taken in directing the fire, that as little damage as possible should be dene to the city itself, and so far as could be observed little if any was done. All of our vessels were handled with sound discretion and excellent judgment by the several commanding officers,
