**WAR BALLOON FOR PORTO RICO.**

The Airship Will Be Used In Service to Aid General Miles' Campaign—General Shafter Reports Five Hundred New Cases of Fever in His Army—Sampson's Report of the Fight With Cervera's Fleet. The Thanks of Congress Forwarded to Admiral Dewey.

Washington, July 26.—The war department was busily engaged yesterday hurrying the dispatch of the remainder of Miles' expedition against Porto Rico. Such progress has been made that it is hoped all of the troops will be on Porto Rican soil within a week at latest. General Miles, according to a press dispatch from St. Thomas, D. W. I., began landing his troops yesterday near Ponce, on the south coast of Porto Rico, where it is believed he will await the detachments now on the way. War department officials accept the press dispatch as reliable. The general has not with him, so far as is known, any dispatch boats. It will be at least Saturday before direct cable communication can be established with him, and in the meantime reliance must be had on the dispatch boats running across to St. Thomas, distant about four hours run.

The work of embarking at Hampton Roads is being conducted with much less difficulty and delay than was expected. Colonel Hawkins, in charge of the transportation division of the war department, who has just returned from that place, has reported to Secretary Alger that it is eminently suited to the shipment of the troops. Consequently the secretary yesterday ordered all of General Grant's brigade, 3,000 men, from Chickamauga to Newport News. It is now expected that all of the transports required for their accommodation will have arrived there by the time the soldiers get in, but they will camp on the water front and it is believed will be benefited by the change from Chickamauga.

The signal service has succeeded in reclaiming from the battlefield of Santiago the tubes which supplied the military balloon with pure hydrogen gas, and they, with the balloon itself, have been brought over to Tampa on the steamer Adria. The tubes will be recharged immediately and the whole apparatus will be dispatched at once to Porto Rico to assist General Miles in his campaign there. The balloon is said to have proved of great value in the Santiago campaign, and from the character of the country in Porto Rico where military operations must be conducted it is believed that it also can be used to advantage there.

In a dispatch to the war department last night, General Shafter reports that about 500 new cases of fever developed in his corps at Santiago Sunday. This number includes, of course, all cases of fever, probably some cases of penicilline yellow fever. Only one death is reported, that one being from yellow fever. The cheering intelligence is conveyed that the situation is improving and that about 500 men who have been returned to duty.

As heretofore indicated by General Shafter and the medical officers of his corps, the cases of fever are of a notably mild type. The patients are ill from three days to a week, and then return to duty quite as well as ever. The medical officers concur in the opinion that this fever renders the men immune, for the time at least, to yellow fever.

The question of returning a large part of General Shafter's command to this country for rest and recuperation was under consideration by the War office, but the idea practically has been abandoned, at least for the present. Those who are ill now or have been exposed to the infection are isolated in detention camps, and are not permitted to return to the main body of the troops until all danger has been averted. Through the adoption of rigid sanitary precautions and careful attention to those who fall ill it is expected that the fever will run its course in a comparatively brief time.

It was announced yesterday at the navy department that the long expected report from Admiral Sampson upon the destruction of Cervera's fleet, with the accompanying reports of the commodore and captains of his squadron, has reached the department. It is supposed to have been brought by Captain Sigbee on the St. Paul, which arrived at New York last Friday, and to have been sent by mail by Captain Sigbee. It is the intention of the secretary of the navy to give these reports to the public in their entirety.

Secretary Long yesterday forwarded to Admiral Dewey the joint resolution of congress extending the thanks of congress for the victory achieved at Cavite. The resolution was beautifully engrossed and prefaced by a formal attestation of its authenticity by Secretary of State Day, the whole being enclosed in richly gilt and ornamented Russian covers.

**GEN. EVANS LANDS AFTER SKIRMISHING.**

Special to EVENING HERALD.

Porto Rico, July 26.—General Miles and his expedition successfully landed here to-day after a skirmish with the Spanish troops that attempted to thwart him. No Americans were killed.

**AN ARMISTICE NOT FAVORABLE.**

Special to EVENING HERALD.

Washington, July 26.—It is evident that the officials have knowledge that the Spanish government has drawn up an armistice. It can be stated, however, that the United States will not consent to an armistice, with a part of the army already landed at Porto Rico and other troops en route. Spain must sue direct for peace, and ask what terms the United States will grant. Then an armistice will be granted to arrange the details.

**SPECULATORS AT SANTIAGO DE CUBA.**

Special to EVENING HERALD.

Santiago, July 26.—A steamship arriving here from Port Antonio had on board several American speculators desirous of organizing a brewery, ice and electric tramway enterprises in this city.

Over 4,000 Spanish troops, included in the terms of surrender, arrived here and await the transports to take them to Spain.

**THE POWERS AND THE PHILIPPINES.**

Special to EVENING HERALD.

Hong Kong, July 26.—Telegraphic reports from European capitals announce that the European nations have agreed that America shall not annex the Philippine Islands.

**Spain Reports Another Fight.**

Special to EVENING HERALD.

Madrid, July 26.—A despatch from Havana says that Commander Manzanao prevented the landing of a body of Americans near Bahia Honda, fifty miles west of Havana. The Americans were protected by a warship. The landing party launched a boat, which was sunk by the fire from the shore. A lieutenant and four men were killed. The Spanish artillery also killed several men on board the warship. The Spanish loss was only three men slightly wounded.

**The Report is Doubtful.**

Special to EVENING HERALD.

Washington, July 26.—There is no confirmation of the report that four Russian warships have started for the Philippine Islands, and that four Japanese ironclads are bound for the same port. The Washington officials place little credence in the report especially in view of the fact that it comes from Shanghai, a hotbed of rumors.

Special to EVENING HERALD.

San Francisco, July 26.—It has been decided to fortify Honolulu and make it one of the strongest military posts in the Pacific. He said on his arrival: "I hope to finish my business in Boston in a day, and to return to Washington tomorrow. I do not know how soon I shall leave for Cuba." Last night he was the recipient of an informal reception by the members of the Army and Navy club in New York.

**Carlisle Exodus From Spain.**

Madrid, July 26.—The government professes to have full information as to all the Carlisle doings and is acting accordingly. The Carlisle leaders, it is believed, left Madrid because they feared arrest rather than with any idea of preparing a rising. The authorities assert that the agitation has been effectively checked. Vasco, the Carlisle chief at Bilbao, has been arrested. The exodus of Carlisle from the northern provinces of Spain into France is extremely active.

**Our Santiago Casualties.**

Washington, July 26.—General Shafter's official report to the war department of the casualties sustained by his corps in the battle of Santiago will be made public as soon as it can be prepared for publication. The recapitulation of the report shows that the total casualties were 1,295. Twenty-three officers and 298 enlisted men were killed; 50 officers and 1,263 men were wounded, and 81 men are "missing." The latter are undoubtedly dead.

Moses Payne Makes Three Journeys to Leader Quay. Where the Harmony Deal is Consumed—Some of the Leaders Are Kicking Mighty Hard.

Special to EVENING HERALD.

Pottsville, July 26.—Now that the Democracy has named their ticket, the attention of the political leaders and ward leaders is turned toward the Republicans. The date for holding the convention has not been announced, and until that is definitely decided upon there will be little active work on the part of the party workers. It is safe to say, however, that the convention will not be called before the latter part of August or the first week in September. This is the opinion expressed by one who is in touch with Chairman Quay, and the plan to make the campaign a short and aggressive one will be carried out unless some unforeseen contingency arises to change that program.

**THE DICTATOR.**

The adjournment of congress, the present member from this district started in to secure his renomination by assuming unto himself the position of Dictator, and his emissaries at once started at work in the outlying districts feeling the public pulse. Fortunately I enjoy the confidence of several of Mr. Brumm's ardent supporters and I learn that the result of these emissaries is the report that the renomination of the present congressman is looked upon by the rank and file of the party as a political blunder. For this reason Brumm assumed the position of Dictator, and gave it out in language more forceful than elegant, that under no circumstances must Judge Koch, Controller Snyder nor S. B. Edwards be placed upon the ticket, that he would not accept a nomination with these gentlemen as his colleagues. And lo! and behold, the change! From the dictatorial position Mr. Brumm suddenly blossoms out as a suppliant suing for peace. Among all his friends he selects Bud Payne as

**THE POLITICAL MOSES.**

True it is, that Mr. Payne, who resides in Andover and has held political positions with fat salaries for many years, and is still holding on with the tenacity of a bull dog, assumed an unwarranted authority in his peaceful mission, but the Deputy Controller accepted the biblical injunction of his Maker and well has played the part of Moses.

It is recorded that Moses Payne went forth from the presence of his political Maker to seek peace among the Loachites and to bring them up out of the land of Egypt unto a land of milk and honey, where they might eat around the flesh pots, and leaves and fishes; unto the place of the Brummites, and the Whitehouses, and the Shrinkettes.

Therefore, come with me into the presence of the King Brumm, who speaketh with much love toward his enemies, and who desires that all dwell together as children of one family, that we may all enjoy the fruits of victory.

And it is further recorded that when Moses first appeared before the different tribes of Loachites comprising the Ewchites, and the Snyderites, and the Edwardsites, and the Duffyites, who had fallen from grace, they all cried out aloud for harmony, and it came to pass that the different tribes of Pharaoh Loach cried aloud: The King Brumm shall reign for ever, and ever.

And King Brumm then spake unto Moses Payne, saying: Speak unto the Loachites, that they bring me an offering, and let them make me a Congressional sanctuary, that I may dwell there in mine old age, and let the Brummites may inherit from one generation to another.

Moses Payne then departed, and it came to pass that he pondered long and well. "Saith I, I am the great peace-maker, and will take myself to the beautiful valley of Lancaster county, where dwelleth Leader Quay. He knoweth me not, but the King's orders must be obeyed, and Moses quietly left the county's affairs to take care of themselves, and hid himself away. And it came to pass when Moses left the tabernacle of justice verily all the officials and politicians rose up, and stood every man at his office door and looked after Moses, until he was well on his mission of peace.

Leader Quay reluctantly listened to the appeal of Moses in behalf of the King, whom he said was sorely perplexed, and then Moses spake thus: "I will bring unto you this enemy Pharaoh Loach, who sitteth in sackcloth and ashes pray thee to forgive his past sins, and from henceforth will worship at thy shrine, and in the sanctuary of the State Senate support thee as thine own successor. Leader Quay, knowing that the people of the county of Schuylkill are sorely perplexed with voting periodically for Brumm and Kelly, and Kelly and Brumm, and moreover he doubted the sincerity of Pharaoh Loach, and thus spake:th Leader Quay: Return to thine own land, Moses, and bring unto me the leader of the Loachites, and let him speaketh unto of his own mouth that which he hath to say.

Moses straight way sought Pharaoh Loach, and by the pious waters of the Schuylkill, in the meeting place of the Israelites, did the bald-headed Tuscarorian dedicate his soul and plight his faith to the cause of harmony, knowing well that his tribes would secure fat offices, and dwell in the land of plenty. Then appeared the handwriting on the wall, in silver letters, "Beware of political tricksters and intrigues; the Brummites will lead thee unto the slaughter as a sacrifice on the altar of peace." Pharaoh Loach heeded not the warning and turned his head, and said unto Moses: I will go with thee unto the great Leader.

**THE COMPACT.**

Now, therefore, on the 16th day of July, Moses Payne led the bald-headed warrior of many battles to the slaughter and they appeared before the great Leader in his Lancaster sanctuary, and Moses was exceedingly glad, for he knew that his master Brumm, King of all Schuylkill, would weep for joy. It is further recorded that Pharaoh Loach, foot-sore and feeble from his long journey, sacrificed his people, deserted the cause for which he fought many years, and with bowed head pledged his old-time enemy that he would vote for him in the Senate, and do other things which he may command, even unto bearing the olive branch to King

Ed. will neither carry a gun nor handle a rifle, however, but hold the reins behind a four-horse team in the commissary department. This is right in his line, for if there is a man in town who understands handling horses it is Kester. He expects to be assigned to one of the regiments that will be sent to Porto Rico.

**Installation Troubles.**

Daniel Hesser was charged before Justice Shoemaker last night with larceny as bailie. The suit was instituted by Richard Guinan, of Mahanoy City, who alleged that he sold Hesser furniture, carpets and a stove on the installment plan. One of the clauses of the agreement stated that the articles were only leased until paid for and that they were not to be moved from the house in which they were installed without Guinan's consent. The latter learned that Hesser had sold some furniture and when he called at the house he could not find his goods, hence the arrest. Hesser denied that he had sold any of the goods, that they were at Newburg and he was willing to return them. He was put under \$300 bail.

Brumm. This is recorded the greatest sacrifice in the political annals of this county by a leader who was once mighty in his own strength.

The result of the harmony between the Brummites and the Loachites is recorded as follows: C. N. Brumm for Congress; R. H. Koch, Judge; Charles A. Snyder, Controller; S. B. Edwards, District Attorney; Frank Scanlan, Poor Director; M. D. Rowman, Surveyor.

**THREE PHILIPPIANS.**

Moses Payne made three pilgrimages to Lancaster, in only one of which was he accompanied by Pharaoh Loach, and on Saturday last the result was presented to the Brummites, the Whitehouses and Shrinkettes, and this council of war agreed to the compact. Yesterday the details were completed when Moses Payne again called his harmonizer together in the tabernacle of justice, when Brumm, Loach, Payne, Snyder, Whitehouse, Schrick and a nonentity paraded out the offices in this manner without consulting the members of their tribes. Brumm's nomination is to satisfy himself; Koch, for Judge, to appease Loach and Snyder; Edwards is accepted because they cannot defeat him; Snyder, for Controller, is another sop for Loach, while the Schrick's recommendation for the Legislature will satisfy Whitehouse. Dave Henning, who is a candidate for Judge, is to be supported by the whole gang for the next year on the bench.

The deal goes further. Loach is not only to support Quay for the Senate, but his friends are to support Schrick, Orme and Whitman for the Legislature, two of them Quay men; Kershner, in the Third district, and Kehler in the Second are to be renominated, with a Quay man in the First district. Thus it will be seen the anti-Quay leaders have surrendered body and soul.

There are other details to this harmony deal that doesn't harmonize that will prove interesting political history when given in my next letter. In the meantime, what do the people think of the assumption of one of two men, for personal aggrandizement, dealing out the offices one month in advance of the party convention? The party can win this fall, but not with the ticket as dictated by Moses Payne and his master. Then, again, the Judge, Congressman, Controller and District Attorney all come from Pottsville, and it is reasonable to suppose that the delegates from the other districts will make a list over that party position. The Democrats are recognizing the harmony deal on these lines because they realize the weakness of the combination.
