The Dead Statesman's Son Ignored the Emperor's Desire to Have the Burial in Berlin and to Have Lenbach Paint a Portrait.

Friedrichsruhe, Aug. 3 .- The emperor and empress of Germany arrived here at 6 o'clock last evening, accompanied by Baron Von Bulow, the minister of foreign affairs, and their suites. His majesty wore an admiral's uniform and the empress was in mourning. The members of the late Prince Bismarck's family received the imperial party. and the emperor, on alighting, kissed Prince Herbert Bismarck on both cheeks and shook hands with Count William Bismarck. The party then entered the cathedral, passing through detachments of the Thirty-first regiment of infantry, which were drawn up along the road and up to the costie

gate The crowds on each side of the road were composed of Hamburgers, who had been arriving by every train; for-esters from all the Sachenswald vil-iages, bicyclists, children and travelers from foreign countries. Venders of cards, photographs and medals swarmed about the outskirts of the crowds, and walters from the neighboring beer gardens, bearing trays of empty or filled glasses, circulated on all sides and did a big business among the thirsty. There were only a few gendarmes present, but they were perfectly able to maintain order. When the imperial train arrived here

the crowds were so anxious to see the unperfor that they swarmed over the fences and upon the platform. The troops, however, were able to keep a space clear around the emperor's saion carriage

Besides this, the coffin containing the remains of Prince Bismarck was closed somewhat hur-riedly. Lenoral Merritt Ordered to Protect Non-Combatants From the Wrath of Aguinabito's Followers-Cheering Reports From Porto Rico.

Washington, Aug. 3 .- Officials make no conceniment of their apprehension of trouble to follow the execution of our program in regard to the Philippines. The reports of the military and naval commanders of late have contained warnings of expected conflicts with the insurgents, and no surprise will be feit at the receipt of news of an out-break at almost any moment. The United States government feels that it has assumed a moral obligation towards not only the foreign residents at Manila, but towards the unprotected classes of the Spanish community-women, children, nuns and pricets. Therefore when intimation came that the insurgents were threatening the lives of some helpless monks orders were sent to the American military commander to look into the matter and to act in the interest of civilization and humanity. As, according to the report. the insurgents have shown particular hostility towards the monks. It is a reasonable expectation that before long collision will have occurred between theniseives and the American troops if the latter undertake to interfere in the execution of the vengoance of the inurgents.

The Cuban Insurgent General Defeats a Spanish Force En Route to Holguin.

Playa Dol Ente, Cuba, Ang. 3.-News as received here yesterday from General Calixio Garcia and the Cuban forces under him at Mayari, near the Bay of Nipe, on the north coast of the province of Santiago de Cuba. The report is that General Garela has been in a heavy fight with Spanish troops who were trying to effect a junction with the main body of Spanish regutars at Holguin.

These Spanlards were probably the force that evacuated Nipe bay during the recent naval bombardment. A large body of Cuban reinforcements had reached General Garcia, and the imfards in this engagement, or at least held his own. General Garcia had meyed toward

ing to Friedrichsruhe. It is asserted that just before funeral services the emperor again pressed his desire to have a nation funeral in the Berlin cathedral. Princ Herbert, however, again demurred, whereupon his majesty said: "If this is not acceptable I should like to place a memorial sarcophagus, with a life sized monument, in the cathedral. But to this Prince Herbert replied that he 600 could not see how he would be acting in conformity with his father's instructions by accepting it. It is expected that the coffin will re-

main in the death chamber until the mausoleum is completed, or, if the is completed, or, if the sanitary authorities object, it will be taken to the so-called tower house. Hamburg friends have already sub-scribed 300,000 marks to build the mausoleum.

The papers continue to print the warmest culogies of the deceased, though the socialistic Vorwerts ac-cuses Prince Bismarck of working always in the interests of capitalism, adding that whenever he dealt with moral and intellectual factors he failed. The Polish press declares Prince Bis marck was the greatest enemy of the Poles.

Robbed the Grave. A startling incident of which Mr. John Oliver of Philadelphia, was the subject is narrated by lim as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coasted, pain continually in back and sides, no appetite— gradually growing weaker day by day. Three physicians had given me up. Fortun-ately, a friend advised trying 'Electric Hitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at A. Wasley's drug store. 3-1-tf
