There are many Schuylkill county towns where this apparently harmless flirtation with strangers is carried on, although happily not to the extent as rited above.

Our correspondent says the exceptional cause of it would seem to be the wide circulation of victors literature. A teacher in the public schools at Greencastle, this state, who has charge of sixty boys, made an investigation and found that diffy eight of the number acknowledged having read this vicious literature that is being spread broadcast among the youth of America. Salacious French fiction, the sale of which has long been a crime in England, and is now outlawed even in Paris, may legally corrupt the youthful minds of this country. The vice which our pastors are deploring is nothing more nor less than the natural result of the circula tion of low and degrading literature,

That something ought to be done to check the immorality that is broadcast, goes without saying. Our correspondent suggests the curfew ordinance, which would throw a shield around the youth during the hours of greatest temptation. Pastors who have seen the working of this ordinance say that it has wrought great reformation where it has been adopted. If the youth are given less liberty and more light from the parental mind there will be less vice
