HAWAIIAN COMMISSION

Stop at Chicago, En Route For Honolulu.

BANQUET AT THE UNION LEAGUE

All Deliver Speeches, in Which They Declare That the Annexation of Hawall Will Result in the Construction of the Micaragua Canal.

Chicago, Aug. 5.-The Hawaiian commission, composed of Senator Cullom of Illinois, Senator Morgan of Alabama and Representative Hitt of Illinois. met here yesterday and had informal talks with a number of business men. They were given a luncheon by Hon. Alexander H. Revell, president of the Union League club, where they met a number of prominent Chicagoans. There were 40 guests. After the coffee the members of the commission and others made brief speeches.

Senator Morgan said the annexation of Hawaii would result in the construction of the Nicarauga canal, Cuba was free, Porto Rico belonged to the United States, Hawaii was annexed and the canal was unavoldable. Our flag had been raised in the Philippines, and no man in America would permit it to be hauled down. Not only would the Nicarauga canal be constructed, but there would be a ship canal connection between Lake Michigan, the Mississippi and the Guif of Mexico, and one be-tween New York and Albemarie sound. He was of the firm belief that in the next century the United States would be, by common consent, the leader of the nations of the earth.

Senator Cullom said the commission yould ascertain what legal action should be enacted by congress for the gov-ernment of the people of the islands. and they expected to examine the condition of the people, their industries, the land guestion, labor, etc., and to look at the harbor at Honolulu and see what ought to be done to make it a great harbor. He also said the Nicaragua canal would be built. Referring to the war he remarked that the good people of the country did not want a war, but did have a heart for humanity. and humanity would be benefited by the result. In conducting the war Presthe result. In conducting the war Pres-ident McKinley had shown an ability, a quietness, a degree of wisdom and prudence that had won the esteem and admiration of every patriotic citizen. Masons and Dixon's line had been blotted out, and we were one people. All were in favor of one flag and the union. Representative Hitt also spoke of the

certainty of the Nicaraugan canal as one of the results of the war, as was that his action "was Indorsed by every sensible, thoughtful man in every political party." A better appreciation of the true majesty of the American people permeated the whole world.

Ex-Senator Reagan was called on and said it might as well be written down that Cuba would soon be a part of the United States. The American people were interested in the construction of the Nicaraguan canal, and he believed we ought to have coaling station in Samoa, in the Ladrone Islands and at Manila. It was now within our reach to become the greatest com-mercial nation in the world. Acquisition of territory, he said, was spoken of as being "imperialism." It had been said that Jefferson was the great apos-tle of civil liberty and democratic prineiples, yet, if the acquisition of terri-tory was imperialism, "Jefferson was the greatest imperialist this country had ever produced." When the au-thority of the Union was extended over other lands our citizens would go there and take with them the principles of

"Resolved. That we rejoice in the assured prospect of an early and honor-able peace, and in the unparalleled triumphs of our brave sallors and soldiers in the existing war. We hereby express our hearty admiration for the confidence in the wise, patriotic and connected in the wise, parriotic and able administration of President Me-Kinley. He has been equal to every need, and has shown the entire world how worthy he is to lead a great people in a great cause."

There is no braver set of firemen to be found, and Chief Baker is a man who possesses now, as formerly, all the qualifications that make him a model "Fire Chief." Office of Chief of Fire Department, South Bend, Indiana. "Gentlemen:-My duties, and perhaps, the natural anxieties of my position, gradually brought upon me nervous prostration and heart trouble. I felt this with increasing emphasis for four years, until it became so bad that I would be overcome with shortness of breath and dizziness, and would imagine I was staggering. The slightest noise would startle me, and the least excitement set my heart to beating so that it would seem to jump out of my body. Upon retiring I would feel such a faint, sinking sensation that I would spring from my bed for relief, and I suffered severely, both physically and mentally.

I was treated by several physicians and tried many patent remedies, without relief, until I commenced using Dr. Miles' Restorative Nervine. The first not yet answered the American note. bottle helped me so that I slept better and rested well. I used two bottles of the Nervine and then one bottle of the New Heart Cure. A startling incident of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite gendually growing weaker day by day. Three physicians had given me up. Fortunitely, a friend advised trying Electric Bitters," and to my great joy and surprise. Bitters, and to my great joy and surprise. His royal highness thinks that the unfortunate disputes over the last race will not be unkindly remembered in America. Indeed, on the contrary, he believes that a contest well fought to the end would "greatly strengthen the friendly feelings so rapidly growing up between the two nations."

SAGASTA'S BITTER PILL

Making Haste Slowly to Avert Internal Turmoil.

SPANIARDS ADMIRE HIS DELAY.

Augusti, Continuing a Hopeless Realstance at Manlia, Bids Fair to Be ers in port. A wrecking barge in a Popular Mero-The Spanish Answer charge of C E Hardesty was sent Will Come Parly Next Week. .

London, Aug. 5,-The Madrid correspondent of The Times says: Though peace is regarded as assured. It may not be attained so quickly as is generally expected. Senor Sagasta objects to being hustied, and insists upon everything being done in a quiet, orderly and dignified manner. He considers it necessary to have full and satisfactory explanations as to all doubtful parts, In order to enable him best to protect the national interests against the aggressive tendencies of the Washington

He has also to examine minutely the exigencies of the internal situation and home politics, so as to avoid popular dissatisfaction and political unrest. The Spanish people, though sincerely desirous of peace, are disposed to admire this hesitancy and tenacious hold-ing out till the last, although aware

that it implies greater sacrifices.

As an illustration of this feeling, while General Toral is blamed for capitulating at Santiago, Captain General Augusti; continuing a hopeless resistance at Manila, bids fair to be a popular hero. It would be premature to suppose that the political consultations now proceeding foreshadow the resignation of the Liberal cabinet when peace is concluded. The Conservatives have so constantly and loyally sup-ported Sagasta throughout the war that no factious opposition need be feared from them. The consultation of the premier, the

presidents of the chambers and other prominent persons are described a really of a national character, with view of ascertaining the opinions all parties. The government has not yet entered upon any engagement regarding the terms for concluding to war with the United States. The cubinet will follow the advice of the party leaders, and will leave to the crown W the liberty of choosing new advisors.
All the leaders consulted thus f have observed the strictest reserve with the exception of Senor Romoro ; Robledo, the leader of the Weylerib f continuing the war.

The queen regent has summoned several generals for consultation. La Correspondencia De Espana says the government has no present inten-

tion of convoking the cortes: El Correo, the ministerial organ, says that, in addition to the monarchist chiefs, the queen regent will consult Professor Salmeron, the Republican lender, and an influential Carlist chief. An official dispatch from San Juan unteers are in a disorganized condition

nor received President McKinley's reply to the explanations asked for by Senor Sagasta. The premier said today that the government would reply to the is following the precedent of Castelar, when the Virginius affair threatened war with the United States. It is not probable that he will resign as a result of the conferences. The premier is inclined to rush the treaty through without convoking the cortes, trusting to get a bill of indemnity next month, but the party leaders are not likely to

consent to this course."

The censorship of the Spanish papers is now conducted with the utmost se-verity. The military censor has exelsed all the leading papers, including the military Journals. Everything having the remotest reference to the peace negotiations is suppressed, and the cer sorship is specially severe upon criticisms of the American government's pretensions. These excised articles are eplaced by poems, tales and literary

A FLORIDA HURRICANE.

One Man on a Beacon Forty Hours Without Nourishment. Jacksonville, Aug. 5.- Specials to the

Times-Union and Citizen indicate that a hurricane of unusual severity swept the Gulf coast of Florida Wednesday. The storm had all the characteristics of a general West Indian cyclone. It was first reported at Tampa on Tuesday, where it grazed the coast, but caused sufficient wind to detain steamadrift, and Mr. Hardesty, 20 miles out in the bar, deserted the barge and took refuge upon a beacon, where he remained for 10 hours without food or water. At Apalichholz the velocity of the wind reached as high as so miles an hour. Four tous and many small craft were sunk. Houses were roofed and almost every free in the town leveled. At Chipley a negro church and everal other buildings were blown down, and thousands of nores of turpentine forest leveled. A Tallahussee, St. Teresa, Mariana and Corcyville considerable damage was done to houses, fences and trees, well us to corn and cotton. A delugof rain fell. Telegraph wires are all down in west Florida and details are meager, but so far as learned there were no casualiles.

has already laid its grim hand upon him, and doctor after doctor and medicine after medicine have been tried in vain—now, perhaps, comes some kind friend who says, "Dr. Pierce can cure you, write to him. His "Golden Medical Discovery" has rescued thousands who were further gone than you."

"He is chief consulting physician of the Invalids' Hotel and Surgical Institute of Buffale, N. Y.; he has been at the head of this great Sanitarium for thirty years, he has probably had more experience in treating severe chronic diseases than any other physician living. Write to him anyway; that will cost you nothing. He will gladly and freely answer your letters with friendly, fatherly advice which will be of value beyond all price!"

Now is the critical instant. Will the patient give up in despair and let the angel of disease drag him away from wife and family and children, or will he grasp the hand of the angel of life in one more supreme effort for restoration? Are you standing between the contending angels? Which wins?
