# AN OLD STORY NOW.

Another Experience With "The Little Conqueror" in Shenandoah.

Nothing in modern medicine has created the sensation that has followed the introduction of the "Little enemies to backache." In Shenandogh it has been just the same as in other towns, and the march of the "Little Conqueror" continues. Everywhere the confidence increases as ease after code of kidney disorder die gars as it by magic, and how people do source and talk about it. You know it is so much easier to endorse the statement of some one you know than the statement of someone you know nothing about in a far away town. Well, home testimony is what we have here, and 'tis a dose to

## SPAIN'S ANSWER

To President's Peace Conditions Probably Unsatisfactory.

CONFERENCE AT WHITE HOUSE.

Its Outcome Unknown, But the Opinion is That the Matter is Still Open, and That Another Reply From Spain WIII Be Necessary.

Washington, Aug. 10.-More than 24 hours after it had begun to reach Washington, the Spanish note in answor to the president's peace conditions was presented at the White House by the French ambassador. What the nature of the answer was can only be conjectured at this stage, the secretary of state at the conclusion of the conference making the formal state-Indicate that the Spanish answer was not satisfactory in all respects, though

of our terms the result would have been made public. On the other hand, it would be a strained inference to conclude that the answer was unsatisfactory entirely, for in that case, according to the president's statement heretofore made, his offer would have been definitely withdrawn and the war resumed with greater energy than before It would seem that there could scarcely be a good reason in this case for withholding the result of the conference On the whole it is rather to be concluded that a middle result was obtained, that Spain was found to have attached certain conditions to her ac ceptance of the president's terms, but that the latter was not disposed to regard the injection of the new mat-ter as sufficient in itself to warrant an immediate termination of the peace negotiations. According to this view the president has taken exception to some of the Spanish conditions, but has allowed a last opportunity for them to be withdrawn or modified.

The Spanish reply is said to be divided into five points or heads, namely Cuba, Porto Rico, Ladrone Islands, oc cupation of Manila, and appointment of a commission, which are treated in the order named. So far as could be learned no mention is made of the Cuban debt. The retention of arms and ammunition by the Spanish troops omes in for indirect reference under

the head of Cuba.

In the absence of an official statement it is impossible to give the Spanish position on the several American conditions. But the following is from the best information obtainable: In treating each subject-Cuba, Porto Ri-co, Ladrones, Manila and peace commission—an acceptance in some cases is understood to relate to conditions mewhat different to those laid down by the American government. As to Cuba, the American terms demanded the evacuation of the island, without specifying the future form of government. The Spanish reply is said to accept the principle that Spanish sovereignty over Cuba will terminate, but it is understood to take up the future government of the Island, and, because of the extent of Spanish interests there, it is said to take the view, either express or implied, that the United States should administer the affairs of the island. As to the time of evacu-ating Cuba, this is a detail which the Spanish reply is said to regard as among many which can be left to the commission for final determination. The American conditions as to Porto Rico, the Ladrones, Manila, etc., are believed to be accepted, but the topics are treated at some length, and it will require the full text to show how far the language used may be construed the commission is assented to. The commission is to consist of five commissioners on each side, with Paris as the probable meeting place. The Spanish reply is said to develop somewhat the scope of the commission, leaving to it not only the determination of the future of the Philippines, but also the de-tails involved in the arrangement of

a lasting peace.

The outcome of the conference is unknown, but the best opinion obtain-able is that the matter is still open, that Ambassador Cambon will report to Spain the results of his efforts and the desires of this government, and that another reply from Spain as to some details will be necessary to a final conclusion. There were just four parties to the conference-President McKinley eretary of State Day on one side, and M. Cambon, the French ambassador, and his first secretary of legation, M. Thelbaut, presenting the case of

Spain. When the ambassador and his secretary entered the White House it was 5:40 o'clock. The president and Secretary Day immediately joined them in the library. It was noticeable that Secretary John Moore and Assistant Secretary Adee, both of whom are authorities on diplomatic phraseology, and one or the other of whom has been called into conference on previous ocing ended it was five minutes past 7. Secretary Day returned to the White House about 9:30. Meantime Secretaries Alger, Bliss. Postmaster General Smith and Attorney General Griggs had arrived at the executive mansion. The five members of the cabinet remained in conference with the presi-dent until 10:30 o'clock. Assurance was given that the conference did not amount to a formal meeting of the cabnet, although the reply submitted by the Madrid government was discussed At the conclusion of the conference Secretary Alger said that nothing could be given out about the reply of the Spanish government, indicating that it was a subject for further consideration

The rumor is current here that the insurgents, fearful that peace will be concluded between Washington and Madrid, and that the Americans will withdraw from the Philippines, are consequently the more strenous in their desire and efforts to capture Manila. Sunday night there was a heavy bombardment, with heavy modern shells. It is generally believed in the city that the Americans assisted, and the papers publish lists of Americans alleged to have been killed, including

some names of rank. On Sunday many shots entered the town. Several reached the citadel itwere killed. There was a frightful panic inside the walls, women and children shricking and praying in their terror the whole night through. One shot caused 20 casualties at the Luneta battery, another exploded at the Malate barracks, killing five. The troops turned out just in time to save Malate fort and the magazine. The insurgents showered large and small shots with such precision that the garrison be-Heved the whole American army and fleet were concentrating their fire.
