Free Silver Languishes.

As foreshadowed in these columns. the Democrats of Missouri, in convention assembled, have adopted a platform in favor of territorial expansion, and flaunting the red-flag of Simperialism' in the face of Bryan and whole Nerveus System. I was troubled with his followers. It is a complete en-Constipation, Kilney and Bowel trouble, his followers. That the followers of Bryan in the or Geo. W. Bland, in unison with his compatriots, loudly declared that the free silver coinage question "must Cattle Receipts in Chiladeiphia and remain an issue until it is settled and settled right." The Democrats undoubtedly believed that the question was "settled" at the election in 1896. as the convention refused to adopt an unequivocal free silver plank. As a result, the Bryan followers, like their brethren in Pennsylvania, went to their homes in mourning. As a contemporary remarks, there are many reasons at hand explaining why it is that "free silver" is now chiefly a fad of hobby-riders and a shibboleth of mine-owners. True it is Schuylkill county has its quoto of hobby riders, but these men are more to be pitied than censured. They have been buffeted from one political party to the other for so long, that they have come to be looked upon as necessary evil in the political history of this county. For that reason we cannot blame them for agitating the Bryan dogmas. With that issue relegated to the rear in the politics of the county, where would our silver agitators turn for a haven of rest? They themselves are shrewd enough to see the handwriting on the wall, and it is reasonable to suppose they will keep up the "glorious battle ery" for a little while longer. Of course, the few remaining silver advocates overlook the fact that there is no longer a lack of currency, there being \$261,000,000 more in circulation in August this year than in a corres ponding month in 1896; that hundreds and hundreds of mortgages were paid off last year by the western farmers in one hundred cent dollars. primarily because of the great rise in the price of wheat, thus proving that there is no relation in the price of wheat and the market value of silver, because the latter declined when wheat went up. Furthermore, the country has all the silver money that it requires, there being an increase of \$10,000,000 of that coin during the year ending July 1st last. Besides, the war revenue bill requires
