HOW MICA IS OBTAINED.

Getting Out This Valuable Mineral Is the Poetry of Mining.

The mice trade is controlled practically by three or four large concerns in New York, Chicago and Boston. These houses have an agent who buys for each whatever is brought by the numers. They con-the market and fix the prices to be

to the miner as well as the prices for h it is sold in the markets. which it is sold in the markets. Mice, it need hardly be said, is a very valuable, almost precious mineral, as those who are obliged to buy a small strip for their steve doors will testify. A package worth hundreds of dollars can be carried in a basket slong over the arm or in a pair of saddlebags on horseback. When prepared for the market the solid block as taken from the mine is split into shoets

These are cut into squares or rectangles of almost every possible size, from 2 by 2 inches up to 8 by 10 inches, and sometimes inches up to say to there are no less than 183 regular sizes topt in stock by dealers. The mining of mira is the poetry of mining. It is impossible to encode of a mining. It is impossible to concerve of a more exciting and fascinating employ-ment. The voin of mice bearing quartz, lying between rocks of different forma-tion, has been found. The cap rock has been blasted away. Little "niggerheads" —small imps of crumbling mica mixed with state and other rock—are growing electric. The work is growing

ntitul. The rock is carefully examined by the experienced miner, and all indica tions are that into a will seen be found. A blast is made. The rock and debris are chared away, and there in the bottom is a block of the precious stuff, a ragged cor-ner showing itself black and glittering in the white quartz in which it is imbedded. With the tips of the fingers the miner gen-

Things You Can Do Just as Well as a Learned

Physician. Often it is needless to consult a doctor. At such times you can treat yourself just as well as the most learned physician. When a man or woman is sufer-ing from Kidney disease, the doctor asks:

"Do you desire to urinate often, and are you compelled to get up frequently at hight to make water? Do you have pains in the small of the back? Does your urine stain linen? Is there a scaliing pain in passing water, and is it, difficult to hold the urine back?" If the answer is "Yes" to any of these quea-tions, your Kidneys are discussed and decay has set in. Ask yourself these questions, and answer them. There is another thing you can do Put some of your urine in a glass tumbler

There is another thing you can do. There is another thing you can do. Put some of your urine in a glass tumbler or bottle, and let it stand 24 hours. If there is a sediment or powder-like sub-stance at the bottom, or a cloudy appearance, there is grave danger. Your Kidneys are surely affected. Sufferer-with any of the above symptoms ought to be glad to know that Dr. David Ken-nedy's Favorite Remedy will surely are amelicine for Kidney. n its set purpose to make

the Lee Rifles. Since 1800 the regulation rifle of the United States army, supplanting the for-mor weapon, the Springfield rifle, has been the Krag-Jorgensen magnatine rifle. It was adopted upon the recommendation of a board composed of Lieutemant Colonels R R. Hull and J. P. Farley, Major H. D Freeman and Captains S. E. Blount and George S. Anderson. The result of one of the tests in competition with other weap ons follows: the Lee Rifles. The tests in competition with other weap ons follows: For accurate alm the Lee showed 49 shots in two minutes, the Krag-Jorgenson 32, the Springfield No. 1, 36, and the Springfield No. 2, 35. In the firing at will

Springfield No. 2, 35. In the bring at will for one minute the results were as follows: Lee, 28; Krag-Jorgensen, 28; Springfield No. 1, 24 and Springfield No. 2, 17 shots. Upon the results of the tests, approved by General Schollold, the general com-manding the army, the Krag-Jorgensen was adopted. It has a magnzine chamber for flow constrained with can be demond

for five cartridges, which can be dropped by the simple pull of a bolt. It is possible to toad single cartridges and fire one after another, reserving those in the magazine another, reserving those in the magnaline for time of need, when the five shots can be fired without pausing to reload. The cartridges are of an alloy of tin and lead in a steel case. In passing through firsh and hone or any solid substance they make only a small wound, but in semifluid mat-ter they explode, so that a man shot in the intestines or brain is practically blown to pieces. The reason for this property of the influts has never been satisfactorily ex-plained.

plained. The gun the marines are armed with is the Lee rifle, a magazine gun, with a caliber of ,236 inches. Its range for point ber of .250 inches, its range for paint blank firing is between 600 and 700 yards Smokeless powder is used with it, and a hardcood lead bullet, which has a copper jacket plated with tin. The gun has a magazine for five cartridges, which are put in at once, being fastened together with a metal clip. The gan can be used for firing and reloading after each shot or the five shots can be fired in quick succes sion, and the gun reloaded with five more while it is at the shoulder. The chief advantage claimed for it is that the cartridge chamber can be opened by a straight pull

and without turning up the gun. The gun without the bayonet is almost four The gin without the exponent is annown to feet long and weighs eight pounds and six ounces. The bayonet adds about eight inches to the length and a pound to the weight. The cartridge is about three inches long, and 180 rounds weigh eight pounds six ounces.-New York Tribune

vate secretary, in which he sets forth that he voted against the regular Republican nominees for Judge and Poor Director in 1895, brings to mind several other instances in connection with the Lyon-Dunn contest. It is asserted that Charles E. Berger, Esq., was employed in the case upon the solicitation of Congressman Bromm. who desired to find out how the "foreign element" voted. In other words, Mr. Brumm was willing that the people be gouged to the time of stations named below at the very low rates \$45,000 in order to satisfy his curiosity.

leading Democratic paper of the South, and an earnest and able supporter of Bryanism, freely admits that a wave of prosperity is now passing over that section of the country. It says that "the outlook is bright, and that the coming boom will be general." Of course, this frank acknowledgement will be ridiculed by the narrow-minded free silver writers, who delegate to themselves all the knowledge and wisdom, and those who differ with them are ignor amuses and "corporate tools."

pouring in on the President on account of the satisfactory termination of the war are well deserved. In the management of the war Mr. Mc-Kinley has shown excellent judgment. He has solved delicate and difficult problems with rare discretion and tact. He has displayed courage without harshness and dignity without egotism. Nobody thought of war with Spain or any other country as a possibility when Mr. McKinley was elected, yet he has met the most exacting requirements

The astronomical portions of the al-manae, including the weather predictions, signs of the zodiac, changes of the moon, and so on, are prepared by some astron-omer. A certain astronomer in Massachusetts has made a specialty of doing who have used it because when property this work for patent medicine firms for prepared it tastes like the finest coffee but in the injurian properties. Grain years. He charges \$30 far preparing the astronomical letterpress for one year's al-

manac.-Chautauquan. **Priceless** Pain

"If a price can be placed on pain, 'Mother's Friend' is worth its weight in gold as an allevi-ator. My wife suffered more in ten minutes with either of her other two children than she did al-together with her inst, having previously used four bottes of 'Mother's Friend.' It is a blessing to any one expecting to become a mother," keys a customer.

Thus writes Henderson Dale, Druggist, Thus writes Henderson Daie, Lrugger, of Carmi, Ill., to the Bradfield Regulator Company, of Atlants, Ga., the proprie-tors and manufacturers of "Mother's Friend." This successful remedy is not

one of the many internal medicines ad-vertised to do unreasonable things, but a scientifically prepared liniment especially effective in adding strength and elasticity to those parts of woman's organism which bear the soverest strains of childbirth.

The liniment may be used at any and all times during pregnancy up to the yery hour of confinement. The earlier it is begun, and the longer used, the more perfect will be the result, but it has been used during the last month outs been

used during the last month only with great benefit and success. It not only shortens labor and lessens the pain attending it, but greatly dimin-ishes the danger to life of both mother and child, and leaves the mother in a con-dition more favorable to speedy recovery. "Mother's Friend" is sold by druggists at \$1.00, or sent by express on receipt of

valuable book for women, "Before Baby is Born," sen. free on application. THE BRADFIELD REGULATOR CO., Atlanta, Ga.
