Lame back means lame kidneys. Weak back means weak kidneys. A had back is simply. The kidneys talking trouble Here's Shenandoah talk and kidney talk.

Mrs. E. Williams, of 237 East Coal Street, says: "I have not used Doan's Kidney Pills myself but my son John was greatly troubled with his back and kidneys. He had severe pains in his head to, mostly in the top and back and a constant aching pain in the loins. He did not rest well nights owing to a bladder trouble and he had much nervousness. A commercial man was at our house and he advised us to get Doan's Kidney Pills. He re lated what they had done for him and we were so impressed that we procured them at once from Kirlin's drug store. At that time my son was suffering from his back so intensely that we had him take them. They did really reieve him at once and so banished the whole rouble and annoyance. Now he is working in the mine every day at 11 have not heard him complain for over five months. We think there never was such an unfailing remedy

COSTUMES OF DALMATIA.

From Them Was Taken the "Dalmatic" of Ecclesiastical Use.

The women wear dark blue skirts and red stockings, with shoes which turn up at the toes, embroidered sheveless blouse, and a great sleeveless upper garment, open in front and descending to the ankles. They have always a white or a red handkerchief tied over the head and under the chin. Speaking of dress, we made a most interesting discovery in ancient eccleshis-tical costume. Those who are learned in the history of ecclesiastical dress know that the "dalmatic," or peculiar robe of the "deacon," was originally the distinc-tive dress of the Dalmatian peasant and that just as the frieze coat of the Irish peasant became the modern "ulster" so the Roman fashionable tailors, urged therete by that young scamp, the Emperor Heliogabalus, took the idea of a "novelty" from the Dalmatlan peasant dress and produced the garment called the "dal-

It was a first fashionable Roman article of dress, then it came to be a portion of the distinctive consular and senatorial costume, and at last was appropriated by the elergy, who, with their conservative instincts, persisted in wearing it when its origin had been long forgotten. These learned persons, however, do not seem to know that the old original "dalmate" is still worn in a remote part of Dalmatia. We were greatly excited when we first saw It on women coming into the market at Spalato. It is now an upper robe, open in front, coming down to the middle of the thigh and with a short slit at the thigh. It has long, wide sleeves. It looks exactly like the electeal garment that is figured in the oldest pictures of clerical dress. We were told that the wearers were women of Olissa, a little upland village which is perched on the rocks at the top of the mountain pass leading from the ancient Salona over the mountain range.-Good

AGUINALDO'S FORCES

Will Be Treated Exactly Like the Cuban Insurgents.

AMERICAN AUTHORITY SUPLEME

"There Will Be No Joint Action Except Between Merritt and Dewey, Who WIII Treat the Insurgents and Spaniards Allko. "

Washington, Aug. 19.—The two American commanders at Manila, Admiral Dewey and Major General Merritt, united in a joint dispatch, which was received here late yesterday afternoon, asking for instructions as to the manner of dealing with the various ofements, particplarly the insurgents, no that the city was occupied by the American forces. After a conference at the White House, in which Secre-tary Algor and Acting Secretary Alien participated, instructions were sent to the two American commanders. The text of the request for instructions and of the answer was not made public, but Secretary Alger summed up the Instructions as substantially as follows:
"The instructions are to enforce law and order and to treat all law abid-ing citizens alike."

The instructions are practically the same as those sent Tuesday night to General Lawton. The latter order specifically stated that the insurgents must recognize the military occupa-tion and authority of the United States. and the cessation of hostilities pro-claimed by this government. Doubt-less the same rule is being applied to Insurgents under Aguinaldo though it was not officially stated tha such specific orders were made. It is said the joint dispatch from Dewey and Merritt did not in terms refer to Agultaido, nor did the instructions mention the insurgent leader by name. It is well understood, however, that the desire of the American commanders was to have instructions on the manner of dealing with the large and menacing forces of insurgents under Aguinaldo, who have surrounded Manila for many weeks, and who, it is thought, may have demanded the right to occupy the city with the American forces, as the Cu-ban insurgents did at Santiago.

It has been thought in some quarters here that the showing heretofore made by the insurgents would lead to their receiving a certain amount of recognition, in the way of joint action between the United States forces and those of the insurgents, when the city was ocnight are based on occupation by the United States alone, and as a high administration official summed up the situation: "There shall be no joint action except between Merritt and Dewey. They will maintain law and order and will treat the insurgents and Spanfards alike, requiring all to observe peace and order."

Aside from this joint dispatch the only other word received from Manila during the day was in the brief dispatch from Admiral Dewey announce ing the surrender of the city last Saturday. A detailed dispatch from General Merritt was eagerly awaited throughout the day, as it was feared that the sharp engagement of the land forces during the storming of Manila had resulted in some casualties on our side. But no dispatch came from Genwith Admiral Dewey in asking for in-structions. Secretary Alger concluded been heavy, as he felt sure General Merritt would promptly report any considerable loss. There was a bare

made any reference whatever to the part which the German cruiser, KalserThe Almirante Oquendo and the Viz-In Augusta, took in removing Captain
General Augusti from Manila to Hong
worth saying for tink Kong. From this the officials believe that the American commanders do not attach much significance to the course of the German naval authorities. The incident continues to cause some irritation here but it is practically certain that no official cognizance will be taken

WRECKED WARSHIPS

The Effort to Save Vessels of Admiral Cervera's Fleet. -

TWO OF THEM CAN BE RESTORED.

The Maria Teresa and Reina Mercedes Will Be Added to Our Navy, But the Almirante Oquendo and Viscaya Are Not Worth Saving For Junk.

Santiago de Cuba. Aug. 18 .- A correspondent yesterday visited the wreeks of the warships of Admiral Cervera's fleet. Captain Sharp, of the Chapman-Merritt Wrecking company, is working vigorously to float the Maria Teresa, and expects to get her affoat and in such condition as to enable her to come to Santlago within a fortnight. The Maria Teresa has a hole 15 feet long in her bottom, very close to the keel. This is being closed and stopped with unriveted plates, soidered, and cement and bagging.

Captain Sharp suggests bringing the Maria Teresa first to Santiago for temperary repairs and then taking her to Hayana, where it will be possible to patch her us sufficiently for her to undertake the voyage north. He thinks the vessel can be so repaired as to eral Metritt up to the close of office the vessel can be so repaired as to hours, except the one in which he joins make her available as a first class

Captain Sharp, however, has no san from this that the casualties could not guine hopes of saving the Cristobal Colon. In fact, he considers the task practically impossible, despite the conconsiderable loss. There was a bare trary opinion entertained by some, and be would not guarantee that the ves-Merritt had miscarried.
