

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also

to the care and skill with which it is manufactured by sciontific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other par ties. The high standing of the CALI-FORMA F16 STRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weaken-ing them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company -

Neither Peace Nor War."

"From a legal point of view the present state of things is neither peace nor war, but merely a suspension of hostliities. An armistice would have allowed us to dispel better the obscurity of the situation, but the United States declined to agree to our making a step further in advance.

"The questions to be solved are numerous and complex. What we have done first is to lay down certain basss, on which each minister may make any observation which study of the subject suggests. These will continue to be treated in daily cabinet councils, it the guidance of the various commis-sions in the forthcoming negotiations, to be supplemented and resulted quently by telegraph.

"In Cuba, besides evacuation, there are many other problems. Spain may abandon her sovereignty over the greater Antilles, but there will remain Congressman James G. Magthe question of edifices and all our properties. There are lawsuits before tribunals affecting the interests of the Spanlards. Where and when will these be decided? In Havana, where a large number of criminals have been condemned by Spanish tribunals, what

is to be done with them? Then there are other questions for which we have to fix a basis of discussion and agreement, regarding the Philippines. Besides these and other problems of greater importance there is a preliminary question to be discussed.

'According to international law a suspension of hostilities has been signed and the surrender of Manila ought to have no legal efficacy. How will that principle be understood by the United States? This causes us much anxlety, and we give it great attention, but we are still awaiting the information demanded from General Jaudenes, which has not reached us, on account of the difficulties of communication between Manila and Hong Kong."

Manila and Hong Kong." These remarks have all the appear-ance of being authentic, as they are in accord with information from other sources and in harmony with Senor Sagasta's usual style. The public is still anxious for an ex-planation of Governor General Augus-

tl's mysterious departure from Manila, but its curiosity is not likely to be satisfied for some time, the government declining to say anything.

It is rumored that the government will instruct the Cuban commissioners to present a strong case for the recognition of Spain's claim for compensation for the cession of public works in Cuba, the compensation to take the form of saddling upon Cuba the bulk of the Cuban debt existing in 1895.

Boys' Quarrel Ends in Murder.

Princeton, Ky., Aug. 19.-The most gensational killing that has taken place In this city for years occurred yesterday afternoon. The principals in the affair were Jimmy Johnson, white, 12 years old, and Charles Wood, a negro, aged 14. The boys engaged in a game of marbles, and began a dispute over the matter, when the negro picked up a rock and advanced toward Johnson,

striking him in the back. Johnson fell and died immediately. The officers succeeded in capturing Wood and he was lodged in jail. There is great excitement over the matter owing to the prominence of the Johnson-Jamily. R is thought by many that a mob will

BIG FLEET OF WARSHIPS

Washington Aug. 20.-One of the largest fleet of warships ever assembled in an American port will be brought together in the next few days at Fort Monroe. Already 57 warships are under orders to rendervous there and the orders still to be issued will raise the total to the neighborhood of 70. Naval officials may it is difficult to realize the extent of such a marine aggregation in one harbor. The orders began bouing last Monday, when five ships were ordered to Fort Monroe. On the 16th another ship was added. on the 17th eight more were sent, and on the 18th 17 ships were added. Yesterday's orders include 18 more ships. Before the orders began issuing there were eight warships at Fort Monroe so that the total up to today is 57.

Those included in vesterday's orders Machias, Osceola, Pooria, Massasolt Sloux, Cheyenne, Waban, Chickasaw Helens, Detroit and Yankton. The ships previously ordered are mainly small craft, although there are a num ber of large cruisers and gunboats, in cluding the San Francisco, Helena, De troit, Topeka, Marietta and Castine and more particularly to the desire to get the ships away from points of possible fever infection. They will now be put in thorough repair, and their crew will be gradually changed from naval militiamen to sailors of the regular The navy department has not

There is feit to be no hurry about this until the au-thority of the United States is fully established throughout the islands the meantime the matter of policing the Valencia, has been attacked by a band shore points is being considered, and in due time a number of the light draught auxiliary craft and some of the single turneted monitors will be used for this coast patrol. It is found, however, that only four of the old monitors of the civil war are fit for this service in southern waters.

As many naval vessels will be cen-tered about the West Indies from this time forward, the way department will send the new floating dock recently bought in New York down the coast to Pensacola, Fla., where it will be kept for docking the warships. At that point also there are good naval workshops to be used in conjunction with the floating docks. The dock is now the floating docks. The dock is now Manila. A great rush of trade is ex-being coppered, and will be towed to pected. Pensacola as soon as the September gales are over.

There were few developments of importance in the post war situation yes-terday. The authorities are still waiting for General Merritt's report on the list of casualties, and the state, war and navy departments are interested in knowing the exact terms on which Manfla was surrendered-whether the city alone, or if the Philippines were included.
