DON'T LOOK.

Very Dangerous, But If Left to Itself is Death. A Shenandoah Case.

There are some diseases that do not arouse our sympathy the disease is not deep and therefore our sympathy is shallow. But we very often make a very serious mistake-such as calling a backache a light affliction. Backache means kelney trouble every time, and if you don't drive it away, it will never go of its own accord, without taking you with it. But it does not continue simply as a backache. like kernals of corn. Then follows Diabetes or Brights disease. Don't you think backache dangerous? We do, but we must add just a are expected here, but the commis-few words, and they are: Doan's Kidney sioners will not disclose what Interest these gentlemen will represent.

Mr. David Thomas, of 204 Mayberry alley, miner, says; "I have suffered intensely from for several weeks and when I returned about ten months ago I was suffering from a conten months ago I was suffering from a con-tinuous backache and an acute lameness across my loins. I could hardly get off a chair and it hurt me severely to straighten up if I had been stocoine or hending forward. There were been stooping or bending forward. There were pains all through my head especially in the top and back part. I thought they arose from the Gloucester fisherinen will be fancuralgia, but I am now convinced that my vorable to removing the half cent per kidneys caused it, for on getting Doan's Kidsey Pills from Kirlin's Pharmacy and using American ports for the privilege of them the lameness in my back and the pains in my head have all disappeared and there has for balt. It is impossible for the Ameri-can fishermen to prosecute successfully been no return of them since."

No doubt pound duty now imposed upon all Can-adian and New Foundland fish entering deep water fishing without the bait New Foundland, and the New Price 50 cents. Mailed by Foster-Milburn Foundland fishermen are very anxlous to sell their codfish in American mar-

kets free of duty. The New Foundland papers and peo-ple say that they will probably have little difficulty in making an equitable agreement with the United States in the fishery questions, but they question if the United States and Canada will be so easily to agree. While the Canadian fishermen are equally anxious to put their fish into the American market duty free, they have little to give in return except the abolition of the three mile limit inside of which the American fifishermen are not

permitted to go on the Canadian side. A matter which was not mentioned in the general protocol will probably soon be brought to the attention of the American commissioners. They will be asked to consider the question of a monument for General Montgomery, who was killed here while leading a detachment of American troops in 1775. A small tablet in the rock by the roadside bearing the words, "Here fell Montgomery," is all that has ever marked the spot where he met his death. He was killed just in the outskirts of the lower town, near the river bank, and not far from the spot where General Wolfe's army olimbed the Steep bluff on the night before the bat-

tle on the Plains of Abraham in 1759. Several times during the past half century efforts have been made by dif-ferent American societies to have something done in the way of erecting a suitable memorial to the memory of the portionate rates from other points. American. These efforts have falled. The Canadians have always contended that it was not exactly the proper thing to erect on the "sacred soil of Quebec" a monument to the leader of an invading army. Only a few years since the Society of the Sons of the Revolution asked permision to erect the monu-ment here, but failed. Now a great grandnephew of General Montgomery, Dr. Liston Montgomery, of Chicago, has H. Hagenbuch. undertaken the patriotic task, and will appeal to the American commissioners to improve this opportunity for properly honoring the memory of his illustrious ancestor. Dr. Montgomery's letter, it is understood, is now in the

hands of the commission. A large party, composed of the wives and daughters of the commissioners left on the steamer Aberdeen yester day for a trip to Sagueney. They will at rate of single fare for the round trip.

Governor Black Denounces Stories of Soldiers' Starving,

BUT POINTS OUT SOME DEFECTS. Says the Division Hospital in Which the Sick soldiers of the Ninth New York Are Quartered is in a Bad Con-

Chattanooga, Aug. 31.—Governor Black, of New York, was seen last night by an newspaper representative and asked as to the conditions as he found them in the camps of the New York regiments, as well as those at division hospitals, Governor Black said there appeared to be "a perfect hy drophobia" among newspapers over the condition of the soldiers, that the press bristled with such prhases as "hollow eyed" and "starving" in articles de-scriptive of the troops. He gave it as his opinion that the matter was exaggerated, "manufactured in news-paper offices" and "the outcome and resuit of unjournalistic knavery."

"My impression," said Governor Black, "of the camp of the New York troops at Chickamauga is not half as bad as I expected it would be. The unfavorable condition of the camp and hospitals has, beyond a doubt, been very greatly exaggerated by the pa-

a very bad condition. The present state of this hospital ought never have been permitted to exist, and should be cor

"I think that the troops at Chicks-mauga Park should have been moved ong before any sickness broke out in the ranks.

The Sternberg hospital is in ex-cellent condition. I do not see that it could be made any better. It is ad-mirable both in plan and management. "As to the New York troops at Chick-amanga, I mean to take as many home to New York as I can, I shall also endeavor to have as many mustered out as possible and those that I cannot have mustered out I will employ every endeavor to have moved to northern

camps at the earliest possible date.
"The hospitals of the Eighth and
Fourteenth New York regiments are
much better in every particular than the one in which the sick of the Ninth New York infantry are quartered The case of Private Nunn, of the am-

bulance company, who was transferred from the Ninth New York, was report-ed to the governor by Captain O'Connor, of Company A, Ninth New York, and was reported by the governor to Washington for investigation.

Captain O'Connor's statement was lying naked in a division hospital two days after death, infested by maggots that an autopsy had been held and that no preparation had been made for th care or interment of the body up to the time found by O'Connor. The affair has created a great stir, and it will re sult in the trial of Captain O'Connor by court martial.

Discovered by a Woman. Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organe were undermined and death seemed iniminent. She finally discovered a way to recovery, I purchasing of us a bottle of Dr. King's Ne Discovery for Consumption, and was so muc relieved on taking first dose, that she slept a night; and with two bottles, has been absolutely cured.
