Is There Such a Club Here?
A minister in a town not a thousand miles from Milton, on a sunny Sunday surprised the audience by reading the following announcement from the pulpit: "The regular session of the Donkey club will be held as usual after the close of the service. Members will line up just outside the church door, make remarks and stare at the ladies who pass, as is their custom. Any member known to escort a lady to church like a man, and sit with her like a gentleman will be promptly expelled from membership." The application was to the point, and the effect was marvelous.—E.C.

Motherhood is a woman's highest crown. It is a woman's glory to be strong and capable in a feminine way. Her worst misfortune is to have any physical weakness affecting the delicate special organism which is involved in motherhood. To insure the complete health and normal capability of this most important structure, is the purpose of Dr. Pierce's Favorite Prescription. It gives tone and vitality to the entire nervous system, and strength and vigor to the organism of maternity. It makes motherhood possible, safe and comparatively easy and painless.
Its wonder-working capacity is exemplified in the trying experience of Mrs. A. Beck, No. 221 Jackson St., Trenton, N. J., who writes: "I began taking Dr. Pierce's Favorite Prescription shortly before confinement with my sixth child, as I felt miserable, and it had so much that I had an easy time and felt well soon after. Four years ago, on the 13th of January, when the nursery was five, below my seventh child was born after I had been waiting on my sick husband for six weeks. The steady help of your medicine I stood it all. For the last year I have been doing nearly all my work including the care of eight children. This I am doing well, thank God, and hope I will be able to continue. I owe my health to God and your medicine."
One of the greatest helps a mother can have in nursing and rearing her children and carrying them safely through all the little sicknesses and ailments, to which children are subject is Dr. Pierce's great twenty-page illustrated book, the "Pope's Common Sense Medical Advice." A paper-bound copy will be sent free for 21 one-cent stamps to pay the cost of mailing only, or in heavy French cloth covers for 42 stamps. Address: Dr. J. C. Rorer, Secretary, Medical Association, Buffalo, N. Y. This book should be owned by every mother. It is like a family doctor always at hand.
