legally open, but this inverte bivalve ters of William Paradine, an Este machinist, and Jessie Moste, daughter of has been sold here the year round as all epicures R well aware.

THE Republicans of this county. when they form their platform, will take no backward steps on national issues, and will draft no plank to suit a favorite candidate.

Ir will be folly for the Republicans to weaken their ticket by the nomition of discredited and impopular candidates. The moss backs must be relegated to the year, if success is de stred this year.

LONDON newspapers predict that ventually Januaica will be absorbed by the United States, and that all of the West Indian islands will gradually and inevitably come under the bunner of the Stars and Stripes.

THE only possible way of discover ing that a political campaign is on inthis county is by reading the heated animateorsions appearing in the columns of two warring Pottsville Washington, Mr. Kasson will remain in contemporaries of the same political Quebec, party, comments the Mahaney City Record:

ful, since Lieut. Hobson has decided to use bags of wind in raising sunken their homes, Congressman Dingley looks the fact that the Bryan windhag has been punctured beyond re-

COMMENTING on the condition of 25c. the antiracite market, and the pros- tablet. pects for the future, the Anthracite Coal Operators' Association circular contains the following : "The outlook for September is good by comparison with the extremely unsatisfactory conditions which have prevailed for 19th member of the commission the months past. There will undoubtedly be a stronger buying movement at tide and in the East, which, in view of the relatively small stocks being carried at tide or line points. must be filled direct from the collieries. At the same time, Western and Canadian shipments will take a considerable portion of the product, and the movement to lay in a Winter supply will begin in Northern New York and at all-rail points in the East. There is nothing, however, to warrant the hope of marketing an musual tonnage, but with a conservative estimate for the month. 3.750,000 tons, there would be good grounds for anticipating lower stocks at tide and higher prices for the fuel before the month closed. An uncer tain feature as to the coming months is the possibility that the vagaries of one disturbing interest may lead the others to an effort to make its position untenable. Whether or not this will be done cannot be foretold. If principal streets of the city with loaded it should happen, there would result a condition which would make their arms for half an hour. They were further and serious inroads on the allready decreasing surplus which, according to the annual statements of the interest referred to, it accumu-Inted in past years."

### THE SOUTHERN CYCLONE.

Hundreds of Thousands. Savannah, Ga., Sept. 3.-While Savanuah suffered heavily from the cydamage on the coast islands and fu the original 147 prisoners that reached the interior as far as the storm reach-Salt Lake valley in 1847. He has been ed is probably greater. The flooded Salt Lake valley in 1847. He has been ed is probably greater. The flooded president of the church for the last ten condition of the country renders comnunication difficult and in many sections it is entirely cut off and no news has been received to indicate what the cenditions are.

The first news from the Carolina Sea Islands, which were the scene of great sterms of 1993, in which thousands of While the storm was nothing like that of five years ago, the loss is heavy. The beaches north of Tybee are lined with wrecks of small craft and at Bluffton and the other small settlements nearly all the houses were unrecfed and many were destroyed.

wrock. The captain and crew were saved. The bark Noc, in attempting to rescue the crew of which Lieutenant Mergan and one of his companions lost their lives, has about disappeared. Small steamers have patroled Calathel+ bogue Sound all day searching for the bodies of the berole rescuers, but they

have not been recovered. The loss to the rice crop on the Savannah river alone is estimated at \$200,000 to \$250,000. Three-fourths of the crop has been destroyed. The loss to planters between Savannah and Augusta will run into the hundreds of thousands.

A heavy flood is reported in the upper Savannah river and messengers were sent out from here last night to warn pfanters of its approach.

The cotton crop in the counties ad-

joining Savannah is practically ruined When you call for DeWitt's Witch Hazel Salve the great pile cure, don't accept any-thing else. Don't be talked into nosephing a ambititute, for piles, for sares, for burns. C. H. Hagenbuch.

## PINANCE AND TRADE.

An Extremely Gravitying Showing for

the Month of August-New York, Sept. 2.—R. G. Dun & Co.'s weekly review says: The smallest fallures ever recorded in any month for five years were those of August. No other month since the monthly reports were commenced by Dun's review has shown defaulted liabilities as small within \$1,000,000, and the ration of such defaults to solvent business, represented by exchanges through all clearing bouses, only \$103.70 in \$100,000, is smaller by 26.5 per cent, than in any pre-

er by 25.5 per cent, than in any previous month, the clearings having been the largest ever known in August and 25.9 per cent, larger than in 1822.

The enormous volume of business in a month usually one of the most inactive of the year demands attention. Postponement during the months of war of some contracts and purchases which have now come forward explains part of the increase, and the strong absorption of securities explains part of the increase, and the strong absorption of securities explains part but there has also been a great decline in the average of priess for all commedities, so that it takes a much larger volume of business in tons or busides to make up transactions amounting to a million than in 1892. It is therefore attrictly true that business is larger than in the very best of all past years, and yet there is every prospect of much further increase.

There is no room to doubt that the wheat crop, even though it may full a shade below some estimates will prove the largest ever harvested, and although Beerbahm estimates flurope's crop at 122,000,000 bushels more than the last, that would be only about an average yield, while other evidence is less favorable. Foreign buying has less that the strong buying has less that the disease flurope's crop at 122,000,000 bushels more than the last, that would be only about an average yield, while other evidence is loss favorable. Foreign buying has less to take hock-down blows and get up again and again and fight on.

A man has to have plack to make a smechasic that back hock-down blows and get up again and again and fight on.

Pinck and stain and again and fight on.

Pinck and stain and again and fight on.

Pinck and stain and again and get up again and again and again and get up again and a

average yield, while other syldence is iess favorable. Foreign buying has been strong, so that Atlantic exports for the week have been 3,326,878 bush-els, against 5,534,758 last year, and Pacific exports 458.881, against 258,651 last

Fallures for the week have been 171 In the United States against 191 for the corresponding week of last year, and 25 in Canada, against 25 last year.

Bradstreets' review says: The advent of September finds fall trade apparently in full swing at the west and north-west, and more reported doing at southern Mississippi valley points and in the east, but the volume of business in wool and dry goods in the latter sec tion is rather smaller than expected Early reports of large business doing during August are confirmed by agwhich show unprecedentedly large totals for that month, little below, in immediate monthly aggregates of last winter.

#### Yellow Taundler Cured.

Suffering humanity should be supplied with formation obtained by commutators were means possible for its relief. It is with John M. Beal, District Passeng certify that I was a terrible sufferer from the sufference of the suffere Yellow Jaundice for over six months, and Beware of Ointments for Catarrh that con was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and fter taking two bottles, I was entirely cured, I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky.' Sold by A. Wasley Druggist.

Leaving Broad Street station, Philadelphia,

6:55 p. m. daily, the "Southwestern

New York's Governor is Satisfied With the Volunteer Camps. Washington, Sept.3,—Governor Frank S. Biack and party of New York, arrived in Washington late yesterday afternoon from a southern trip, during which they visited the mobilization camps at Chickamsuga Park, Lexingtion, Ky., and Huntsville, Ala. As a result of his investigation he will suggest to the war authorities that the Ninth and Fourteenth New York regiments, located at Chickamauga, be re-Heved from service as soon as possible. The Twelfth New York, located at Lexington, and the Sixty-ninth New York. located at Huntsville, are in excellent condition, and while the men of both regiments would be glad to receive an order mustering them out, there is no pressing need, in the opinion of Governor Black, for their leaving the service at this time. It is also likely that Gov-Black will suggest that the Third New York, new at Camp Meade, Pa., also be

mustered out. The conditions of the camps we visited," said Governor Black, in epitomizing the results of his trip, "were better really than I had expected to find them; that is, they were better than they had been pictured in the newspaper reports I had read before visiting the camps. Many things, doubtless, could be remedied, but on the whole, the camps we found to be not in bad condition. The camp at Chickamauga is the worst of the three, If such a comparison may be made. That has been occupied for four months by many thousands of troops, and the very ground has become infected with disease.

"With good, pure water in abundant supply, and such food as I know the men in the camps I visited are receiving, there is no reason in the world why well man should not continue in good health and actually thrive. The food furnished the troops is ample and of excellent quality. That the food is good and well cooked I know, because I ate some of it myself.

Bucklen's Arnica Salve.
