OUR COUNTRY: First, Last and Forever,

THIS is Labor Day, but the labor ing man is hardly in a position to Chemoan properly take advantage of the ocea-

honor in this county, so far as the two leading parties are concerned, consists of keeping it slundy.

DR. SWALLOW has taken to writing letters, and is sadly in need of the advice once given Governor Beaver by the man the Probibition candidate is now maligning.

THE Republican politicians in this county, that is the "big" fellows, do not harmonize very easily. There will be no harmony until the mossbacks are elegated to the rear and new lenders are brought forward.

THE people of the First ward, in the vicinity of the creek, are to be congratulated upon an early abute ment of the misance arising from that source. In this connection it is only just to say that to the Board of Health is due most of the credit.

THE Republican primaries will be held on Saturday, and the county convention on the following Monday. The party voters in this town are evincing very little interest in the contests, and the indications are a light vote will be polled on Saturday. At Paterson Pitst game. Nurfolk, II; The reason for this is plain, and is well known to those who mingle with the party voters.

Opening of the Schools.

Superintendent Cooper and his efficient corps of instructors were prepared for the opening, and had everything in ship-shape to receive those whose mental training has been given in their charge.

True it is many who wended their way to the school buildings this while the majority, perhaps, antici-pated the return of school bours with his attendance the church was well much complacency. If it were given filled, and after the service the president shook the hands of the minister to the former to clause at the future and note the burdens and sorrows that await them they would feel as their parents do in looking back, that the school days were the merriest of all and the most profitable.

The HERALD has repeatedly stated. and the statement cannot be success fully contradicted, that the public schools of Shanandoah compare favorably with those of other sections of the state; that the schools here rank first in the county both as to instructors, school buildings etc., and that the people have a natural pride in this branch of the municipal government.

Many parents in town, however, sacrifice many pleasures in order that their children may educated in the best schools in the interior of the state; our corps of teachers are both efficient and conscientious and labor hard to inculcate in the minds under their care proper knowledge, but in this respect the parents themselves have an important duty to perform, which they should not shirk. They can materi ally assist the teachers, by seeing to it that the knowledge imparted in the school room is not frittered away on the streets. Home training is an important factor, and will materially help the teachers and benefit the scholars.

An exchange truthfully says that 'lost wealth may be regained by in dustry; lost health by medicine. but lost time is gone forever. Therefore, we would say to parents, that when school hours are over, do not allow your boys and particularly the girls bassador to England, who is at Karito parade the streets."

Lessons in deportment are never to be slighted. Start the children out right. Insist on their return from thought the patient will not survive school punctually and then if they many days. want a romp in the fields or a few hours at some other play, by all means let them have it. It may be health was not good, and during the the means of taking baby out for an first two weeks it did not improve. hour's outing and will be found more beneficial to all concerned than this everlasting parading and gossiping trouble. At first is was thought not on the streets, a custom which a number of the school children indulge ous, although it was admitted by those ber of the school children indulge in to a great extent.

The extreme heat of the past few days has had a depressing effect upon the patient, and on Friday anxiety was keenly folt. A consultation of physicians was held. Late on Friday a favorable turn was noted, but on Saturday the change was for the worse. Yesterday he was semi-conscious, with a fair pulse, which gave hope that a favorable turn might soon

Afghan Exclusiveness,

In the matter of trade and passage through his country the ameer is irrecon-cilably obdurate. Here again his inordinately suspicious character comes in, for no trade king or syndicate has yet been able to move him in this matter, though he must see quite plainly that the opening up of Afghanistan to the benefits of external trade would eventually enrich the country and improve his own revenues With similar jealousy and want of trust-fulness in the motives of others, he closes his country to foreign travelers almost as selfishly as the Tibetans have closed theirs. It is only to special individuals of rank and importance that he will concede the privilege of a protected passage, albeit there is, comparatively speaking, little danger involved in traveling in Afghan-iston. The writer was very recently in what was years ago one of the most unclv-illized buzaars in the country, and the Afghans were most civil and obliging.-Review of Reviews.

The government carriers had been unable to recover the mines and the torpedoes from shore by means of the cables to which they were attached, owing to the fact that the sand in the river had weighted them down and caused the cables to part. On this account a crew was ordered down on the Melas to grapple for the mines and bring them to the surface. The crew had almost completed the work when the accident occurred. There were six men hurled into the Mississippi who never came to the surface. Three others were thrown into the river, but were not so badly injured as to prevent. their climbing back onto the wreck. They may dose a patient for years on their moreurial and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. THE DUTY OF MOTHERS.

Daughters Should be Carefully Gulded in Early Womanhood.

What suffering frequently results from a mother's hyporanee; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little trath and a great deal of exaggeration in this. If a young woman suffers severely she needs woman suffers severely she needs treatment and her mother should see that the gets it. that she gets it.

Many mothers hesitate to take their daughters to a physician for examinationt but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is Lynn, Mass.

ALGER ON CAMP WIKOFF.

The War Secretary Declares It the Pinest He Ever Saw, Washington, Sept. 5.—Secretary Alger, who returned late Saturday night from New York after his inspection tour through Camp Wilcoff, at Montauk Point with President McKinley and several of the bureau officials of the

war department, commenting last night upon the conditions of the camp and the results of his visit, said:
"I feel certain, after a careful examination of Camp Wikoff, and a without being picturesque, and is cer-tainly as healthful a camp location as could be found in the eastern coun-

try.
While the conditions are as good as could reasonably be expected under the dreumstances, better than I ever knew them to be in a camp, a shade of gloom is cost over the encampment by the physical condition of the men. Sickness, suffering and death mar what would otherwise be a magnificent military picture. These conditions, however, are not the result of the situation of the camp itself, but of the terrible campaign through which the troops have just passed. That campaign of Santiago will be memorable in the military history of the world. It was wonderful both in its conduct and in the results accomplished. Few mill-tary experts expected when the campaign was inaugurated that such a success could be achieved in so short a haps they might benefit me, and wrote time. That success was achieved so you for advice. I followed the advice soon and with a loss comparatively so small is due to the energy and ability of General Shafter and his commanding officers and to the dash, bravery and splendid fighting qualities of the men of General Shafter's corps."
