The fact of the matter is, he paid (or promised to pay) a competent man to audit the accounts. Great is this modern reformer when his acts are not to be reformed.

REFORMER PLOPPERT is a man of great and brilliant ideas, and is no fool. Since the prosecution against the Councilmen, he dresses in the height of Mishion. It pays sometimes to be a "reformer;" especially so if you stand in with the "push,"

THE demand made by prosecutors Toole and Ploppert, that the Councilmen should resign appears very easy. The men who make the demand are nxious to name a Council that they can call their own, and that will do their bidding. When that is accomplished the dam on the other side of the mountain will be built and the proposed electric light plant on Plum alley will be built instanter.

BRYAN's desire to go home to take part in the canvass in his state was expected, of course. First, last and all the time Bryan is a politician. He is the only political colonel in the army, and his military service can bring him no glory. On the other hand, absence from home is particularly dangerous for him in these days of shifting political issues when the poor Popoerats can not tell where they are "at."
