Evening Herald. MONDAY, SEPTEMBER 19, 1905.

OUR COUNTRY: First, Last and Forever.

The people of Schuylkill county are ardently in favor of rotation in office, so far as Congressmen are concerned.

A foreign exchange tells us there are 350 female blacksmiths in England. Just imagine the amiability of their "hubs," if you please.

It is estimated that it cost Spain nearly \$100,000,000 to get whipped by Uncle Sam, and this does not include the loss of her fleets and her colonies.

HERE is a new state of affairs! The Texas troops refuse to accept pay from a negro paymaster, while the "coal diggers" would welcome even a "dago" paymaster.

OUR friends the Socialists are not cutting much of a figure in this campaign, so far. The "gentleman from Philadelphia" should make his appearance again in Schuylkill.

It takes most of Auditor Ploppert's spare time—when he is not busy reaping the benefits of free advertising—explaining his position and the inconsistency of his acts as a public official.

It is said the chairman of the Board of Auditors is not on good terms even with himself, since he was declared incompetent to carry Uncle Sam's mail in this town. And who can blame him?

THE Act of Assembly provides a heavy fine and imprisonment for any public officials—including auditors—who turn in more time than they have actually worked in performance of their duties. See!

THE Minersville Free Press pseudo Democratic paper, with Charles E. Steele as its editor and proprietor, has endorsed the Republican county ticket and predicts the election of the nominees by handsome majorities.

Now that the nominations have been made in the various districts, it is in order for some one to name a county chairman that would be acceptable to all Republican factions. If there is such an individual, trot him out.

THERE is no denying the fact that the HERALD has the readers, and covers a field distinctly its own. That is one reason why advertisers look upon it as the favorite medium of publicity in Schuylkill and the Malheur valley.

CAN anybody locate that committee of twenty-five, appointed to advise and direct the Borough Council in securing additional water supply? If the committee is still among us, it should make the fact known. The borough is on a limited water supply.

STRANGE as it may seem, no complaints are heard of shortness of rations or the quality of food or water, or of epidemics of disease from the camp maintained by Gen. Fitzhugh Lee in Florida. The gentleman in command evidently understands his business.

THERE is no denying the statement that men's political apathy characterized the Republicans of Maine and Vermont, and if the same thing prevails here the Democrats have a chance of carrying this Congressional district. Besides, the Republicans are handicapped by their nominee.

THE members of the Schuylkill county companies, now at Camp Meade, Middletown, Pa., are likely to serve their full term of enlistment—two years—in the services of Uncle Sam. Orders have been issued from the War department to the effect that no more volunteer regiments are to be mustered out, for the present at least.

A COUNTY seat newspaper, which incessantly toots its horn about printing the news of the day, has just learned that a principal has been appointed for the schools of the East ward of Gilberton. The fact that the appointment was made two months ago, and was published in most of the county papers, is so much in favor of the aforesaid C. S. N.

Advertisement for Hood's Pills, describing its benefits for various ailments.

PECULIAR POISONS.

GENERATED IN THE HUMAN BODY. The Result of Imperfect Digestion of Food. Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of disease and death (called by scientists Bacteria) are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay) poisoning the blood, making it thin, weak, and lacking in red corpuscles; poisoning the brain causing headaches and pain in the eyes.

Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Your digestion poisons the kidneys causing Bright's disease and diabetes.

And this is so because, every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and a muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and pepsin (protein) the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, a bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but ask your druggist first.

A little book on stomach diseases mailed free. Address Stuart Co., Marshall, Mich.

Wheeler's No-Costion Assured. Birmingham, Ala., Sept. 19.—At the regular congressional district Democratic primaries Saturday Major General Joseph Wheeler was unanimously re-nominated for his ninth term in congress.

A good vote was cast throughout the district. At the November election he will have no opposition, as the Republican candidate and the Populists have announced their determination to support him, a state of affairs which has not occurred often in Alabama's history.

Cooked in Boiling Fat. New York, Sept. 19.—Falling from a ladder upon which he was at work in Eastman's abattoir, Henry Bartholdi plunged into a tank of boiling fat. He was scalded nearly to death, and cannot recover. Only the lower part of his body was submerged in the boiling fat, and he saved his head by grabbing the edge of the tank. His terrible sufferings, however, made him so weak that he was unable to draw himself out. Assistance came, and he was with difficulty removed.

Spain and the Philippines. London, Sept. 19.—The Daily Mail's Madrid correspondent says a long conference was held between Senor Sagasta, the premier, and Senor Montero Rio, the president of the Spanish peace commission, yesterday, which resulted in the decision that the peace commission should strenuously defend the retention of the Philippine Islands by Spain.

Interested People. Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does it, is indeed wonderful. He authorizes all druggists to give to those who call for it, a sample bottle free, that they may try it before purchasing. The large bottles are 25 and 60c. We certainly would advise a trial. It may have you from consumption.

Count Esterhazy in London. London, Sept. 19.—The Observer says that Count Ferdinand Wasmir Esterhazy has been in London for ten days. The count is a man of hereditary nobility, known to very few here, and is not suspected in Paris. Count Esterhazy is occupying a flat near St. James street and Pall Mall. He has shaved off his mustache, and it is not easy to recognize him. He explains that there is no longer justice for him in his country, and says that when he did was done in blind, unquestioning, brutal obedience of orders from superiors.

Altona's Welcome to Her Soldiers. Altona, Pa., Sept. 19.—The Fifth regiment, Pennsylvania volunteers, received a tremendous ovation in Altona yesterday on its return from Lexington, Ky. Companies C, of Hollidaysburg, B, of Bellefonte, and E and L, of Clearport, were bandaged at the Logan House and afterwards gave a street parade. Five sick soldiers were taken to the Altona hospital. Frank Wallace, of Company B, of Bellefonte, fell from the train near Columbus, and was probably fatally injured. He was taken to the Columbus hospital.

Spain's Peace Commissioners. Madrid, Sept. 19.—The Official Gazette publishes the announcement of the appointment of Senor Montero de Rios, president of the senate; Senor Alarcon, Senor Garcia, General Cerro and Senor Villaurrutia as the Spanish peace commissioners. Senors Du Rose and Aranguren, formerly secretaries to the Spanish legation at Washington, have been transferred from St. Petersburg to Vienna.

Marchand's Expedition Unofficial. London, Sept. 19.—From Cairo and from an entirely independent source The Daily Mail learns that France has assumed a conciliatory attitude towards Great Britain, and has declared that the expedition of Major Marchand is quite unofficial. The article will offer to take Major Marchand to Cairo, and it is probable that the major will accept and that Pashoda will be occupied by Egyptian troops.

Two Killed in the Alps. Chamoni, Sept. 19.—An Englishman named Blinn and a guide who accompanied him, while making the descent of the Argilette Charnose, fell and both were killed.

CONNECTICUT MYSTERY DEEPENS

The supposed Murdered Woman Returns to Her Parents' Home. Middleboro, Sept. 19.—Marion Grace Perkins, who was positively identified by her father and her dentist as being the murdered girl found at Bridgeport, Conn., is alive.

Her lover, Charles Bourne, who was alleged to have been implicated in the crime as a result of his alleged confession, is with her. The couple returned Saturday night, and as they returned the body of the murdered girl was en route to this town, and the grave in which the supposed body of Miss Perkins was to have been buried yesterday was already dug. The chief of police of New Haven believes the dead body is that of a New Haven girl.

After much telegraphing and telephoning a member of the Bridgeport police yesterday gained possession of the woman's diamond brooch. The brooch was taken to Bridgeport last night. Notwithstanding the fact that on Saturday night that Grace Perkins had married to Charles Bourne, the Perkins family today are not so sure, and are inclined to doubt it.

This is probably due not only to the positive statement of the coroner that such a brooch was not taken place, but to the reference of Grace herself. She absolutely declines to have anything to say on the subject, nor will she disclose anything connected with her trip or her whereabouts during her two weeks' absence. It is known that she went to Orange, but she says there were no family are ignorant of her movements up to Saturday noon, when she left Providence for Middleboro.

Miss Perkins appears very much unconcerned regarding the whole affair, and looks as if she has no recollection that anything else. She kept indoors all day, and although the house was well surrounded by curious people, few caught even a glimpse of her.

The Bourne are even closer mouthed than the Perkins family, although denying emphatically that they had anything to do with the case.

Murderer Bartlett Surrenders. Wilkesbarre, Pa., Sept. 19.—George Bartlett, who shot and killed James Moffitt and mortally wounded Warren Richmond in a drunken fight in a speak easy at Pittston Saturday night, was arrested at his home yesterday.

He fled after the shooting the night to Mooch, where he slept in a cornfield all night. Yesterday he returned to his home and his wife told him he had better give himself up. He waited the arrival of Chief of Police Loftus, of Pittston, and surrendered himself. The prisoner says he has no recollection of the shooting, and broke down completely when told that Moffitt was dead and Richmond was not expected to recover. The murderer has five children depending upon him. The murdered man is survived by a wife and three children. Richmond is single.

For forty years Dr. Fowler's Extract of Wild Strawberry has been curing summer complaint, dysentery, diarrhoea, bloody flux, pain in the stomach, and it has never yet failed to do everything claimed for it.

Turkey Yields to British Ultimatum. Candia, Crete, Sept. 19.—The sultan has ordered Djevd Pasha, the military commander at Crete, to accede to the demand of the British admiral, Gerard Henry Noel, for disarmament, this complying with the ultimatum.

Chief of the British military detachment yesterday occupied the entrance to the fort, and it is reported that the Ottoman troops will be withdrawn and a British force will occupy the town. Among the prisoners already handed over to Admiral Noel are two who are credited with being ringleaders in the attack on the British camp.

Karl's Clover Root Tea is a pleasant laxative. Regularly the bowels, purifies the blood. Clears the complexion. Easy to make and pleasant to take. Sold by P. D. Kirkin and a guarantee.

Book From Santiago. New York, Sept. 19.—The United States transport Michigan arrived yesterday from Santiago, from which port she sailed on Sept. 11. The Michigan brought 29 passengers, among whom are Captain Charles T. Baker, assistant quartermaster, United States army, of the Cuban army; Surgeons Kennedy and Agramentis, and two United States army clerks. The other passengers were hospital stewards, nurses and laborers.

Charged With Lying Officers. Santiago de Cuba, Sept. 19.—Charges have been preferred by Captain Miller, of the Second Immune regiment, and Captain Shelby, of the Fifth Immunes, against two officers of the latter regiment for making false statements in labeling the officers and soldiers of their respective regiments in an article published in the Atlanta Constitution on Aug. 2.

Best Upset and Cures Drowned. Middletown, Conn., Sept. 19.—Three persons were drowned in the Connecticut river off Moramus yesterday afternoon, the victims being Patrick Kelly, aged 25, William Kelly, 24, and William Gorman, 18. These young men, with John Hines, survived on Moramus, and their confidant in the water do you want? It cures piles, burns, scalds, sores, in the shortest space of time. C. H. Hagenbach.

Give the Children a Drink called Grimol. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grimol digests and strengthens the nerves. It is not a stimulant, but a health builder, and children, as well as adults, can drink it with great benefit. Costs about 2c as much as coffee. 15 and 25c.
