Ayer's Asthma Cure

better known as Ayer's Cherry Pectoral, has made a record for its remarkable cures of asthma. Cures that have been considered beyond hope or help have been cured by this remedy.

"My mother has been a great sufferer from asthma for the past ten years, and her recovery is almost without a parallel. An account of her advanced age—over seventy—we had but little hope of ever seeing her well again; but we are sincerely grateful to inform you that she has been entirely cured by the use of Ayer's Cherry Pectoral."

INGLES BANKS, Tar Brook, N.S. "I was a sufferer for a long time from asthma, vainly endeavoring to procure relief in the use of ordinary remedies. At length I was induced to try a bottle of Ayer's Cherry Pectoral. The first bottle afforded me no benefit, but the second, after the use of the remedy until entirely cured."

ASTHMA CAN BE CURED.

A Noted Physician Will Prove This to Sufferers in Shenandoah

Thursday.

The progress of modern medical science has led to the discovery of successful methods of treatment for most of those maladies once regarded as incurable. Asthma has always been regarded as belonging to this obstinate class, baffling the skill of the greatest physicians. Thousands of sufferers know by their own experience that little if any relief has been afforded them by the methods heretofore employed. Dr. Rudolph Schiffmann, the noted physician, has, after a life-long study of Asthma and kindred diseases, discovered a remedy which not only gives instant relief in the severest cases of Asthma, Hay-Fever and Bronchitis, but has actually cured thousands whose cases had been pronounced incurable. So complete is his confidence in his remedy, that to overcome the skepticism of the public growing out of the failure of other remedies, Dr. Schiffmann requests this paper to announce that all day, Thursday, Sept. 22nd, he offers a liberal sample box of "Schiffmann's Asthma Cure" free of charge to all persons applying at Grubler Bros.' Drug Store, cor. Main and Centre streets. He believes that an actual test will be the most convincing and in fact the only way to overcome the natural prejudice of thousands of Asthmatics who have heretofore sought relief in vain. Persons living out of town will receive a package free, postpaid, by writter direct to Dr. E. Schiffmann, 215 Lombard St., St. Paul, Minn., before Sept. 30th, as no free samples can be obtained after that date. Send simply your name and address plainly written on a post card.

IMPRESSIVE SERVICE.

Beautiful Harvest Home Decorations in the Trinity Reformed Church.

The Trinity Reformed church on West Lloyd street was the scene of an annual Harvest Home service of a very impressive character last night and the edifice was crowded to the doors. Many people were unable to gain admittance during the service and for an hour after its close people passed in continuous file through the aisles to view the decorations specially arranged for the occasion, and which were the prettiest and most unique ever seen at a similar service in the town. The entire space within the chancel rail and full width of the church was taken up with mounds of the fresh vegetables and fruits of the season. To the right of the altar a beautiful fountain played with brilliant effect in the rays of the electric lights and after shooting high in the air the jets of water fell in graceful spray upon a surrounding bed of elegant flowers and plants. A realistic representation of the harvest home and mill scene occupied the center space and was a striking feature. A miniature pump with windwheel attachment was operated near the farm house and a stream of water flowed through a mossy bed from the pump to a trough that carried it to the water wheel connected with the mill. The space to the left of the altar was occupied by a massive mound of fruits, vegetables, etc., of fine selection, surmounted by a large cross made of Malaga and Concord grapes. The committee that arranged the decorations is certainly entitled to the credit for the work. The program for the evening consisted of well rendered anthems by the choir and an address, very appropriate to the occasion by the pastor, Rev. Robert O'Boyle. The harvest home offering by the congregation was very large and the service as a whole was one of the most successful in the history of the church.

MAHANOV CITY.

Local Happenings From Our Neighboring Borough Chronicled.

Mahanoy City, Sept. 19.—Many improvements are being made at our neighboring collieries, especially at Mahanoy City colliery, the breaker of which will be extensively repaired. A slope has been driven at this colliery, and the coal will be hoisted from the lower level to the surface, thus avoiding two slopes and as many engines as well as the expense of the same. The largest pumps in the district will be placed at the lower level to pump direct to the surface. The improvements will obviate the use of mine pumps now in use, and when all is completed this colliery will rank with any in the district.

A twenty-one foot fan, constructed of iron, will be placed in position shortly at the Elmwood colliery, to do the work of two fans now in operation. A tunnel has been driven from the Mammoth to the Skidmore vein and another from the Skidmore to the seven-foot vein. These will aid considerably to the means of ventilation of the colliery.

The engines which will be used to hoist from the underground slope of Schuylkill colliery have been placed in position near Jackson, and work on the engine house will commence shortly. The rope has not yet been placed in the mine, but it is expected that in about a month the work will be completed and hoisting commenced.

In most of the collieries screens are being done away with and shakers substituted. With the shakers more coal can be run through the breaker in the same period of time, and the coal can be cleaned better. Their construction makes them preferable to screens, from the fact that they are manufactured from cast iron plate, punctured full of holes.

Lizzie, a year-old child of Stiney Bokowski, was knocked down by a team driven by Robert Quinn. A wheel passed over the right side of the child's face, but did not injure her seriously.

Edward Britz and Miss Ella McGinn will be married in the German Catholic church to-morrow morning.

The employees at the Primrose colliery complained because they were not paid off until after six o'clock Saturday night.

Jacob Webb had a finger fractured while at work in the Tunnel Ridge colliery.

Smith and Campion are shipping their carts and tools to Shippenburg, Pa., where they have secured a large contract.

It is impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil. Monarch over pain.

Facts Sustain the Assertion.

Only the home paper, the country daily, possesses the full confidence of a permanent constituency. It is the "home" paper par excellence, because it is welcomed and read by every man, woman and child. It is just as much of a family necessity as sugar or tea or coffee. It is this faculty of getting close to its readers that makes the "home" paper's value to advertisers wholly out of proportion to its circulation.

An Excellent Law.

Under the provisions of a new law farmers or other persons who preserve and propagate trees will be allowed a reduction of their taxes under certain requirements. Mr. Tenner, a farmer of Lost township, Allegheny county, has obtained from the County Commissioners \$2500 on the basis of his taxes for complying with the new law. The object is to encourage tree culture and care for those trees which have already been planted and it doubtless is a good law.
