SANTIAGO'S REVENUES.

Collector Donaldson Estimates the Annual Income at \$2,150,000. Santiago de Cuba, Sept. 21.—By the courtesy of General Lawton this correspondent was afforded an opportunity to peruse the report issued by Customs Collector Donaldson, covering the transaction of the custom house at Santiago during the period between July 16 and Sept. 1.

Summarized the report states that 35 steamers, with an appregate tonnage of 3,889, entered the port during the period named, and that 27 steamers and 18 sailing vessels cleared. The discrepancy between the number of en tries and clearances is accounted for by the fact that many government transports did not report for clearance at the custom house. The sum of \$107, 783 was collected from various sources and payments were made of \$13,101 for sanitary and similar purposes, city police and municipal salaries, salaries of custom house officials and miscellaneous expenses.

After reviewing the various sources of revenue Collector Donaldson estimates that the annual income of the province of Santiago at \$2,150,000. He makes a strong plea for the assignment of a revenue cutter for continuous employment in these waters in the pro-tection of the revenue, the assistance of vesuels in distress, the enforcement of quarantine laws and the protection of wrocked property.

The revenue collected has been found sufficient to cover all the administrative expenses of Santiago thus far au thorized. Other resurrees disclosed in the archives of the office are available for the increused unexpected extra-
