

# PECULIAR POISONS.

GENERATED IN THE HUMAN BODY.

## The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of disease and death (called by scientists Protoplasm), are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from a sense of weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay) poisoning the blood, making it thin, weak, and lacking in red corpuscles; poisoning the brain causing headaches and pain in the eyes.

Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys causing bright's disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogenic products; the most sensible remedy in all cases of indigestion, is to take after each meal one or two of Stant's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stant's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strong nerves, a bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stant's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stant Co., Marshall, Mich., but ask your druggist first.

# CERVERA SNUBS AUNON.

Marked Coolness Between the Admiral and Minister of Marine.

## GENERAL AUGUSTI INTERVIEWED

The Former Captain General of the Philippines Discusses the Fall of Manila, and Thinks He Did His Duty as a Soldier and a Spaniard.

Madrid, Sept. 23.—The marked coolness of Admiral Cervera and his officers toward the minister of marine, Senor Aunon, is much commented upon here. Senor Aunon and his staff, in uniform, met Admiral Cervera and his party at the railroad depot. The admiral saluted before the minister, saluted and said stiffly: "I am at the orders of your excellency. I shall present myself at the ministry today, as is my duty."

The admiral then started to leave, after embracing Captain Galateo, the former commander of the Visaya, and his other comrades. The minister of marine offered the use of his carriage to Admiral Cervera, but the latter declined to accept it, and entered another carriage.

General Augusti, the former captain general of the Philippine islands, who has just arrived at Vitaria, Spain, from Manila, in an interview is quoted as discussing the Philippine question in an interesting manner. He is alleged to have said:

"When I left Spain I knew the situation in the Philippine islands was grave. Senor Moret (the minister of the colonies in the last cabinet of Senor Sagasta) remarked to me that if war with the United States broke out there would be a terrible state of things."

"Continuing, General Augusti described Admiral Montojo's fleet as 'some old wooden ships,' and said they 'came to Manila practically pursued by Dewey.' He then said:

"Our batteries fired at the Americans, but our shots were thrown away, and after the first shots they became useless. At daybreak we were in the power of the Americans, and an hour afterwards the Spanish fleet had ceased to exist."

"Dewey summoned me to surrender. I refused, and he threatened to raze the town. I replied: 'Raze it, but so long as I live the Spanish flag will float on the ruins of Manila.'"

"Then began the terrible time of siege and the anguish of the blockade. Famine stared us in the face. In the meantime hostilities were conducted throughout the provinces, but save in isolated cases, humanely."

"Dewey repeated his summons to surrender, and I again refused. Dewey then bombarded the town, and Manila surrendered."

"But the danger was not over. Considering my presence no longer necessary, I asked the government for permission to go home, as my position had become by no means easy. I think I have done my duty as a soldier and a Spaniard."

The ministerial newspapers protest against the supposition that the United States will keep the Philippine Islands. They maintain that Spain's rights to these islands are incontestable, and that she is 'resolved to defend her rights with the greatest energy.'"

The government papers also contend that, on terms of the peace protocol, Spain's right to the island of Luzon and the rest of the Philippine Islands, and they declare that if the United States bases its claims on humanity and civilization Spain will prove that there is no higher civilization in any of the Asiatic colonies than in the Spanish colonies in Asia.

The rumor that the Rothschilds are to lend Spain a large sum of money when the treaty of peace is signed is denied here. Officials of the Spanish government claim that the Bank of Spain is able to supply the immediate demands of the government.

# ALGER'S INVESTIGATION.

Critical Inspection of the Hospitals at Chickamauga.

## A BANQUET AT CHATTANOOGA.

Colonel Lee and Surgeon General Sternberg Deny Charges Against Their Departments—Alger Retortates His Charges Against Commanders.

Chattanooga, Tenn., Sept. 23.—Secretary Alger, who arrived Wednesday night, was out early yesterday. About 9 o'clock the secretary and Surgeon General Sternberg, accompanied by Brigadier General Boynton, left for Chickamauga Park, where they spent the day in a critical inspection of the hospitals over which there has been so much controversy. Before leaving Chattanooga Secretary Alger said to a reporter:

"The press has been disposed to exaggerate the condition of some of the camps, and things have been charged against the war department which were untrue and unwarranted. I want the facts, and all the facts, to come out, and have nothing to withhold from the public."

"The great trouble has been that the people have not appreciated the immense problem of forming an army of 250,000 volunteers without notice and without the necessary equipment. The Spanish war came upon us almost like a bolt from a clear sky, and it found every branch of the war department unprepared for the task of equipping and handling such a vast number of untrained men."

"For a time there was difficulty in furnishing supplies and equipment for the troops, but that was to be expected. The department had only a limited supply of tents and it had practically no wagons and ambulances to start with. There were a thousand and one details to look after, and a fairly disreputable public will understand the disadvantages under which we were department worked for many weeks. As fast as possible equipment and supplies were sent to the several camps, and if there has been lack of medicines and necessities of life the fault lies with the commanding officers of the camps."

"There may have been some incompetent officers, generals and colonels, in charge of some of the camps, and if such is found to be the case they will be held strictly to account for their misdeeds."

"If there are any commanding officers who are now incompetent, or who fail to put their camps in first class condition and keep them that way I propose they shall be replaced by men who are competent and who will see that perfect sanitary conditions are established and maintained."

Secretary Alger and party were entertained at dinner last evening, given by prominent citizens of Chattanooga. Assistant Quartermaster General Lee and other army officers were guests. Secretary Alger stated that he was firmly convinced of the original healthiness of Chickamauga Park, but that it had been rendered temporarily unhealthy by the long occupation of the army. He intimated that the soldiers now in camp in this latitude will be moved further south on the approach of colder weather.

Colonel Lee replied to the charges made by Generals Wiley, Sanger and Colonel Leonard and others against his department, and denied in most emphatic terms every charge made. He characterized the charges as absolutely false, as will be clearly shown, he said, in an official investigation, which he most cordially invited.

Surgeon General Sternberg declared that naturally Chickamauga Park was absolutely healthy and the water pure, and that the sickness at Camp Thomas was traceable directly to the failure of commanding and regimental officers to observe the sanitary regulations which had been issued on the subject by the medical bureau.

A Narrow Escape. Thankful words were written by Mrs. Ada E. Hunt of Graham, S. C. "I was in a bad cold which settled on my lungs; I caught it in and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. My husband, Dr. J. W. Saylor, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took it in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free. A. Waseley's Drug Store. Regular size 50c and \$1.00. Guaranteed or price refunded.

Winnie Davis' Funeral. Richmond, Va., Sept. 23.—The body of Miss Winnie Davis arrived at 8:40 this morning, and was met at the depot by Camp Lee, of Confederate Veterans, and escorted to St. Paul's church, where it will lie under a guard of honor until the time of the funeral. The funeral will be in the north section of the Davis circle, about ten feet from the grave of Mr. Davis. The hearse will be drawn by four white horses, and the military escort will consist of the Richmond Howitzers, three companies from the First regiment, three from the Second and one from the Third. General Fitzhugh Lee was unable to be present, owing to the expected visit to his camp of Secretary Alger.

For broken surfaces, sores, insect bites, burns, skin diseases and sprains, there is one reliable remedy, DeWitt's Witch Hazel Salve. When you call for DeWitt's don't accept counterfeits or imitations. You will not be disappointed with DeWitt's Witch Hazel Salve. C. H. Hagenbach.

Secretary Alger proceeded to Manila. San Francisco, Sept. 23.—A dispatch was received at army headquarters yesterday ordering General King and detachment, now at Honolulu, to proceed to Manila. The transport Arizona is due at Manila tomorrow, and will return to Honolulu immediately. A provision ship will be sent from here to Honolulu to provide for the troops.

Give the Children a Drink called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee, but is free from all its injurious properties. Grain-O builds and strengthens the nerves. It is a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about as much as coffee. 15c and 25c.

General Lanyon's Health Report. Washington, Sept. 23.—General Lanyon last night reported to the war department 14 new cases of sickness and ten deaths yesterday among the American troops at Santiago. His report follows: Total sick, 1,329; fever, 741; new cases, 114; returned to duty, 93; deaths, 10.

Truth wears well. People have learned that DeWitt's Little Early Remedy are reliable little pills for relieving the bowels, curing constipation and sick headache. They don't gripe. C. H. Hagenbach.

# CUBA'S INSURGENT GOVERNMENT

Leaders Issuing Orders From Primitive Quarters In Santa Cruz.

Santiago de Cuba, Sept. 23.—Two hundred miles west of Santiago is the desolate fishing village of Santa Cruz, consisting of a single straggling street along the shore, surrounded by vast swamps. Here the Cuban government has established headquarters, and during the past month has held sessions for the conduct of affairs of the several towns in complete charge of the Cubans. The administration buildings are an old store fronting on the sea—its poorly furnished with chairs and tables only.

When your correspondent arrived at Santa Cruz three nights ago he was conducted into the office of Vice President Capote, where, around a table lighted only by a candle in a bottle, the officials of the insurgent government were engaged in writing orders and other legislative documents.

With reference to Cuban affairs Vice President Capote said to the correspondent: "When your correspondent declared the Cuban government unanimously decided to assist and co-operate with the Americans, and designated me to act as a special envoy to see President McKinley with regard to the best methods to take the co-operation most of the Cuban government was not given me, nevertheless the president and other officials in Washington realized that the body of men which I represented as the government constituted the government in the minds of the Cubans, and I was authorized to represent the United States would co-operate with us."

"The United States government has taken complete control of affairs in this province, and is, I believe, conducting them in the right spirit. My own hope is that if the Cuban government, as it is now constituted, is left out of all consideration, and if authority is taken away from it, the American government may perhaps find it difficult to settle the problem of establishing a permanent government."

If mothers would cast aside foolish prejudice and impart to their children the knowledge that they themselves have acquired by years of suffering, they would be forced to spend fewer hours of anxious attendance at the bedside of sick daughters.

A woman who suffers from weakness, disease, or derangement of the distinctly feminine organs is an incomplete woman. She is unfitted for woman's high and best duty—motherhood. She cannot be a happy wife or the mistress of a happy home. Dr. Pierce's Favorite Prescription is the only proprietary medicine ever devised by an expert skilled specialist in woman's diseases for the one purpose of curing these troubles in the privacy of the home. It makes a woman strong and healthy in a womanly way, and can be relied upon to relieve motherhood of all peril and almost all pain. It insures healthy, robust children. It transforms weak, sickly, nervous invalids into healthy, happy wives and mothers.

Words fail to describe my suffering before I took Dr. Pierce's Favorite Prescription and Pleasant Pellets." writes Miss Lullie A. Hardy, of South Carolina. "It insures healthy children, and I can walk across the room. I had an abscess on the left breast tube that discharged through the bladder. It left the bladder in an irritable condition and the uterus inflamed. I had an awful burning in my stomach, no appetite, sweating freely, constipation, excruciating monthly pains and backache all the time. I was confined by my bed five months. Then I commenced the use of your medicine and have been greatly benefited by them."
