DANGER IN SODA

Serious Results Sometimes Foliow Its Excessive Use.

Common soda is all right in its place and indispensible in the kitchen and for cooking and washing purposes, but it was never intended for a medicine, and people who use it ATTITUDE OF THE FILIPINOS. as such will some day regret it.

We refer to the common use of soda to relieve hearthurn or sour stomach, a habit which thousands of people practice admost daily, and one which is fraught with danger; moreover the solatonly gives temporary relief and in the end the stamach mould- gets worse and worse,

Dr. Harlandson recommends as the salest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stnart's Dyspepsia Tablets.

These tablets are large 2.7 grain lorenges, very pleasant to faste and contain the natural acids, peptones and digestiv- elements essential to good digosion, and when taken after adjutant general's office and were es-meals they digest the food perfectly and corted to the White House by Seneral Corbin. AGUINALDO'S AGENTS. They Will Probably Be Granted an

Interview by the President.

Jose Lopez, One of the Agents, Defouds the Insurgents Against the Charge That They Are Semi-Barbarous, and Extols Work of the Congress

Washington, Sept. 28 .- General Francis V. Greene, who was made a major general of volunteers for distinguished service in the invasion of the Philipippine insurgents, arrived here yesterday afternoon from Chicago and went to the Arlington hotel. The two Fill-pinos are Fellpe Agoncillo and Jose Lopez. They are the personal repre-sentatives of Aguinaldo, and are on their way to Paris to secure representation on the Spanish-American

recognition of the insurgent government in the Philippines. General Greens and staff called at the desirous of conferring with the presiand poisen the blood and nervous system. Dr. Wnerth states that he invariably uses tion was under consideration at the

> of slight build and short stature, with swarthy faces and keen black eyes, showing the characteristics of the Spanish and the modernized Malay. The chief delegate, Mr. Agoncillo, speaks no English, although he understands the language, and his interviews are carried on through Mr. Lopez, who has a fairly good command of English. Mr. Lopez said that no instructions had yet been received from the Philippines government, but these were expected very soon as a guide to the future movements of the delegates. Speaking of the conditions in the Philippines, Mr. Lopez said the Philippine congress was now conducting the business of that portion of the country under Philippine rule with singular ability and success. The meetings had begun since the departure of the delegates, yet they were familiar with the character of those conducting the congress. They were, he said, men of intelligence, and ability, most of them having received their education

in Europe. Their councils were har-monious and were conducted with all the requirements of modern parlia-mentary usage. The presiding officer, Mr. Lopez said, was that conspicuous figure in the struggles of the Philippines, Paterno, a man whose ability had been recognized by Spain by conferring on him an order of knighthood and the Grand Cross of the Order of Elizabeth.

Paterno was educated in Europe and spent 20 years in travel and observation at the leading capitals. Mr. Lopez said that Paterno and many others of like education and refinement did away with the prevalent idea that the Filipino congress was a crude and semi-barbarous gathering of natives. He says the country at large is enjoying a most peaceful and prosperous period, now that Spanish rule is at an end, and native officials are directing the local affairs. These officials, he declares, are showing much aptitude for municipal government, and they also have the advantage of holding the conidence of the people.

When Mr. Lopez was asked as to the reports that the Filipinos were soliciting help from European governments he declared that such reports were utterly unfounded and unjust. They were acting in the most perfect good faith
