Chris Von Der Ahe Ruled Out

St. Louis, Oct. 3.—The National League has discussed and decided to employ a method to improve the baseball situation in St. Louis. This determination it is stated, will result in the elimination of Chris Von Der Ahe and all the interests allied with him in the present organization, and will give the St. Louis franchise to Frank P. Robinson, of Cleveland, who will transfer the Cleveland club to this city bodily next year. The league holds that a franchise consists merely of the consent of the different clubs to play with one another, and if it of the club agree to withdraw this consent to play either at home or abroad with a twelfth club, the twelfth club has no redress.

Two Killed by Powder Explosion

Patterson, N. J., Oct. 3.—There was an explosion at the works of the Laflin & Rand Powder company at Mountain View, near here, Saturday. Two men were killed, but none of the other workmen were injured. The victims were Thomas Hardy of Mountain View and Daniel McKelvey, of Lincoln Park. Each was about 25 years old. They were both married and leave families. Their bodies were blackened, the clothes had been burned from them, and so thoroughly had they been roasted that the flesh came off when some of the workmen poked up the bodies. The men had been burned to death and not killed by the shock of the explosion.

Reported Death of China's Emperor

Washington, Oct. 3.—A brief message was received at the state department yesterday from Minister Conger at Peking concerning the situation there. He says nothing concerning the reported death of the emperor, but states that he does not consider the situation especially critical at the present time. The state department officials do not discredit the report of the emperor's death, and some of them do not hesitate to express their acceptance of the report of the assassination. The Chinese minister, however, discredits the entire report of a tragedy.

Fall Opening at Kelly's Millinery

Foreign patterns and creations from our own work room are side by side in this great display. Millinery hats meet the demands of fashion. Most critical exactness is always associated with the name of Mrs. J. J. Kelly.

People are surprised that such handsome hats, trimmed with such rich material, can be made for the price. Some of these are original creations, some are copied from foreign models.

It is the trimming and selling of stylish and elegant hats that has made Mrs. J. J. Kelly the recognized headquarters for high art millinery. It is the selling of elegant trimmed hats at prices within the reach of all that made Kelly so famous.

GET EXPERT ADVICE IN YOUR CASE.
If you are ailing and cannot make up your mind what the matter is, go to a specialist and get advice that will cure you.

This to many looks like advice that will be hard to follow. The idea of specialists and the fees they charge is appalling.

Many people are obliged to suffer and then die because they cannot afford to pay the specialist doctor his fee, let alone what a specialist would charge.

There is, however, a chance for everyone, especially those who suffer from diseases of the nerves or blood, as well as the many ills that result from such complications.

In New York City at 35 West 14th St., is the office of the greatest American specialist on these troubles. We refer to Dr. Greene, who will advise anyone who may write him or will call on him, absolutely free.

With such an opportunity, there is no reason why one should continue to suffer. In this connection we would like to remind the public that Dr. Greene is the inventor of that great nerve and blood remedy known as Greene's Nervura.

From the Miner's Journal.
Twenty-three-quarter days in the mines operated by the Coal and Iron Company is pretty good evidence that the anthracite trade has not fallen to pieces, as some of our volatile pessimists would have us believe that it is.
