TUESDAY, OCTOBER 4, 1908.

OUR COUNTRY: First, Last and Forever.

There is a surprise in store for "somebody" on the 9th of November next.

A CHICAGO MAN has a \$2,000,000. If it really doesn't make night hideous it is worth twice that sum.

The fusion ticket in the Fourth district has caused more confusion than the oceanic war.

The peace jubilee celebration in Philadelphia this month will be a monster affair. All the pretty girls will have an opportunity to see—and kiss—our friend Hobson.

The Nebraska corn crop is estimated at 150,000,000 bushels, worth \$37,500,000. This year's income in Oregon from grain, hops and wool is estimated at \$14,000,000.

It is reported that the government contemplates moving 10,000,000 ounces of silver from Philadelphia to San Francisco by freight. The metal will be in bars of 1000 ounces each.

These Congressional candidates—at least, those fellows who were wedded to the job—raise a new issue every time they come up for re-election. But the people are on their tricks this time.

A PROMINENT mine official stated yesterday that at present there is a big demand for the coal from this district. Could the colliers be supplied with cars it is the belief of many that the coal trade would boom.

BEFORE the end of the present month the movement to place a strong army of occupation in Cuba will begin. The Eighth regiment, which includes the Schuylkill county troops, will be among the first to invade that island.

AND now ex-Congressman Robinson makes the charge in his Media Ledger that postmasterships have been sold in Chester and Delaware counties for various sums, ranging from \$150 to \$1,000, according to the salary attached.

THIS month marks the beginning of the fall trade, and from now on business will be more active. Goods can be bought here as cheap, if not cheaper, than in other towns. Use the HERALD columns and secure the cream of the trade.

HAD Widow Smith's seven small children, who lost their father and brother as a result of the war, been of age and had a political pull, that worthy lady would have written P. M. after her name. As it is, Minersville patrons get their mail from another.

The strike in the Welsh coal fields has opened a market for American coal in many parts of the world and given an opportunity of which many coal shippers of the United States have taken advantage. One of the places to which American coal has not yet been sent is the colony of the Cape of Good Hope, Africa, and a communication just received by the Philadelphia Commercial Museum from Port Elizabeth, the second port in the colony, gives information on the subject of coal imports which may lead to the establishment of a profitable coal export trade to that port from the United States.

Strong, steady nerves
Are needed for success
Everywhere. Nerves
Depend simply, solely,
Upon the blood.
Pure, rich, nourishing
Blood feeds the nerves
And makes them strong.
The great nerve tonic is
Hood's Sarsaparilla,
Because it makes
The blood rich and
Pure, giving it power
To feed the nerves.
Hood's Sarsaparilla
Cures nervousness,

NEW YORK PAVING FRAUDS.

Mayor Van Wyck Makes Charges and Prosecutions Will Follow.
New York, Oct. 4.—Mayor Van Wyck made a statement yesterday to the effect that the commissioners of accounts had discovered gigantic frauds in the asphalt paving contracts. The mayor turned over the papers in the case to District Attorney Gardner, who will prosecute the men charged with participating in the frauds.
The mayor's statement, based on a report of the commissioners of accounts, says in part:
"Asphalt contracts, the report says, have been let to a favored few by the imposition of restrictions in the specifications which those outside the asphalt combine could not over fulfill."
"New York has for three years paid about \$1 a square yard for asphalt paving more than that paid by adjacent cities."
"The combine, it is declared, has been controlled by one company. That is the Trinidad Asphalt company, of which Amos L. Barber is president, and from which the other companies have to buy. This asphalt was made the standard by the department of public works. Intending bidders were, by the specifications, first compelled to build a plant that would cost \$20,000, but the clause was enforced only at the will of the commissioner."

More Forest Fire Victims.
Cumberland, Wis., Oct. 4.—The body of an unknown man and boy were found yesterday in the woods between Almena and Poskin Lake, burned beyond recognition. Several persons are still missing. Peter Redmond, who was killed in the forest fire, was brought to this city yesterday in a critical condition, and it is thought he cannot live. A 4-year-old daughter of Rudolph Miller and a 7-year-old son of Nels Swanson were found in the woods near the one-half mile north-west of Almena so badly burned that they cannot recover. Mrs. Frank Henrichmeier, at Poskin Lake, died yesterday as the result of fright and exhaustion in fighting fires.
