CUBA'S NEW RULERS.
The Men Who Will Probably Be Elected Next Month.
Havana, Oct. 6.—The press of the island seems to consider the following ticket almost sure of election at the coming convention of the Cuban party. Senator Cruz del Pozo, called for Oct. 10; President, Maximo Gomez; vice president, Bartolome Maso; secretary of foreign affairs, Domingo Benjumea; secretary of finance, Juan Capote; secretary of justice, Jose Llamusa; secretary of war, Chirico Garcia. Senator Estrada Palma is a candidate for the post of Cuban representative at Washington.
General Maximo Gomez has declared that he will not accept any office under the Cuban government, but his friends are confident of their ability to persuade him to withdraw his objection. According to advices from Constantinople the Cuban General Hilario Esquivel, with 2,700 men, is encamped on the Santa Rosa estate, about four miles from Cienfuegos. He has established a hospital there, over which both the Cuban and Red Cross flags. The condition of the men is excellent. They contain and considerable quantities of stores and provisions are sent to them daily from Cienfuegos.
Havana will soon have a municipal hospital, to which the sick new infirmary of the Pases municipalities will be removed at an early date. The building has been fitted with all the latest improvements.

Dangerous Enemies That Invade the Household.
How Health and Happiness May be Lost.
Dr. Greene's Nervura as the Best Guardian.
The faithful wife, the fond mother, the hope and inspiration of the human race, such are the householders. We may applaud great artists and actresses. We may admire fighting amazons. But it is the householders whom we love.
We spare nothing to make the wife and mother happy. We cannot, however, shield her from anxiety, and most of us are unable

A MARYLAND LYNCHING.
Negro Taken From Annapolis Jail and Hanged With Bullets.
Annapolis, Md., Oct. 6.—Wright Smith, colored, who attempted an assault on Mrs. Morrison, the wife of Captain James Morrison, residing near Jones' Station, was taken from jail shortly after 2 o'clock in the morning and shot.
The lynch party, numbering 30 men, some of them masked and others unmasked, secured entrance to the jail by ringing the bell. As this is the signal for bringing in a prisoner, Watchman Thomas J. Duval opened the door promptly. Covered by half a dozen revolvers, the watchman was forced to give up the keys to the cells, and Smith was quickly lynched. He was compelled to walk in front of the mob, which had increased to 50 as they reached the street. On Calvert street Smith started to run, crying murder. He was chased to an open lot near the city cemetery, and there he was killed with bullets. His dead body was left lying in the grass and the lynchers, evidently from the neighborhood of the assault, rode away in barges.
The crime for which Smith was lynched occurred on the night of Sept. 2 when Captain Morrison was absent from home. The house was entered by a negro, who broke into the room occupied by Mrs. Morrison and her sister and attempted to assault them. Both women fought desperately, and finally drove off their assailant. Smith was arrested in Baltimore last Monday and taken to Annapolis. Mrs. Morrison was severely injured in her assailant. He died of his guilt.
China's Relations in Harmony.
London, Oct. 6.—The Chinese embassy here is in receipt of a dispatch from Peking saying that the emperor has proclaimed the emperor and the emperor's emissary. The dispatch adds that the emperor, seeing the danger of scaling sweeping reforms, consented to advise the emperor in the general management of affairs and as to the best way of introducing reforms. Circumstances have shown it to be necessary that six counselors who were urging the emperor to undertake inopportune reforms be put to death.

The first transatlantic trip of the St. Louis is scheduled for Oct. 12. She has undergone extensive alterations necessary to convert her from a cruiser into a merchantman. The St. Paul yet remains at Camp.
