CAMP MEADE EVACUATION.

Vaccinating the Troops Preparatory to the Movement South.

Middletown, Pa., Oct. 10.—Chief Surgeon Girard is getting ready for the movement south of the Second corps. He began today vaccinating the troops to guard against an outbreak of smallpox. The colonel has arranged with the hospitals in Philadelphia and through the eastern end of the state to take tare of the sick of the corps. As fast as the field hospitals fill up the invalids will be shipped away in a special hospital car.

Major General Graham has no definite information as to the movement of his command beyond the order of Quar-termaster General Ludington to the chief quartermaster to commence the shipment of troops Oc. 27. General Graham is opposed to taking his com-mand south, and has requested the war department to ferward the corps as a unit to Cuba for duty as an army o occupation. He is afraid of an outbreak of sickness among his men if they are taken from the healthy climate in the north and dropped down in the south for a month and then shippped to the West Indies. The troops are in excel-lent conditition and General Graham thinks if they are shipped direct across the water there will not be much sick-

The Two Hundred and Third New York regiment is still isolated in the Conewago Hills, and will hardly return to Camp Mende before the latter part of next week. The sick in the regi-ment that have not been sent to city hospitals are doing nicely, and yester-day over 500 reported for duty. The Second West Virginia is scheduled to arrive tonight from its march to Gettysburg to attend the dedication of a regimental monument. Colonel Casteel has asked permission to take his command to Philadelphia's peace jubilee. This is the only West Virginia regiment in Waters, rendered special anthems. command, and it is thought Gen eral Graham will make it a part of the provisional division

BROWNLEE'S REPORT. The Causes He Assigns for the High Death

Rate in the Mines, In his first report as Chief of the Bureau of Mines in Pennsylvania Robert Brownlee Mrs. Thomas C. Waters, of Eureka, former

dents has been reduced since 1870 notwith- gagged until unconscious. Miss Waters was standing the fact that the dangers incident at home sione when a rough looking tramp, to mining have increased, still with all the evidently an Italian, applied for something requirements of law as to inspection, and to eat. She went into the cellar and prowith improved methods of working, and tak- cured a loaf of bread. The tramp said he ng lato account the dangers peculiar to coal didn't want bread; he wanted cakes and pies. mining, especially anthracite coal, the reason miss Waters said she had none and started to far such a large number of accidents, in a measure, still seems unexplained. The high death rate in the anthracite region is in part her by the hair, and checked her until she accounted for by the great thickness of was unconscious and fell to the floor. He the seams or beds, their frequent heavy then began kicking her in the back, which pitches, the depth of the mines, their gase-ous condition, and the great quantities of called for help a nearby blacksmith ran to explosives used in the mining of coal,"

compared to the mining of coal,"

ber assistance, or the girl might have been Further on Mr. Brownlee attributes the killed. The girl's father and several others large number of accidents to neglect of chased the tramp but he escaped into a corn proper precautions and disobedience of the field. Several hours after Miss Wateas remine law, and adds:

"There is no question but that if the mine not dangerously injured. rules, general and special, were more rigorously enforced, the number of accidents would be very materially reduced. Some people attribute the cause of so many ac-cidents to the large foreign element emloyed in and about the mines. I have my oubts as to that being the cause. My experience and observation have been that this class are as careful of danger, if not more so, than many of the experienced miners. know I will be critized for these expressions but they stand good until proven otherwise." Commenting upon Chief Inspector Brownee's report, Mines and Minerals of Scrantor

The enforcement of the laws relating to cidents depends very largely upon public opinion, and those in authority report both publicly and privately that it is very difficult to secure convictions for infractions of the mine law, Failure to secure results through legal action is undoubtedly discouraging, but it nevertheless remains the duty of every inspector and of every mine official to carry out the law to its fullest ex-tent and then if the courts and public opinion do not uphold them, let the blame fixed in the proper place.

"More rigid mine discipline is moreover mential and imperatively needed and right here there is great room for improve upon the part of superintendents and fore-

"The role of a disciplinarian is never a leasant one, but until the ability to enforce reater importance than technical ability in the make up of a foreman very little improvement can be hoped for in the prevenn of accidents.

The inspector can recommend and the nager can make regulations, but neither can execute them excepting through suitable

SPECIAL CHURCH SERVICES

Large Congregations in the Evangelical and Calvary Baptist Churches,

The seventh anniversary of the Keystone eague of the Christian Endeavor was bserved in the United Evangelical church on North Jardin street. There was a sunrise prayer meeting at six o'clock in the morning, and at ten o'clock Rev. I. J. Reitz delivered a sermon. At 6 p. m. there was a service of song and half an hour later Christian Endeavor services commenced. Addresses were made by the pastor, Rev. I. J. Reitz, David Faust, O. S. Kehler and J. H. Kester. The choir rendered anthems.

The members of Hope Section No. 10, Junior Templars of Honor and Temperance, attended services in the Calvary Baptist church on South Jardin street last night and listened to an interesting and impressive sermon by the pastor, Rev. R. Albin. The chair, under the leadership of William

NO GRIT IN THE SICK.

Grit is a grand thing and pulls a mar brough many a difficulty. But there is no grit in the sick. The debilitated and sufferers from nervous prostration, those per-manently subject to gloom and depression grit goes with them. Sometimes, however, courage is infused into the sick by good news Well, here is a piece of good news that should Greene to-day.
