Score another point for smokeless coal.

Poisoned Blood

Disagreeable Itching Spread All Over His Body - Sleep Disturbed -Hood's Sarsaparilla Drove Out the Poison and Cured.

"I have been poisoned every summer for years. Last summer the poison came out on me worse than ever before. I would frequently be awakened during the night by the itching. I would scratch myself, but instead of being relieved the trouble spread to different parts of my body. I tried various remedies which people recommended to me, but none of them ever helped me. I made up my mind the poison could not be cured until my blood was pure and then I decided to take Hood's Sarsaparilla. While taking the first bottle I felt relieved from the itching. I kept on taking the medicine and it has entirely cured me. I am now on my fourth bottle and I can sleep soundly at night? WILLIAM BAN, 3126 Westmont Street, Philadelphia, Pa.

timony at Jacksonville,

DR. FRYE'S PLAIN DECLARATIONS He Asserts That the Men of the Hos-

Jacksonville, Fla., Oct. 20.-The war

investigating commission held its ses-sions in the city hall yesterday, examining a large number of regimental and other officers. One of the most He condemned some of the methods in vogue in the hospitals, and pital corps were incompetent. The commission has decided that one of its members should be in the commis-Denby has been selected for this ser-

ville camp. He attributed it largely to the age of the men, young people being more susceptible than those more

there had been a deficiency of bed linen. This had been especially true at Fort McPherson. The hospital here had also been short of lighting facilities. Dr. Frye expressed the opinion that in several instances convalescents had been sent away from the hospitals with which he was connected before they were sufficiently advanced to permit them to go in safety. He thought these instances were due to insufficient supervision, to ignorance of physicians and a desire to clear the wards of the hospitals for new patients.

Dr. Frye also spoke in very uncomplimentary terms of the men engaged in the hospital corps, saying they had been picked up at random over the country and were "generally a scabby looking lot." not fit to adorn any walk the contract surgeons, saving that he would not be willing to trust his famlly or friends to 50 per cent of them. In reply to a request from General Dodge Major Frye gave his opinion as to the origin of the popular excitement concerning the conditions at Montauk Point while the troops were stationed there. He said that from 50 to 75 per cent of the men were sick when they vision had been made for them. As a consequence many were compelled to lie upon the bare ground, and they nat-

urally suffered from exposure. He also asserted that reporters of the many newspapers had been sent to the camp under instructions to find all that was bad and nothing that was good. Colonel Dows, of the Forty-ninth Iowa regiment, followed Dr. Frye, and he was in turn followed by various in the commissary supplies. "The men have the regular army rations," he said, "and if they have not had enough

the fault is theirs." Speaking of the medical supplies Colonel Dows said had sent to the camp had spoken with of the medicines and medical appli-

of the First brigade of the Seventh corps, was questioned about various points, having been stationed at Camp Thomas, Montauk Point, Anniston and other points before coming to Jack-sonville. He said the principal objection he had to Camp Thomas, in Chick-nmauga Park, was the fact that it was Impossible, on account of the formation two or three feet in depth. There had also been an insufficiency of water in

the beginning of the history of the Speaking of the conditions at Jacksonville he said he did not see that any fault could be found with either the administrative officers or the service performed by them in either the medical, commissary or quartermaster depart-ments. Most of his staff officers were volunteers, but he had found them very efficient. He had also found the troops in his command splendidly equipped, and had found the regimental officers especially zealous to maintain the best

sanitary conditions possible. General Williston had been at Montauk from the 10th of August to the 13th of September and had superin-tended the debarkation of the troops and the location of the infantry regiments in camp.

"Never," said he, "was a prettier camp pitched in the United States than was that camp at Montauk."
