ARMED CUBANS SNUBBED General Wood Refuses to Furnish Them With Rations.

THE OUBANS WANT THE OFFICES.

Some Are Demanding That the Control of Affairs Should Be Turned Over to Them at Once, Though the Moderates Oppose Hasty Action.

Santiago de Cuba, Oct. 27 .- Major Pettlt, in command of the United States troops at Manzanillo and military governor of the city, telegraphed yester-day that the Cuban General Rios of fers 2,000 armed men to assist the Americans in preserving order, merely asking rations in return. General Wood sent the following reply: "Certainly not. The only conditions on which rations are to be given are the complete disarmament and disbandment of the Cubans."

Some of the Cubans here consider that the United States is treating its allies badly in not allowing the Cuban forces to remin armed. They con-tend that the Cuban soldiers, who have been fighting for three years, who speak the language of the country and know its conditions, are better fitted for garrison duty than "untrained volunteers."

The Cuban General Macia Rodriguez virtually voices the sentiment of the Cuban army when he says: "We thank the United States for the assistance it has given us, but the time has now arrived when Cubans should be placed in the highest offices and should prepare to take over the Island on the de-parture of the Spanish."

Cuban extremists here are jubilant at the reported attitude of the Cuban block Santa Cruz del Sur, where assembly at Santa Cruz del Sur, where the delegates, while expressing their gratitude to the Americans, practically demand a distinctive Cuban government. The Cuban moderates, on the other hand, regret this stand, think-ing it best for the United States authorities to continue in charge of af-fairs for a year at least, so as to set things going and to prevent any com-plications with foreign governments. Those who advocate annexation to United States are extremely anxithe ous as to the outcome. A prominent Cuban now employed under our government, himself a moderate and well

fined and would probably poll about equally, but that in the event of extremists endeavoring to force the is-sue a majority of the moderates would join the annexationists. The foreign consuls are considering

the advisability of appenling to the powers to prevent a too hasty recognition of the Cuban government. General Wood is considering the advisability of granting a hotel license to

The correspondent of The Temps adds; "The net result is that an oper crisis seems to have been avoided until the conclusion of the treaty of peace In any case this has done away with the necessity for an interim govern-ment, which was lately suggested as likely to be the only solution of the present difficulties."

As the peace negotiations are now nearing the decision of the Philippine question, the Americans feel that no stage of the proceedings has so de-manded their considerate treatment.

It may not be stated with certainty that the Cuban question has received its last consideration by the Ameri-cans, nor that the Spaniards have accepted as ultimate the United States' refusal to assume any portion of the Cuban debt. .

There is just one medicine which can be control on with absolute certainty to over-come the deadly assault of wasting disease and restore the rugged, masterly power of perfect health. The "Golden Medical Dis-covery" of Dr. R. V. Pierce of Buffalo, N. Y. creates that keen digestive and mutritive capacity, which makes healthy, nourishing red blood, and keeps it pure and alive with bounding vitality. It nour-ishes, vitalizes and builds up every organ and tissue in the body, tones the liver, heals the lungs, strengthens the heart, and restores complete energy and cheerfulness. "T had been troubled for several years with At yesterday's sitting the Spanish peace commissioners presented a new counter memorandum declaring their readiness provisionally to accept an article of a preliminary treaty stipu-lating that "Spain shall relinquish all rights to sovereignty in Cuba without formulating any other claim," and to leave in suspense all remaining ques-tions, especially the Philippines. The Americans asked time until today to reply to this new memorandum.

It is not likely that either the United States or any other power can or will force Spain to ruin herself by meeting the Cuban debt, and it will then either be a total loss for Europe or be paid by the Span ish bondholders.
