GEN. WOOD HAS WOES!

His Troubles With the Cubans Who Are After Office.

FACTIONS FIGHTING FOR PLACE.

Although Admitting That the Mayor of Manzanillo Is Competent and Was a Brave Cuban Soldier, General Rios Demands His Dismissal.

Manzanillo, Oct. 31.—The visit of General Leonard Wood, governor of the military department of Santiago, has been instrumental in bringing all the elements among the Cubans to the front.

There are two leading factions, one headed by General Jesus Rabi and the other by General Rios. At present most of the offices are held by representatives of the Rabi faction, including the majority and the custom house inspectors.

General Wood, in order to pacify the Rios faction, has given them six positions on the rural police force and turned over to one of their people the lighthouse at Cape Cruz, together with several other minor appointments.

General Wood does not dare express his opinion publicly of General Rabi, but he feels that this is his district, as he has had the nominal charge of it for three years, and cannot expect to belong to him as an appointment of Cubans to office.

The majority of the insurgents here have no money and go about living from hand to mouth, and wondering what will happen next. Armed men are not allowed rations. As the Cubans will not disband, and will not work, nothing remains for them but to strut about the city, with machetes and revolvers.

General Wood is on board the gunboat Hist, which brought him here. General Wood is besieged by these seekers for office. Among the interviewees he has had was one with General Rios, who wanted the mayor of Manzanillo, one of Rabi's faction, dismissed and his own man appointed to the majority.

General Wood asked on what grounds the dismissal could be sustained. He said: "Is not the mayor a competent officer? Has he not an excellent reputation? Did he not serve bravely and effectively throughout the entire campaign?"

THE MAN WITH THE HAMMER!

The man who wields the hammer with the most flourish and makes the most noise isn't always the one who drives the most nails.

His nails may be bent, his hammer poor, and when the day's work is done he'll be behind. We drive bargains, not nails, but our stock is up in quality.

The blows of our hammer are accurate and regular. We are making a winning record every day in our GROCERY line.
