## WAR INVESTIGATORS

Finish Their Tour of the Southern Camps.

CAMP MEADE IS NEXT IN ORDER.

The Commissioners Will Soon Visit the Pennsylvania Headquarters and Take Testimony There-Ex-Governor Woodbury to Go to Vermont.

Knoxville, Tenn., Nov. 1.-The war investigating commission concluded the work of its southern tour here yesterday, and at 6 o'clock last night left Winter Exercison Tickets on the Pennfor Washington, expecting to arrive there at noon today. It is the present Intention that the commission shall go to Camp Meade soon after their arrival at Washington, and ex-Governor Woodbury will proceed to Vermont as a sibcommittee to take testimony there. The commission devoted yesterday forenoon to inspecting Camp Poland and the afternoon to taking testimony. They vanis Railread, with its many connections, found a division of troops here under the command of Colonel Kurtz, of the Second Ohio, and while they had no personal criticism to express against him one of the commissioners expressed the opinion that the command was too large to be entrusted to an officer below the rank of brigadier general. Grubler Brox., drug store. The transfer of Colonel Kurtz to the command of the division leaves the brigade of which his regiment is a part in command of Colonel Young, the colored colonel of the Third North Caro-

sion was Dr. John C. F. Martin, a contract surgeon from Ohlo, who was at Chickamanga. He repeated his expressions of outsing that the research of the contract surgeon from that the contract surgeon from the contract surgeon that the contract surgeon from the contract surgeon that the contract surgeon th The first witness before the commissions of opinion that the water in the pipe line system at Chickamauga contaminated by the water from Cave Spring creek. He said that he had Livery and first expressed this opinion, saying at the same time the facts in regard to the existence of typhoid was being suppressed, he had been summoned by General Sheridan and told that he must retract immediately or submit to a court martial. He had then written a letter of retraction, but he declared that he had done this to promote discipline, and not because he had chang-ed his opinion as to the pollution of the water. He also expressed the opinion that the Jay Mill spring at Chickamauga was contaminated from the surrounding sinks.

Dr. Park L. Myers, a contract sur-geon from Ohio, who was engaged in the hospital of the Second division of the First corps at Chickamauga, differed from most of the physicians in his estimate of typhoid. He said that while they believed 90 per cent of the sickness at the camp to be typhoid, he did not believe that to exceed 20 per cent was of that character. He also took issue with those who charged typhoid to the agency of flies, attributing it to the water. He thought most of the diseases at Chickamauga Park were miasmatic. He said it was true that on some occasions it was neces-sary to have patients at this hospital lle on the ground for as much as ten hours at a time until provision could be made for them. Colonel G. K. Hughes, division super-

intendent of the Southern railroad, gave the commission information as to the trouble encountered in moving the troops. He said that as a rule the soldiers had co-operated in the work of the railroad company, but that there had been some disorder at times. He mentioned one instance in which Com-pany F, of the Fifth Pennsylvania, had broken up all the furniture of two cars near Lexington. Ky., on the plea that the cars were not fit for soldiers to

Major General James H. Wilson, now commanding the First army corps, said he was in charge of the First di-Park. He left there with his command about July 1, bound for Porto Rico. At Charleston he was kept some two or more; he did not know whether it was on account of a lack of transportation or what. Here typhold fever broke out, and when he did get off he had to leave 70 cases of it behind. The disembarkation at Porto Rico, he said, took 11 days, when it should have been accomplished in two. This, he claimed, was on account of not having steam launches, for he asked the department in vain. In Porto Rico the health of his troops was good on the march, but as soon as they came to a standstill sickness broke out General Wilson said he had found the

government rations good and sufficient. The most of the sickness among the troops was caused by the men eating fruit and trash. "I consider Chickamauga Park one

of the finest camps in the world," said General Wilson. "I never saw its su-perior, unless it is Camp Hamilton, here at Lexington."

Captain Charles W. Golden, com-missary of the Second brigade, Third division, First corps, testified that on nearly all occasions he had found the rations good and in sufficient quantities, and that all requisitions made had been honored, he thought, as promptly as possible.

Lieutenant Colonel Frank D. Baldwin, inspector general on General Wil son's staff, and who was on General Wade's staff at Chickamauga, gave some sensational testimony concerning

the conditions there. "When the camp was first established there," he said, "I did not inspect a single hospital but what I found it in a filthy condition. Reports were made of this to the commanding general and improvement could be observed for a few days. But in a short time matters would get as bad as ever. About the time the camp was broken up this had

Colonel Baldwin said that, so far as he knew, General Compton, commanding the Second division, only inspected his command on Sunday morning, and that he did not know of either Genorps commander, having inspected the

TERRORIZED BY MOONSHINERS. Lawless Element Destroving Proper-

ty of Law Abiding Citizens, Little Rock, Ark., Nov. 1.—It was re-ported Sunday night that troops would be sent to Cleburn county yesterday to clear the disturbance caused by moonshiners, but none were sent, and the probabilities are that none will be unless United States troops, as the state militia is disorganized and no citizen soldiers are available.

From reliable reports received there the situation is very serious. The moonshiners are waging a relentless war upon the "informers," or the law abiding element. In some cases houses and barns have burned at night, live stock of all kinds belonging to in-formers has been killed and farm implements and other property broken to ZARAH, the world-renowned Egyptian Astrologer, who has been creating such astrologer and destroyed wherever the finishment theroscope delineation of your life. > Omaha's Exposition Ended. Omaha, Neb., Nov. 1.—The trans-Mississippi and international exposi-tion closed at midnight. The closing hours of the enterprise were the most brilliant in the history of the five months' exhibition. It is estimated that 75,000 people crowded the grounds yesterday. Up to yesterday morning 2,552,396 people had registered at the turnstiles, so the grand total will coniderably exceed 2,600,000. The exposition was a financial success, something over \$400,000 remaining to be divided among the stockholders.

Six Scalded by Exploding Boiler. Bellaire O., Nov. 1 .- An explosion yesterday in the main boller room at the Bellaire Steel company's furnace demolished the entire building and fa-tally injured and scalded six men. The explosion was caused by the explosion of natural gas that escaped from a main and collected in the top of the boiler house. The injured are: Austin Bishop, Thomas Woodrum, John Murray, Fred and Charles Glatzer and Bert Conroy, all of whom were caught un-der falling walls and scalded by escaping steam.

The trouble lies in the fact that too few women enjoy perfect health and strength of the special womanly organism. A woman who is not well and strong locally cannot enjoy good general health. Dr. Pierce's Favorite Prescription cures all weakness and disease of the delicate and important organs concerned in wifehood and mother-hood. It is the most perfect and scientific remedy ever devised for the peculiar all-ments of women. It restores womanly power, strength and virility. It tones and builds up the nerves which have been shattered by suffering and disease. It corrects all irregularities and derangements and stops exhausting drains. It restores weak, nervous invalids to perfect health. It is intended for this one class of disorders and is good for no other. It is the discovery of Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. No other known medicine can take its place.
