Further Evidence of Weakness in the Medical Department.

Dr. Edger A. Mearns Says the Sites Chosen Were Disease Breeders-Major Glennan Says His Recommendations Were Unheeded.

Lexington, Ky., Nov. 2.-Before the war investigating commission yesterday Chief Commissare Marshall, of Camp Hamilton, denied the statements made by Lieutenant Colonel Mitchell, of the First territorials. He said every d that the requisition had been honored from the territorials.

General J. C. Bates testified as to the Santiago campaign, the camps at Mo-bile and at Chickamauga. He went to see General Brooke regarding the lack of equipments, clothing and other sup-plies. He said: "The day before we left Mobile we got pretty well supplied. These were supplies for recruits. At Santiago we had bread and meat al-ways. At Montauk Point I learned that the Long Island railroad had an exclusive contract to haul the soldiers

fully short. The medical officers said they could not get them. This was es-

pecially true at Siboney. In going over we had enough medical supplies, but we were cut down. We had trouble in getting ambulances taken to Cuba. We got one for each regiment and one for the squadron. I think the ambulances I took were the only ones ashore when the rough riders' fight occurred on the 24th of June." When asked what in his opinion was

the weakness in the medical depart-ment, General Bates said he thought a great mistake was made in not sending medical officers in sufficient numbers with regiments ordered to the field. Additional transportation should have been furnished for medical officers and medical supplies, ambulances and

Replying to leading questions by Dr. Conner General Bates said: "I think there is not sufficient excuse for medical supplies being short in

Cuba. Better preparations could have been made for transportation. We had no way to shoe horses and mules. I have no recommendations to suggest as to improvement in war department regulations nor regarding the rations. These matters have been subject to consideration of boards and able officers and I don't care to offer an

opinion." Dr. Edgar A. Mearns, surgeon in charge of the Gibbs General hospital, Lexington, was asked regarding the sanitary condition of Camp Thomas, where he was brigade surgeon. He read a report on the condition of the sites there which showed they were disease breeders. He thought the men detailed from the regiments to the division hospital were incompetent. Dr. Mearns condemned the water supply at Camp Thomas because there was typhoid fever there.

Major J. D. Glennan, who was captain and assistant surgeon in the regular army and was made major and brigade surgeon of volunteers June 4, said that he found a much larger amount of sickness among volunteers than he had been used to seeing, that he found the sinks left open and not dug deep enough to make the camp healthful, and that the water supply was affected by this. Major Glennan said he reported on

these conditions both verbally and in writing, and made certain recommendations, but that no attention was ever paid to his reports. He said he tried to get lime, that requisition was made on the quartermaster's departnent and they said that they did no furnish it, that then requisition was made on the medical department and Dr. Huidekoper, the corps surgeon, disapproved the use of lime and returned the requisition. Major Glennan stated that he knew of certain regiments where the sick were kept for weeks because the division hospital had to room for them. Major William Cogswell, surgeon of the Eighth Massachusetts, said that when his regiment reached Chattanooga it was kept in the freight yards 15 hours, and it took them four hours to be transported to the park; that the men went two weeks without fresh ment, their health was greatly injured and a large number were taken sick The doctor said that in three months and a half when he was at Camp Thomas he knew of Dr. Huidekoper, the corps surgeon, having visited the camp

Encouraging the Sick to Use This Greatest of Remedies.

Furthering the benevolent advice of the with the tender mercles of charlty is a Associated Charities in recommending matter of history known to all the world. Associated Charities in recommending the sick and suffering to use Dr. Greene's Nervira blood and nerve remedy— the grand cure for disease which Rev. Dr. DeWitt Talmage used and recommends to the people, and concerning which Mrs. Henry Ward Beecher wröte highest präise of its wonderful beneficial effects— Clara Barton, President of the Red Cross So-ciety, now gives public indorsement of their great remedy which Is so perfectly and electually curing the people from their complaints.

ciety, now gives public indorsement of the great remedy which is so perfectly and elicetually curing the people from the first complaints.
 Why will people continue to suffer and drag out an unhappy and miserable exist tence of sickness, pain, weakness and debility when there is a remedy sure to cure Dr. Greene's Nervura blood and nerve remedy has been in our hands but a short the weakness of people to be the most wonderful cure for disease ever known. It cures where all others fail. Physician declare Dr. Greene's Nervura to be beyond doubt the grandest medical discovery of this century, and recommendation can this and suffering of disease.

A SENATOR'S WARNING.

Mr. Hoar Declares Our Institutions Imperilled.

OPPOSES TEERITORIAL ACCESSION

No Authority Under the Constitution. to Acquire Any Foreign Territory, Save by a Treaty Approved by the Senate by a Two-thirds Vote.

Worcester, Mass., Nov. 2 .- A large and enthusiastic audience greeted Senator George F. Hoar, Congressman William H. Moody and Speaker John L. Bates in Mechanic's Hall last night. Three hundred Republican leaders occupled seats upon the platform with

also to my mind crowded with danger. The dag of Spain, formerly the proud-

est power on earth since the day of the Roman empire, has gone down in darkness and in blood before the victorious navy and army of the United States. The flag of the United States has risen in the eastern sky like a new constellation. Let us not accept the duties and responsibilities of this victory in a temper of vulgar valuelory, still loss of a vulgar greed of power or of gain. The United States comes to the oppressed people, east and west, as a great deliverer. To deal with this great occasion by talking about coaling stations and trade advantages degrades and belittles it. We have not over-thrown Spain, we have not perilled the precious lives of our sons that we may add to our possessions, or that we may make money out of our new relations. "But yet the first duty of American

people is to themselves, and when I say this I say it in no spirit of selfishness or of indifference to the weifare of mankind. On the contrary, I believe that the highest services the

American people can render to mankind and to liberty is to preserve unstained and unchanged the republic as it came to us from the fathers. It is by example, and not by guns or by sayonets, that the great work of Amera for humanity is to be accomplished. And in my opinion we are today in a great danger-a greater danger than we have encountered since the Pilgrims landed at Plymouth. The dan-ger is that we are to be transformed from a republic founded on the decla-ration of independence, guided by the counsels of Washington, into a vulgar, commonplace empire founded upon physical force.

"I for one am not dazzled by the example of England. The institutions of England which have enabled her to govern successfully distant colonles and subject states are founded, as Mr. Gladstone pointed out, on the doctrine if inequality. Our institutions are founded on the doctrine of equality. If we are to outstrip England in na-tional power it must be by pursuing our own path and not by following in hers.

"It is said that Porto Rico is already ours. It may be that Porto Rico is to become ours. But there is now no au-thority under the constitution of the United States to acquire any foreign territory, save by a treaty approved by the senate by a two-thirds vote, or by an act of legislation in which the presi-dent, the house of representatives and the senate must unite. It is said that the Philippine Islands are already ours by the right of conquest. For one I deny this alleged right of conquest. Human beings-men, women, children, peoples-are not to be won as spoils of war or prizes in battle. It may be that such a doctrine finds a place in the ancient and barbarous laws of war, but it has no place under the Ameri-can constitution. It has no place in

GARMAN'S GENERAL DENIAL. Ewallow's Charge Dented by the

Chalrman and by Lawyer Kink. Philadeiphia, Nov. 2 - Chairman John M. Garman, of the Democratic state committee, makes the following statement: "There is absolutely no founda-tion for the Swallow-Keck-Miller story I am prepared to make allidavit to thi denial, and may deem it advisable to do so. There was never any conversa-tion whatsoever between us of the character mentionel in the Miller af-fidavit. The fact that Dr. Swallow gets up in a public meeting and use a story of what somebody said to some body else, and gives it credence, shows that he is willing to father any sort of tale for the sake of the temporary ex-citement it may produce.

Wilkesharre, Pa., Nov. 2.-Charles E. Keck, the Wilkesharre lawyer who is charged by E. C. Miller, of Williams port, with being State Chairman Gar the speakers. Senator Hoar presided, and was the principal speaker. After making reference to local issues in the campaign Sonator Hoar said: Word of truth in them and that they "This year has been crowded with history and crowded with glory. It is more, he says, he does not know Miller and never had any conversation with

him. Karl's Clover Root Tea is a pleasant Jaw tive. Regulates the bowels, purifice the blood. Clears the complexion. Easy to nake and plemant to take, 25 cts. Sold by P. D. Kirlin and a guarantee.

Mineral Wealth of the Philippines. Washington, Nov. 2 - Admiral Dewey has forwarded to the maxy department a memorandum on the mineral re-sources of the Philippines, prepared at the admiral's request by Professor George F. Becker, of the United States geological survey. Only about a scor-of the several hundred islands, he says are known to contain deposits of val mable minerals, including coal, gold, sil ver, copper, lead, iron, sulphur, markle, oil, gas, platinum and pearls. Of the coa Mr. Becker says that it is analagous to the Japanese coal and that of Wash-ington, but not the Welsh and Penngylvania coat

Mayor Moores' Legal Fight.

Lincoln, Neb., Nov. 2.- Attorneys for Frank E. Moores, mayor of Omaha, yesterday filed with the supreme court a motion for rehearing and reversal of judgment from the decision rendered two months ago ousting him from of-The court at that the sustained the allegation that Moores was a de faulter at the time of his election, and therefore ineligible. Mayor Moores, in his motion, insists that the writ of ouster is at variance with previous de-He cisions and without precedent. He has other irregularities. served nearly two years of his term.

Jollity and exhuberant health are a pro-verbial combination. The hearty man who is alwaysi aughing doesn't have any trouble with his digestion. It has been said that langhing makes people healthy. The truth is that health makes people haugh. It is impossible to estimate the tre-mendous influence of health upon human character. A man with a headache will not be in a happy, contented frame of mind. A man who suffers from a weak stomach and an impaired digestion will sit and grauble through the best meal ever prepared. A billious man who is not a bore, is deserving of a place in a museum. A nervous man who is not petulient and fault-finding is a curiosity. All these con-ditions lead to grave discasses, when the victim becomes not only disagreeable, but

A NEW REPUBLIC.

The United States of Central America Has Commenced Business.

San Francisco, Nov. 2.—The steamer Acapulco, just arrived from South America, brings news of the coalition of three Central American states-Sal-vador, Nicarauga and Honduras-which will be conducted under a common administration to be known as the United States of Central America. inauguration of the new regime was to be ushered in vesterday, according to the Acapulco's passengers, and : grand celebration in honor of the event was to be held at Amapala, which is to be the seat of government.

Under the form of government the administration passes into the control of a representative from each of the republics-D., Salvador Callego of Salvador, Migu ; Agnel Ugarte of Hon-duras and Dr. Manuel Corrolel Matus of Nicarat 21.

The three gentlemen mentioned above will continue in power until the 14th but not one case in a hundred of heart trouble of March next, when they will formally elect a president of the United States of Central America, who will hold office for four years. Advices state and poor digestion is because both organs are that the three countries have practically agreed upon J. Rosa Pascose, of Salvador, for the executive chair.

In the meantime the presidents of the three republics will assume the grade The three gubernatorial candidates are General Thomas Regalado, Horacit

Villeoicencia and Carlos Melondez,

It's Winning New Friends Daily. What? Pan-Tina for coughs and colds. At Gruhler Bros., drug store.

To Investigate the Marshals.

Washington, Nov. 2 .- Commissioner of Indian Affairs Jones said today that in the Chippewa region had been set on foot, that he would welcome an inves-tigation of what might have been said by him, and that if it should be found that what he had stated as his infor-mation. The prompt assimilation of food. This can best be done by the regular use after meals, of some safe, pleasant and effec-tive digestive preparation, like Stnart's Dysmation should prove after all to be wrong he would be only too giad to wrong he find it so.

Cousin of Prince Honenfohea Snielde.

Detroit, Nov. 2.-A letter left by Mrs. Amelia Soonebend, who was found dead in her bed nine days after she had committed suicide, declares that the deceased was a cousin of Prince Hohenlohe, the German chancellor. Statements by the woman' daughters seem to corroborate this claim of relationship.

HEART DISEASE.

SOME FACTS REGARDING THE RAPID INCREASE OF HEART TROUBLES.

Do Not be Alarmed, But Look For the Cause.

Heart troubles, at least among Americans, ire certainly increasing and while this may largely due to the excitement and worry of American business, it is more often the esult of weak stomachs, of poor digestion. Real, organic heart disease is incurable s organic.

The close relation between heart trouble controlled by branches of the same great nerves, the sympathetic and Pneumogastric. In another way, also the heart is affected by that form of poor digestion, which causes gas of governors, and immediately after and fermentation from half digested food ; thirst. Ice water was sold at \$1.25 a there will be an election in Salvador, there is a feeling of oppression and heaviness pitcher. The matter was reported, but in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action ; hence arises palpita-

tion and short breath. Poor digestion also poisons the blood, makes it thin and watery, which irritates and weakens the heart,

The most sensible treatment for heart trouble is to improve the digestion and to insure the

drug stores and which contain valuable, harm-

of the Eighth Masshchusetts but twice. EVAN J. DAVIES. He had great difficulty in securing medicines, he said, and had to buy

drugs out of a private fund. Dr. Thomas C. Chalmers, captain and assistant surgeon of the Twelfth New Livery and Porto Rico, testified that at Chickamauga his regiment could not only not get medicines, but could not even get blanks to make requisition for them. In regard to the transport Massachu-setts, on which he went to Porto Rico, Dr. Chalmers said: "There was no regular cooking on board, and the men were unused to eating cold rations. The reserve hespital men were sup posed to have been well men, but subsequent events proved that they did not have enough to eat. The men never could get enough water to satisfy their

the custom was not stopped. The mules and horses on board went for 24 hours at one time without water." Lieutenant Colonel James Parker, of the Twelfth New York, said that when Superior Sarsaparilla...

the troops arrived at Chickamauga the men had to sleep on the wet ground, with only one blanket and no change of clothing. "When the volunteers first arrived at Chickamauga," said Colorel Parker, "their tongues were literally hanging out for water. For three weeks

The Sure La Grippe Cure.

It is safe to say that the regular, persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble except cancer of the stomach.
Full tized package of the tablets sold by druggists at 50 cents.

the code of morals of the people of the United States.

"I have stated elsewhere the considerations which in my judgment acquired the acquisition of Hawaii. Hawall came to us with the consent of her own government, the only government capable of maintaining itself there for any considerable length of time. In the case of the Philippines we are asked to subject a nation and to hold it in ed to subject a nation and to noid it in subjection. We get them by conquest and hold them by force. In the case of the Hawaiian Islands we get them by compact made with their lawful

government. "Some of our good friends have said thoughtlessiy in their zeal that where the American flag goes it must stay. But surely they cannot wish to com-mit the country to that doctrine. We planted it in the City of Mexico. But no man demanded that it should stay there. If the war goes on we shall plant it on the coast of Spain, but we have no desire to hold permanent dominion there. "If the Philippine Islands become

ours, then under the late decision of the supreme court every child hereafthe supreme to the becomes an American citizen, free to come, free to go. Are you going to hold them as subjects? Are you going to have a trained and governing class? Are you going to nave the national tax gatherer the most frequent and best known visitant to every American house? Are you going to increase many fold your national debt?"

A Narrow Escape

A Narrow Escape. Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth. I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption. Goughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottles free at A. Wasley's Drug Store. Regular size 500 and \$1.00. Guaranteed or price refunded.

Canada's Prohibition Vote. Ottawa, Ont., Nov. 2.-Official figures on the recent vote taken through out Canada on the question of prohi-bition were given out by the state department yesterday. The majority in favor of prohibition is 13,884. Only 23 er cent of those entitled to vote cast their ballots for prohibition.

A Good Thing for a Bad Cough. What? Pan-Tina, 25c. At Gruhler Bros., irug atore.

From Cinclinati to Cuba. Cincinnati, Nev. 2.-Cincinnati is to be the northern terminus of a new fast system of paracruger transportation be tween the north and Cuba. It is about settled that an agreement will go into effect on Dec. 1 by which tourists or travelers generally desiring to visit Cuba can make the journay from here to Havana in 54 hours.

Hundreds of lives saved every year by havng Dr. Thomas' Eclectric Oil in the hous ust when it is needed. Cures croup, heals burns, cuts, wounds of every sort.

fault-finding is a curiosity. All these con-ditions lead to grave discasses, when the victim becomes not only disagreeable, but dependent as well. A wise wife will real-ize that while the old saying that a 'man's heart is in his stomach.' is not literally true, it is a fact that his stomach sweetens or sours his character according as it is literation biscovery is the best of medicines for the conditions described. It makes the weak stomach strong, the impaired digestion perfect, invigorates the liver, purifies and enriches the blood and tones the weak stomach strong, the line liver, purifies and enriches the blood and tones the nerves. It tears down half-dead, inert issues and replaces them with the firm muscular dissues of health. It builds new and healthy nerve fibres and brain cells. It dissipates nervousness and melavoholy and imparts mental elasticity and courage. It is the best of all known medicines for nervous disorders. "Through your skillful treatment I am once more a well man." writes J. N. Arnold, Esp. of Gandy, logan Co. Nebr. "I suffered for years and could not find relief until I commenced taking your 'Golden Medical theory."
