MAJOR MARCHAND AT CAIRO,

No One Permitted to Interview the French Officer-Delcasse and Salisbury Must Receive the First News Contributing to Harmony,

London, Nov. 4.-An official note issued last evening says: "There is now good reason to hope that the political situation is ameliorating. It can be confidently stated that when the cause Britain on the Upper Nile is removed, which is expected soon to be the case, the door will again be open for a re-sumption of those friendly negotiations which happily characterize the normal state of the relations between the two countries."

I also had difficulty with the kidney secre-tions, accompanied by too frequent action. Paris confirms the ear reports that M. Dupuy, the premier, has decided to wash his hands of Fashoda and to recall Major Marchand, for whose mis-

The Daily Chronicle, under reserve, publishes a remarkable story suggesting that the sirdar captured documents proving that Major Marchand, before the battle of Omdurman, sent to the khalifa a French flag, inviting him to hoist it, and so, by becoming a French ally, to deter the Anglo-Egyptian forces from attacking him.

MAJOR MARCHAND AT CAIRO. No One Permitted to Interview the French Officer.

Cairo, Nov. 4 .- Major Marchand, the commander of the French expedition at Fashoda, arrived here at 7 o'clock last evening. He was met at the railroad station by the French officials and residents. The explorer looked thin and worried. Directly the major appeared at the door of the train the spectators rushed forward, waving hats, sticks and handkerchiefs and crying "Vive Marchand." The latter, who was much pleased and touched at the reception accorded him, drove off to the French diplomatic agency amid more cheering. The French officer, who is short, active and bronzed, was dressed in civilian clothes.

Only two Senegalese soldiers accompanied Major Marchand, whose future movements depend upon the instructions which Captain Baratier brings him.

At the French agency it was formally announced that no one would be per-mitted to interwiew the French officer, as M. Delcasse, the French minister of foreign affairs, and the Marquis of Salisbury must be the first to "receive all news which may contribute to the harmony of the two countries.

# SENOR RIOS ARGUMENT

Against Yielding to the Demand For the Philippines.

COLONIAL REVENUES PAWNED.

Meantime the American Peace Commissioners Must Consider the Duty They Owe Aguinatdo and His Insurgent Followers.

Paris, Nov. 4.-Last Monday the United States and Spanish peace commis-sioners left the definite limitations of the protocol and entered the wide field of diplomacy, where an open question is to be decided. Both commissions realize that the area is ample enough for some maneuvering, though on the American's side the tendency to evolution is much more compact than those of the Sounlards. Both would undoubtedly be gratified to reach a mutual conclusion without compulsion. At Monday's joint session the Amer-ican commissioners laid down a prop-

osition in two parts. First, that the United States should take over the Philippines entire; second, that in so doing they should reimburse to Spain the sum of her permanent and passific expenditures in the Philippines. The logic of the situation compelled the Americans to make the first move.

Having heard the American proposition, this the Spaniards might have immediately declined it, as they cer tainly will do at today's session.

Whether they will accompany the refusal with a counter proposition has
not been definately ascertained, though that course seems improbable. The reretire from confronting positions until one or the other shall have reformed its lines for the next meeting, which will probably occur next week. If the Spanish commissioners entertain a hope that after the elections in the United States the American commis-sioners will relax their demands as to the Philippines, they have not uttered It here for the public ear, nor has any thing been said or done by any mem ber of the United States commission to warrant such a hope.

The American commissioners came to Paris with no greed for Philippine territory. To an unofficial bystander the

SENOR MONTERO RIOS. question with them has seemed to be rather to find the right path and to walk in it than by a bold use of power to wrench the utmost advantage from

The fact is, the commissioners have felt that the conditions precedent render the letting go of the Philippines as difficult as their retention There is, for instance, the question o the future of Aguinaldo, his chiefs and followers. The Philippine leader and his immediate associates in the insur rection accepted exile and refused half a million dollars at the hands of Spain as an inducement to cease their cebellion. They went to China, but they were brought back to the Phil-Ippines on board a United States warhip. Aguinaldo received from Admiral Dewey several thousand stands of the United States in the war against

The insurgent leader and his chiefs have forfeited their lives. Should the United States return the Philippines to Spain Aguinaldo and his fighting fol-lowers must be surrendered to death or taken away by the United States, and the American commissioners fee that the transplanting of them would be impracticable from the point of view of the United States. Territory to shelter them is felt to be necessary in the Philippines.

Your correspondent ascertains from Spanish sources, beyond question au-thentic, that before the Philippine question is settled the Spanish commis-sioners will declare that they are not here solely to save or to gain all the money possible from the United States. Senor Montero Rios, president of the Spanish commission, and his colleagues, waiving for argument any classifica-tion of the Spanish or colonial debts will point out that Spain has borrowed on the collateral of her colonial revenue. They will concede that the national guarantee may have been added, but that for all purposes of this con-

tention the fact is irrevelant.
It will then be frankly urged by her commissioners that Spain has pawned the revenues of the Philippines and of Cuba: that she did so in good faith to her creditors, and this being true. that she has no moral right to give away or rehypothecate territory already pledged. Senor Rios will urge that should

Spain take that course her creditors might charge her with defrauding them to save the Canaries, Carolines and Balearic Islands, and to avoid possible damage to the peninsula. The Spanish commissioners will protest that such a transaction would be intolerable to Spain, as it would brand her as a robber and poltroon. They will declare to the Americans that rather than be so pilioried by their creditor they will, if they must, be deprived of their remaining colonies and suffer devastation of their mainland.

If the United States feels it a high duty to retain the Philippines Spain's envoys will declare that she has an equally sacred duty in holding them to the pledge of their revenues in honorable indebtedness, and that, while pos sibly unable to make good the in-debtedness in dollars, Spain can, if only by a fruitless adhenence to high purpose, save her name from the brand of theft.

## WEALTH OF THE KLONDIKE.

An Expert Declares It Will Reach \$100,000,000 Annually.

Chicago, Nov. 4.—Captain John J. Healy, vice president of the North American Transportation and Trading company, who has just returned from a six years' sojourn in the Kiendike, said in an interview: "The truth about the Yukon country is that it will yield \$30.000.000 between now and next October, and with the completion of government roads and the operation of quartz mining machinery the output will amount to Floromeon in gold an nually. In less than five years 100,000, whites will be at work in the Yukon, and a hundred years of steady will not exhaust profitable mining in Aluska.

'Now the question arises," said Captain Healy, "how are these statements to be reconciled with the hard luck tales brought out of the Yukon. Whether it is believed or not, the simple truth is this: Scores o, men who have gone to that country don't know pay dirt when they see it. They are farmers and greenborns, and cannot set a state has or make a riffle to save their lives. A state box must have a certain puch or the washings will not to these things, while others are not."

Fishing for Health,

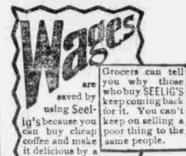

When a man breaks down with that dread disease, consumption, and recognizes his condition, he starts out to fish for his condition, he starts out to fish for health. He tries this thing and that thing He consults this doctor and that doctor. He includes in all kinds of absurd athletic exercises. He tries first one climate and then another. He tries the rest cure and then another. He tries the rest cure and the work cure. He grows steadily worse.

That is the story of most consumptives. Finally, when the consumptive dies, the dector shrigs his shoulders and pronounces consumption incurable. A thirty years' test of Dr. Pierce's Golden Medical Discovery has demonstrated that it cures of per cent of all cases of consumption, if taken in the earlier stages of the disease, before the lungs are too far wasted. In a consumptive there is a weaker spot than even the lungs. That spot is the stomach. A consumptive never really begins to die until his stomach gives out. The 'Golden Medical Discovery' not only braces up the stomach, but acts directly on the lungs, healing them and driving out all impurities. Honest medicine dealers will not urge you to take an inferior substitute.

"I had a very bad cough, also night-swents, and was althout in my grave with consumption, writes Mrs. Clara & Mchuyre, Box 177. Ashland, Middlesex Co. Mass. "A friend of mine who had died with consumption came to me in a drawn and told much better. I kept on until I had taken three bottles. That was all I needed. I got well and strong again."
